This store enjoys a great percentage of students' trade. We appreciate the friendly feeling and patronage. We desire to impress upon T. C. U. students that their patronage will be appreciated when they come to Fort Worth in the Fall. We welcome you and will do all in our power to make you feel at home.

#### 72,500 FEET OF FLOOR SPACE.

covered with merchandise, the kind that carries a guarantee of satisfaction, is a good store for you to know. Think it over. We carry everything for men, women and children.

#### WELCOME T. C. U. STUDENTS

To Fort Worth and her Best Store.

**Burton Dry Goods Co.**

#### FOOTBALL 1910—FORT WORTH

#### FT WORTH BUSINESS OFFICE OPEN

J. W. Massee Will Be on Hand with His Team about August 15.

Football Captain J. W. Massey has arranged for quarters in the new T. C. U. location and will assemble his team about August 15 for a series of practice games. He is in correspondence with a number of No. 1 athletes who say they will be with us next year in Fort Worth, which insures T. C. U. having one of the strongest football teams in the State next year.

It is easy to get good men for T. C. U. athletics; men who play well; enjoy their membership in a winning team. T. C. U. students are constantly on the alert for athletic material and the captains and managers of the different athletic teams have the pleasure of making selections from only the best material.

All athletic frinds are urged to keep busy and send in names of any good material along with their list of prospective students.

Lois—"Grits what were you doing running around the campus this morning?"

Grits—"O, I was chasing butterflies for Nita."

Some One There at All Times to Receive Application for Rooms.

The new business office is open and will be in charge of some one of the professors continuously through the vacation. All visiting friends will be cared for over night and will be furnished elegant, comfortable quarters at all times, day or night. Do not fail to make T. C. U. your headquarters while in the city. Quite a number of reservations are already in hand for rooms for both boys and girls. Choice rooms will be given in order of application.

T. C. U. has never required her patrons to sign contracts or pay money in advance during vacation for rooms as is the custom with other schools, but the rooms are assigned in the order of application. It is therefore necessary to be prompt in sending in your request for quarters. Rooms are engaged both by letter and personal visit. Do not delay YOUR engagement—attend to it today.

Dr. Lewellen has almost completed the amount required to build the Bible College for T. C. U. at Fort Worth.

**Students of T. C. U.**  
When you come to Fort Worth at the opening of your Fall school term, you will find a hearty "welcome to our city—and our store" awaiting you in  
"TEXAS GREATEST STORE FOR MEN."  
**A. and L. AUGUST** 7th. and Main Sts.  
FORT WORTH, TEX.

## RALLY TO OLD T. C. U.

Patrons Urged to Visit Fort Worth and Investigate Personally---Prof. Anderson There to Greet You.

We are this day placing the Skiff in the mails bearing to all our friends and patrons the long-looked-for message regarding the location of the school. We most earnestly implore all friends of the institution to rally to its support and allow no consideration to cause them to withhold their patronage until they have made a thorough investigation. It will cost but a small amount to visit Fort Worth and inspect personally the situation. Comfortable rooms will be provided any of our patrons who wish to remain overnight in Fort Worth during the summer. Prof. Anderson, Business Manager, will be in charge and will take pleasure in aiding the patrons in selecting a home for the young men or in selecting a room for the girls. Let no one conclude that better school advantages or safer surroundings may be found than our temporary quarters. The old students will have the same teachers, the same course of instruction and the same careful attention and the only change will be in the location. If perchance any should change schools for a year it would necessitate a complete revolution in their school life; new courses, new texts, new teachers, new environments, the building up of new friends.

(Continued on Page 4.)

## THE SKIFF

Published Weekly at Texas Christian University, North Waco, Texas.

B. B. HULSEY Manager.

GROVER W. STEWART, Publisher.

Entered at Waco Post Office as second-class mail matter.

As stated elsewhere, the Skiff will be published weekly during the remainder of summer to let our friends and patrons, old students, new students and everyone interested in T. C. U. know what is being done here and at our new home in Fort Worth. If you do not get one, and you come under one of the above heads, it is merely an oversight at the office. A card with your name and address, with the request that you be put on the mailing list, will correct the error.

In view of the fact that no one was elected to edit the summer edition of the Skiff is in the hands of Mr. B. B. Hulsey and Mr. Grover W. Stewart. Mr. Hulsey is manager and will handle the advertising end at Fort Worth; Mr. Stewart will publish it at North Waco. All articles intended for publication in the Skiff should be addressed to Grover W. Stewart, North Waco, Texas.

