OUR AUNT FROM CALIFORNIA HERE

Clark Girls Present Clever Comedy in Chapel Auditorium Monday

Monday evening, February 15th, "Our Aunt from California" was presented by the Clark Literary Society in the University auditoriuin to a small but appreciative audience.

The play was a clever comedy and eoch chbracter acted her part iu an efficient and characteristic manner.

As Felicia Needey, one of the three sistera, Elsa Lange played one of the most attractize parts. Dignified, superior, bookish, it was very amnsing to observe her cunning tactics with Aunt Merry from California, professing to be dance. humorous, a lover of coon songs, of jakes and of fun, when in reality frivolity was a stab to her cultured dispo-

Mattie Harrel acted well the part of Rosalie, the second sister. In reality indolent, carefree and frnd of fun and hilarity, she also amused the audience by her quick, energetic attentions to Aunt Merry and by her firm belief that she, instnad of the cultured Felicia would be chosen for the companion on the trip to Europe.

age

Lola McFarland, as the third sister, Sally, was easily the star of the play. Her clever impersonation of Aunt Merry, the rich joke on the two sisters, her quick and easy acting made a hit on the audience and kept them in constant

Pansy Bozeman, as Mrs. Needy, the mother of the three girls and Sarah Durrett as Miss Wilcoxngibs, though neither played an especially attractive part, were quite necessary and served to successfully complete the Characterization of the play.

Erskine Long, the real Aunt Merry played an unusual attractive role in the capacity of Aunt Merry. Arriving unexpectedly for a visit and finding already a ridiculous person who presumed to be the real Aunt Merry, ner ready indignation and firm conviction that the clever Sally was a thief, breaght the clever action to a climax, whereupon Sally was the chosen companion for the European trip. No more real Aunt Merry.

'Penelope and her English experience' which was highly enjoyed by the apreciative listeners.

Skifi Has New Manager

The Skiff is now being guided by Homer Tomlinson, the new business manager. The former pilot, Marvin Hill, has resigned because of other duties. Mr. Tomlinson says that from now on the Skiff is to be kepi in shipshape order. He is determined that night. Everybody is invited. the paper shall be out epery Friday

NORTH SIDE HIGH SCHOOL NEW COACH ELECTED STAGES MINSTREL SHOW

The North Side High School staged their minstrel show in the T. C. U. auditorium last Tuesday night. When it comes to "coon" song, dancing, wit and fun making of all kinds, AlG. Field's Ministrel s are not in the class with the black faced comedians from NOW DANIEL BAKER COACH the North Side.

The singing was especially good. Tetrezzini is not in it with this lad, T. C. U. Will Have as Coach when it comes to singing. He was ably assisted by a talented chorous of "coontown" songsters.

"Chief" Myers, as intertocutor, showed great skill in handling his "niggers." The jokes of "Bo" McMillin, Farmer Walthall, and others kept the house in a roar. Jones was a "screaming" success in his "Buck and Wing"

The performance was assisted by our T.C. U. orchestra under whose auspices the show was staged. We have undonbtedly one of the best orchestras in the Southwest.

The proceeds of the minstrel were to go for new music for the orchestra. Prof. Cahoon and the members of the orcheftra however decided to donate act on the part of the orchestra men shows that they have the T. C. U. spirit. It is hoped that they will not choice for the all Southern eleven. have to wait long for the new music.

MRS. BENTLEY'S ADVICE

Remember, you have to work.

Whether you handle a pick or a pick or a pen, a wheelbarrow or a set of books, dig ditches or edit a newspaper, ring an auction bell or write funny stories, you niust work. If you look around, you will see the men who are the most outwork are the men who work the hardest. Do not be afraid of killing yourself with overwork. It is beyond your power to do that on the sunny side of thirty. They die sometime, but her keen observatisn of the imposter, it is because they quit work at 6 P. M. and do not get home until 2 P. M. It forward to great things next year. is the interval that kills. The work gives you on appetite for your meals, it you a proof and a grateful appreciation thorough or characteristic action was of the holiday. There are young men seen throughout the play than of the who do not work, but the world is not proud of them. It does not know their likes them; the great busy world does out what to do or to be, and take off in this worldr The busier you are, the less harm you will be hable to get into, the sweeter will be your sleep, the brighter and happier your holidays, and the better satisfied will the world be with you.