The size of the Skiff was reduced for the summer for two reasons: first, because the news at the University is not as plentiful during vacation as it is during the school months; second, to accommodate the size of our press at the Print Shop.

The columns of the Skiff are open to contributions from T. C. U. students, old and new, and friends, as it ever was before. If you know anything worth telling—and which would be of interest to the student body, don't hesitate to send it in. You will not only be doing yourself an injustice, but you are doing your fellow students a wrong. The Skiff will go in the mails each Friday until school starts, except this week, the first issue which is late, and will be printed Wednesday. Therefore all contributors are requested to keep this in mind so they will not be disappointed if something they send in fails to come out the same week it is sent in. It will be published, but it will have to be in the hands of the publisher early in the week to get in that week's issue.

The University Printer, and publisher of this paper, is hoping to get a pony cylinder press when he goes into his new home at Fort Worth. He is hampered to a very great extent in producing the amount and kind of printing that must be done on account of only having one little 10x15 Chandler & Price job press. If any one has a good second hand pony cylinder press, or knows of some one who has, and they wish to sell it at a bargain, they would do well to communicate with J. F. Anderson, Business Manager, T. C. U., North Waco, Texas.

Let all friends remember the new location, corner of First and Commerce, also corner of Weatherford and Commerce, near the court house, in the edge of the rooming district of the city. Cut this out and take any car running north from the Union station. All cars pass within half a block of the T. C. U. headquarters.

## TEMPORARY QUARTERS

Buildings Already Secured and the Board Is to Be Congratulated.

## EVERYTHING SO CONVENIENT

Two New Flats Just Completed, Elegantly Furnished, Situated in a Fine Locality.

A committee from the Board consisting of the Chairman, T. E. Tomlinson, C. W. Gilson, Van Zandt Jarvis, and three members of the new Board, prominent business men of Ft. Worth, made contract for one year for two new flats just finished. Each flat is 100x150 feet on the same block. One fronting on Weatherford street and the other on Commerce, S. E. Corner from Court House Square, in the edge of the quiet rooming district of the city. The two flats join each other on the corner by covered arch. The Weatherford flat is carpeted throughout, stairways, halls and rooms with select Brussels carpet. It is furnished with the best obtainable furniture, elegant iron beds, cotton felt mattresses weighing 40 pounds, oak furniture of latest designs, just installed. They are provided with hot and cold water, ample equipment of the latest designs of plumbing, heated with gas in every room, lighted with electricity and finished throughout in an elegant manner. The walls are all plastered. The location is all that could be desired. Two girls will occupy one room and every room is an outside room, made so by a very unique arrangement of the system of air spaces dividing the sections of the rooms throughout the building. These air shafts are 8 feet wide and give an outside exposure of that depth to every room not located on the outside walls. The room for the lady principal is in the center of the flat, accessible to all rooms. A Lady Principal of several years experience in Female Colleges will preside over the quarters. These quarters for the girls are on the second floor and on the first floor will be located the Business Office, Rest Room, Dining Hall and College of Business. The quarters will also

We Will Welcome You

To FORT WORTH

**The Fair**

Houston, Fifth and Main Sts.

Fort Worth, Texa

be patrolled throughout the night, giving an absolute protection to the Home. As heretofore, lady teachers will occupy rooms in the building with the girls. The Playground and Tennis Court is located on the adjoining block, giving recreation in a restricted, secluded place.

Just in front of the flats is located one of the Christian Churches of the city. The First Christian Church is only a few blocks away and three other churches are located near the building. It is adjoining a very popular residence district. The elegant home of the mother of Mrs. Van Zandt Jarvis is only three blocks away. The home of several members of the Christian church are near by. I think it impossible that more care, caution or investigation for a proper location could have been made by our Board of Trustees who gave the problem almost constant attention for several weeks.

The flats fronting on Commerce street have three stories instead of two, but we occupy no part of the first story. The second story provides quarters for all special departments of the institution. The President's office and the Bible Department will also be located on this floor. The balance of this floor will be given over to rooms for teachers and young men, preference being given to young men whose parents wish us to take special oversight. All other young men will be required to select rooms from an approved list of rooming houses, which will be presided over by some member of the faculty. The third floor of this building will be occupied by the Chapel, Laboratory and classes in the Literary department. All classes will have large rooms, some of them larger than heretofore. Where two young

ladies wish to take a liberal amount of piano practice a piano will be placed in their room at no extra cost. Some of the rooms will give splendid accommodations to the Literary Societies and other activities of the University. The reading room is well provided for and located in the heart of the class room section. This building as well as the rooming houses will be under the discipline of Faculty and will be visited by a duly appointed night watchman. Positively no trouble or expense will be spared in giving our patrons the best management and control of every student placed in the institution. It has been suggested by some rival institution that our temporary quarters will require us to be more or less irregular in the management of the institution. We very earnestly urge every friend and patron of the institution to discredit all such reports. We do not know of any patron at this time who is contemplating a change on this account and we would very much regret to know that any of our former friends or patrons would withhold from the institution any patronage which it is possible to be given at this time of need in the face of our heavy loss of \$180,000.00 by fire and the excessive expense of moving the institution, establishing the same in new quarters, increasing in a large amount the pay roll and in various other expenses which necessarily follow. The new quarters have been thoroughly inspected by the Board of Trustees, the President of the Institution and several members of the Faculty, as well as some of the patrons, all of whom have expressed themselves in being most agreeably disappointed in finding so elegant quarters and so well adapted to our needs in every respect..

COMMERCIAL STREET BUILDING  
Contains class-rooms, chapel, music-rooms and boys' rooms; second and third floors.

## The Wise, the Economical, the Critical, the Skeptical Come to Leyhe's Great Publicity Sale and Be Convinced

Our great publicity sale is the broad way to economy and quality in Piano ownership.

There's a tremendous stock of Pianos here in such variety as was never known, bought of manufacturers under special agreement, demanding the very cream of their product. This makes it a great advantage to the people of this community who contemplate the purchase of Pianos to buy now.

The daily announcement of this sale is attracting throngs of buyers and it's really worth every one's while to visit the store now, whether or not his intention is to buy. There never was such extraordinary quality in Piano character for the price as we are showing in this great publicity sale.

## Prices Reduced From \$50 To \$150

We are factory distributors for the most famous Pianos in the world, including Weber, Kimball, Chickering Bros., Packard, Davis & Son, Whitney, Hinze, Kohler & Campbell, etc., Pianos and the Wonderful Steinway, George Steck & Co., Wheelock, Stuyvesant Pianola Pianos, etc., all offered at the lowest prices in the United States.

The sale prices are the spot cash prices, but easy payments may be arranged to suit the convenience of all who wish time. We ship pianos out of town anywhere on 10 days free trial.

If you can't call, write. Credit coupons are good in this sale.

## WHAT THE MOVE MEANS

The Following Article Answers the Question in Full.

The public mind is in some places badly confused about the removal of Texas Christian University to Fort Worth. Some say that it indicates a roving disposition; some think that it is an effort to get away from something at Waco; and some take it to be a simple auction of the institution to the highest bidder.

Not a one of these is correct, nor are all of them together of any value.

### What it Means to the Trustees

Three of the Trustees (13 in all) and several advisory trustees are residents of Waco, and could have no disposition to send the University elsewhere, nor to escape any local embarrassment, except the ruin of the Main Building and the loss of its contents. It had some indebtedness; but friends were fast taking care of that. It had local competition; but it was rapidly taking care of itself, and was pushing right to the front. It had lost, however, all its class rooms, library, laboratories and its dormitory for boys. It would cost \$150,000.00 to restore these; and the University simply could not do its work without them.

The good people of Waco, and there are no better people, generously offered to try to raise \$75,000; but in their best efforts they did not succeed in getting half that amount. It would have been great liberality in them to have raised \$50,000.00. All well informed people in Waco could easily see where this would leave the University. It was apparent that not a Waco Trustee protested against an effort to do better. The Trustees saw that it was a necessity.

It was never the expectation of the Trustees to accept a bid because it might be the highest; but, after they plainly saw in all probability Waco could not meet the emergency, they sought to take that step which would insure the greatest success to the University for all time to come. In the discharge of their duty, they could not do less. Their people would expect and demand that much at their hands. They knew this, and the whole Board set to work in earnest to accomplish it. To the trustees the move means a duty.

### What it Means to Fort Worth

It is not a commercial event. Some Fort Worth business man may sell some goods to the T. C. U. people; but probably only a few are interested in that accident. On the other hand, it means a building up of a very important addition to the city in one of its most beautiful suburbs.

It means a high class literary and

scientific college—a Southwestern University.

T. C. U. requires the same entrance preparation of its students as the State University, and gives an A. B. equal to that of any University in the South.

It means a leading theological seminary, whose B. D. degree is equal to that of the Eastern institutions, and whose opportunities for training Christian workers of all classes are unusually favorable.

It means an academy of high grade, that will not cheapen to under-grade students, and will not accept rowdy students turned out of the high schools.