Advice to a young man by

Mrs. Bently.

The Y. M. C. A. will have a specially interesting program next Wednesday

The Glee Club will probably take its postponed trip next Monday. Members will keep this date open.

Man Who Successfully

Guided Daniel Baker

Next year our athletics will be directed by Coach E. Y. Freeland, for the past three years coach of Daniel Baker. The university is exceptionally fortunate in securing such a man as coach. He is one of the greatest athetics in the South, having won thirteen letters while at Vanderbilt, four of them in football, four in baseball, three in

track, and two in basketball. In September, 1908, Freeland appeared on the Vanderbilt field-a raw rocruit weighing 190 pounds. But he and one at end. During each of his Moore. last three years he was the universal

says: "Freeland was the greatest defensive player I have ever seen on the foot-ball field. He had almost an uncanny skill at diagnosing the opponent's TO YOUNG COLLEGE MEN play at its inception, and he always directed the defensive tactics of my teams."

> Freeland is also a hasel ill star, having covered first base for Vanderbilt and a splenid fielder. In his junior year he was captain of his team. Freeland's ability in track and bas-

BASEBALL DOPE BY THE HON. WINGO

Fancy Lightly Turns to Thots of Baseball

W. W. Wingo.

On account of disagreeable weather for the past few days, base ball in T. C. U. has been at a standstill. We now hope that "winter" with its chilling blasts, has passed into the dark visions of things that are not. With the weather more favorable, our phenoms should rapidly round into mid-season form. The boys are going to make it warm for some of these would-be teams in the T. I. A. A. Already, Coach Moore has begun to drill into those ivory domes, some of tne inside stuff, which is the firststep to the success of a base ball team. In the practice games that have been played the boys have shown marked ability, both, at the defense and of-Manager Ledbetter has aranged for fense. A few more practical games will be played before the season opens. When the "Chinks" come here on the battle between long-distance hitting and the chop-sooy swat. Come out and see these practice games; encourage the players in their work.

Moore has just about picked the players who will represent T. C. U. for this season. Behind the bat, Christenberry and Miller will stop the "zips" from the rifle pit. Both men are clever receivers, and hard hitters. The pitcher's box, fortified with such gun-Bloom, Chambers, Leveridge, and Needham. Crotty, who is the mainwill snare the high and low ones on "bunt" a ball to the pitcher and sometimes, to the outfielders. There swat the ball with a crash. Ramsey, at short, fields his position as if he was at nome on the "4th Stop." He can hit "em" where they "ain't" too. James Nelson, is trapping them off of tne bat at the far corner station. He is a terror at the bat, for he poles "em' high and far away. In the outer garden, the fly chasers are numerous. Bill Strong catches them all and has an arm that can put the ball in the crib door at home plate. His ability as a hit-maker is recognized by all opposing pitchers. He is the boy who plays left field and catches them in his teeth. 'cinch" swatsmith. This noisy kid can pull "em" from the clouds and zip "em" to the starting point. Mc-Namara, Martin & Jones are also there with the goods in the out-field. J. Martin is some fast on his feet. Opposing these shining stars are Cooper and Tudor. They are going to make these other men of known about work to keep their names on the batting order. Every man on the team is anxious to hear the "Umpire" shout, "Play Ball."

WHY DOES T. C. U. HAVE A BUSI-NESS COLLEGE.

Prof. B. A. Hayes.