It means schools of art, oratory and music conducted by only the best artists in the South; one in which every teacher of art and oratory is trained in the East, and every teacher of music is trained both in America and Europe.

It means a college of business that stands on specially high ground, not simply a drill in bookkeeping, a practice in shorthand or typewriting, such as any city business college offers; but a college offering a full commercial education, including with the usual business branches, history, full course in English, commercial and constitutional law, ethics, political economy, sociology and foreign traffic. Such a fullness of commercial scholarship will prepare teachers or business men of the widest circles.

It means, last of all, a growing University, a broadening of educational vision, a culture of mind, a deepening of moral convictions.

We are aware that these are high ideals; but they are not higher than the people of Fort Worth will welcome, and they are no higher than the young people of the Southwest deserve.

### What it Means to the University

To the University itself the move means a new growth with little loss, larger grounds and better buildings, a location 80 miles nearer the center of patronage, and an outlook toward future greatness hitherto impossible.

It means a deeper hold on the good will of its patrons and a more liberal support from its friends.

It means a chance for many material improvements, long needed, more room and better arrangement of buildings, larger libraries, laboratories, gymnasium and athletic grounds.

It means a greater field for the fine arts, music, painting, and oratory, and a more hearty public response to real merit in teachers of exceptional abilities. These things are important to the University; for they lie at the foundation of its future success.

Miss Nell Andrews has spent the entire summer term in the Waco T. C. U. Office and will be pleased to hear from all her friends with a donation of books or information regarding some liberal friends who will aid her in replenishing the Library. You will hear from her through the Skiff. She has not seen her new home yet but has been assured by the management that the Reading Room will be given a choice location. Let the friends of the institution remember the needs of the Library and send shipments of books, few or many, at the expense of the school. This is important and a small effort on the part of our friends will amount to untold aid to the students during the next year. Prepare a box today and collect one from your friends for next week. Send them to Fort Worth. Do a good service and make Miss Nell happy.

There is possibly no friend of T. C. U. that has not or can readily secure a small collection of ores, minerals, fossils, curios or other material of value for our new museum. There will be set aside a special room for this purpose and we expect our friends to speedily fill it. Do not think that you can attend to this next year, next month, next week as well as now. You are mistaken; the institution needs every effort of its friends all the time. Do this today. Telephone the express man that you have a box to ship to T. C. U.

Some of the most musical sounds around the University this summer are Mildred's singing "I'll never believe another man" and Professor Molino's playing Mendelssohn's "Spring Song" to rag-time.

### PERSONAL MENTION.

Mr. Erle L. Melroy, '04, of Brenham, and Miss Letha Senkey, of Gatesville, were united in marriage at the First Baptist church in the latter city on Wednesday, July 20. After their honeymoon, they will reside in Houston, where Mr. Melroy is engaged in the practice of law. Both of these young people were among the most popular students during their days in college and have a host of friends who join in wishing them a long and happy married life.

Mr. Thurman Allen, class of '10, is visiting at the University a few days on his way from the Milroy-Schley wedding at Gainesville. He and Miss Tomlinson of the class of '10 rendered voice and violin solos, respectively.

Prof. E. E. Faris and Barney Holbert, '10, are assisting in the preparation of the McLennan County tax rolls during vacation.

Alex H. Harwood, '08, is office manager of the Dallas Retail Merchants Credit Association.

G. P. Brous, '10, is teaching in the Hamilton Summer Normal. He will teach science and mathematics in the high school of that city during the coming session.

Gordon B. Hall, '08, is business manager of the Madisonville (Ky.) Journal.

Prof. and Mrs. Albert Cruzan, '10, will teach in the Midland College during the coming session.

Prof. Bruce McCully, for several years professor of English in T. C. U., has been elected to a professorship in the Washington State College. He has completed the requirements for the Ph. D. degree of Harvard University.

Prof. J. B. Eskridge, Paul Tyson, '08, and W. E. Sturgeon, '09, of DeKalb are at the University of Chicago for studies during the summer quarter.

J. O. Wallace, '08, will teach at Brady next year.

Noel C. Carr, '10, has been re-elected principal of one of the Waco ward schools. He was chosen to fill out

an unexpired term last year.

Burt M. Nabors, of Dallas, student '05-'08, is superintendent of Agencies for the Texas Fidelity and Bonding Company with his headquarters at Waco.

Prof. Eskridge is in Chicago University this summer taking examinations for the degree of Doctor of Philosophy. His chief studies are the Greek and Latin Classics, though he offers some work in modern languages. He reports successful examinations thus far. He is a fine classical scholar.

Prof. H. T. Sutton, professor elect of Homiletics and Oratory in T. C. U., is probably the only professional Bible Reader in America. His public readings are received with remarkable enthusiasm. One writer calls him the peer of Edwin Booth. It is hoped he will give some readings in Texas soon. The young men of T. C. U. will find him great in oratory.

### BASEBALL ITEMS.

Louis Drucke is on the regular pitching staff of the New York National League team. He has been the hero of several games during the present season.

Oscar Drucke is making a good record on the Oklahoma City League team.

Morton and Lamonica are with Brownsville in the Southwest Texas League.

The Greenville Y. M. C. A. team is composed largely of T. C. U. players, the following being members of the squad: Procter, manager; Kerr, Witt, Dodd, Buster and Wakefield. "Lengthy" Harris and Stanfield were with the team earlier in the season.

Ellis G. Hardy, who successfully coached the T. C. U. team for four seasons, has been elected manager of the Waco League team for 1911.

MADAM NELL ANDREW—Beauty treatment a specialty. Ladies \$1. Gentlemen free. Adv.

Fort Worth is extending on every hand a hearty welcome to T. C. U. Let us show our appreciation for the good things offered by Fort Worth in bringing a large attendance for the first session.

### BUSINESS COLLEGE ITEMS.

What are you going to do about taking a Business Course?

Don't you feel the need of a practical course in Bookkeeping, Shorthand, Typewriting, Commercial Law and Penmanship?

All the courses given in the College of Business are practical. You will need them all through life.

This year is the year you should take your course in Business.

Business Education not only pays in dollars and cents but is an absolute necessity. What can you do without a course of Business?

In planning your work don't fail to arrange to for either a course in Bookkeeping or Shorthand or better still take both.

Send names of young people you think might be interested in a Business Course.

The College of Business has for several years had a good attendance and maintained a high standard. Let's raise both.

J. A. DACUS,  
Principal.

### NOTES.

From a recent letter to Prof. Anderson from an old pupil of his, and a student in T. C. U. for three and a half years, Theo Edwards of Naracoorte, S. Australia, we learn that he is the possessor of twin daughters (Ruth and Naomi). He sends his best wishes for the future success of T. C. U.

Mrs. Vera Salee Williams, an old student of T. C. U. is the happy mother of a nine pound boy.

Professors Dacus, Alexander and Kinsey are moving to Fort Worth this week. Others will move very soon. Pres. Lockhart visited Fort Worth Wednesday to meet the building committee preparing plans for the new University Buildings.

Prof. Lewellen has raised over \$5000 for a Bible Students' Hall, and he expects to have enough by January 1st to make sure of the building for next year.

The Bible Students' Hall will afford ministerial students a home while in college, low rates for rooms and board, and yet every modern convenience.

Prof. Anderson spends much of his time at the University buildings near court house, Ft. Worth, and is

ready to show patrons and friends of the University the buildings to be used this year. He is also getting everything ready for the fall term.

Mr. Hulsey is doing fine work in Fort Worth both for the Skiff and for the University, and will be one of the leading graduates next June.

The Summer School at Waco has been a success in spite of the loss of the Main Building. More students for college studies were enrolled than during any preceding summer. What will next summer school be in the new University buildings?

It is now expected that the buildings will be ready on the new grounds for the next commencement, and will be regularly occupied from that time on. The street car line is now being built to the grounds.

The University property at Waco has not yet been disposed of; it is in the hands of a committee of trustees, and is offered for sale. It is worth about \$100,000 for school purposes. The foundations and first story of the burnt building are sound, and can be built on with safety. This will save about \$30,000 on a new building.

Miss Ader Estina Culpepper has just returned from a visit to the home of Olen and Mabel Wallace, students of '08.

Miss Kathleen Munn is visiting relatives at Coleman.

### RALLY TO T. C. U.

(Continued from Page 1.)

new school life as well as a new location. Why then should any of our patrons give serious thought for a moment to a change when double precaution will be exercised by the management of T. C. U. next year. There will reside in Fort Worth five members of the Board of Trustees. Brother Gibson, who has always exercised an unusual amount of care for the institution will practically make it his home while superintending the new buildings. Brother Tomlinson will also make frequent visits, and the faculty will be unusually active in their oversight of the school. Let this be the time that every patron will rally to the school in earnest and will give the institution most hearty and loyal support.

Engage your room for next year. Send us list of names of prospective students. Do not fail to see our elegant quarters when in Fort Worth. Bring your friends with you when you are in the city and spend the night in our new quarters. Join the list of loyal students who are giving their support to T. C. U. and using their influence for new students.