"The economic gospel of scientific management was born in a shop; the saving methods of personal efficiency have taken rise in factories and stores; habits of health and thrift, of energy, loyalty, alertness, and skill that our schools, homes and churches failed to inculcate are being taught employees by the captains of industry; and all Europe is looking to the farms and looms of America to save what is left of Europe from the cruelty, blindness, and folly of the professional classes of Europe-the professional kings, emperor, talkers, fighters, and gunmakers. Verily, business now hath

So writes Edward Earle Pudinton in a late number of "The Independent," as he discusses the debt which the world owes to the modern business man for the increaed efficiency which has been given to every branch of human activity within the last few decades. And it is precisely because the business man does demand efficiency in every line-even in schools-that there has been such a growth of interest in commercial training of recent

In the first place, business training takes care of the bread and butter proposition. Regardless of how much which merely aims to help a man earn every one sooner or later learn how to do this very thing, or stand branded as a failure in life. Business is one of the most universal of human occupations, and the young person trained in its rudiments need have no fear of starvation. The ability to earn money means after all simply the ability to render service to the world which it needs and is willing to pay for; and what higher ideal is there than the

ideal of service? In the second place, the commercial student undergoes one of the finest mental drills which can be given to him. He is compelled to think accurately and quickly, and is trained to concentrate his whole mind on one subject at a time. Every teacher can testify with sorrow of students who have failed in classes simply because of their inability to concentrate—and concentration is a habit of mind which can be taught. The study of stenoand cultivates the habit of listening accurately; while bookkeeping develops that rare faculty of judging values which is so essential to success in any calling.

ability placed its possessor in touch The third reason why T. C. U. has a department of business is that commercial training is one of the essential elements of modern culture. In ancient times the highest evidence of culture was the ability to debate phiwith the learned men of the world. During the Middle Ages, when the

Professor Hayes believes that real experience is the best way for a C. O. B. student to gain efficiency and skill, and is looking for stenographic work for his students to do; Chas. Christenberry is now doing such work for Professor Cockrell, and Robert Bloom for Professor Kinsey.

This not only gives the student experience, but also aids them to meet their expenses. It is a noticeable fact that more students are working their way through T. C. U. this year than ever before. Besides those named above, there are other students who have positions which really show talent and skill. Loy Ledbetter is our official chemist, Harvey Latson is band master at the Masonic Home, Claude Miller is our stationary engineer, and Ivan Allen is our expert jeweller. Allen has been doing watch repairing for many years and is thoroughly proficient in his art.

COLLEGE STATION, TEXAS.

A. & M. C .- The Junior Banquet was held last Friday night amid the usual excitement caused by the Sophomores. It is a great game between the Juniore and "Sophs" on this occasion. The goal of the "Sophs" was to capture the Junior's toastmaster and principle speakers and hold them in captivity until after the banquet, while opposing this the Juniors strive to keep the names of the speakers a secret and without molestration. But the "Sophs" were on the job. No sooner had "fall in" for dress parade sounded than the and away to the woods they went with duties here on the first of April. their captive. Nor did they stop going C. I. A., March 21, 1915:—One of the

until several hours later when a searching party of Juniors overtook them and recaptured the prisoner who was tied hand and foot. It was a seven-mile chase, so it was a little late when the important speaker was brought back to College, however barring a few minutes delay the feast was carried out in grand style.

The "Sophs" carried off and tied other speakers but some sympathizing passers-by happened along and released them.

A. & M. C .- The Seniors have organized a rifle club and indications are that there will be lively competition for the gold medal offered by the National Rifle Association to the man making the highest score.

A. & M. C .- The annual Hike will be held on the campus this year on account of the lack of tents for a camping trip. The tents used last year were borrowed from the State Militia but that organization could not let us have them this year.

EXAMINATIONS ARE THUNDERATION

If all of life's tribulations came in the shape of examinations, a wail of condemnation would rise from all over the nationr Surely such a sorrowful manifestation would touch the heart string of civilization and invoke from toe gods sincere commiseration; then as an act of recapitulation they would surely abolish those abominable examinations. But as they effect only the rising generation and have the teachers' commendation we had best continue our conjugations and proceed with our contemplations of Archimedes enumerations and Cicero's orations, for the gods keenest intellects of this, at least localheed not a school lads vexations. The only thing I can offer as a consolation Every young person should be made to is that our only hope of liberation lies feel that habitual promptness never in the fact that after years of concen- fails to impart weight to charachter." tration when we receive our diploma of That no matter how good or how brilsheepskination, certifying to our gradu- liant a man may be, he will not be the ation, then, and not until then, will we most highly thought of if he is habitbe exempt from examination.

COLLAR

ON PUNCTUALITY

By Claude Miller

He, who is not punctual, is a thief. He steals not only his time, but that of others and in this age of efficiency, time is money, money madee the mare go; therefore the sluggardly procrastinator rides the six o'dlock Jitney to work, while E. Ver Punctualit comes down at nine o'clock and stalks about with thumb-in-the-vest complacency.

Honesty is exhibited in many ways; none, however advertise it so baoadcast as in ones' scrupulous care to be where one is expected and to do ones' work at the right time.

Great men of our knowledge are so by reason of this virtue. John Quincey Adams was remarkable for his punctuality. Once, when he was a member of the House of Representatives, a gentleman, looking up at the clock remarked that it was time to call the House to order. Another gentleman said: "No. Mr. Adams is not in his seat." It transpired that the clock was three minutes fast; but within three minutes Mr. Adams was in his seat. The clock was out of season, not Mr. Adams. Horace Mann said: "Unfaithfulness in keeping an appointment is an act of clear dishonesty." You may as well take a man's maney as his time.

Professor Hayes of the College of Business, who possesses one of the ly recognized, body of keen minds says: ually unpunctual.

We are told that General Sherman "Manana"-Tomorrow. He puts off the student body will have more life, was always coolest when on the "point everything till tomorrow, except his frijoles and tomalles.

is a Chinaman. Why not apply to the

If it had not been for the required space I would have said all this in these donations towards this fund. Even the few words: that Punctuality as a Virtue is as dynamite to a rock quarry, the

Mark Will Be Passed At 4 O'clock April 2

2, the population of the United States mumps. will have reached ane passed the 100. 000,000 mark, according to C.D. Sloane geographer of the census bureau, who estimates the population at that hour will be 100,000,059.

J. S. McCoy, actuary of the treasury department, calculates the population was 100,016,000 on February 1 and that the 100,000,000 mark was reached by Jan. 27 or 28.

The disagreement in the estimates arises from the different systems of computations employed by the two sta tisticians. In the census bureau the direct increase is shown by the difference in population in 1900 and 1910 is taken. Actuary McCoy arrives at his conclusions, upon which treasury statements of the percapita wealth are based, by in concluding in his calculations what he calls the factor of second differences. His effort is to show the natural increase within the increase a figuered by the census bureau.

Census bureau officials said today that decreased imigration due to the European war and restrictive legislation now proposed would find their figures approximately accurate. They expect the great flood of imigration from war-torn countries that will make his estimates conservative.

T. C. U. NEEDS AN ATHLETIC FIELD

By ROBERT BLUM

Every one knows that T. C. U. needs an athletic field the worst kind. It has the grounds to place it on, but in seems not to have the desire for such a field, or some scheme would have been found by this time to build up one of the very best in the state, or probably in the

The time has come when the student who wishes to go to college tries to find out which has the best athletic field, with every convenience. This being so, for our own good T. C. U. needs greater athletic facilities. If we had all these things then all students going to college would see that T. C. U. had the advantages which make up an interesting college life and a school of the highest class. They would be only too glad to get the chance to come here; this would give better advertisement for the university than any kind of paper or booklet, as all the papers over the country would talk about T. C. U. and its great othletic teams. Every boy and girl in the state is interested in this, and would read in the papers of our achievements. As it is, you know that all athletic material brought to this schohl must be recruited from high schools; but if above improvements were made, seasoned athletes would be attracted here.

We can get this athletic field if the thing is only pushed. The trouble is, no one has taken enough interest in T. C. U. athletics heretofore. If the T. C. U. people would only apbroach their friends, the Christian Churches and Alumni, there is no doubt that the money could be raised to put this thru. It is to their interest to do this, for it will double the student body in a few years. If athletics are improved by The reason Mexico is so far behind having a high class athletic neld, then or pep, and you all know what that means to any team. Letters could be If one does not pay his poll tax, he sent fo the Christian churches of the tot hem to give a social and Now typewriters are needed in C. procrastinator, the nonpunctual, the send a per cent of the proceeds to the school here to go on an athletic fund.
