FACULTY COMMITTEE WILL MAKE REPORT ON PETITION

Have Been Considering Students Petition and Will Report Soon.

The petition presented to the Faculty by the students, for the granting of a few more social privileges at certain times, has been under the consideration of the Faculty committee. They have been taking a little more time to decide what shall be done in this regard than some of the students probably feel is absolutely necessary; however, they are looking at the situation from every possible standpoint in order that they may not make a mistake.

The Faculty committee met with the Student committee Wednesday night to discuss the petition and to ascertain exactly what the students felt about the matter and also to come to a better understanding as to the real desires of the students.

It was found, in this meeting, that the ideas of the two committees were not very far apart as to the real purpose of the students in coming to school, and as to the amount of privileges that it was safe to grant to a group of University men and women of the size of our student body.

The Faculty committee made no direct statement as to what would be done concerning the petition, but seemed to regard it as a reasonable and logical request, and stated that their final decision would be given out in the near future.

There is one thing that was impressed on the members of the Student committee, and that was that in case any extended privileges were granted to the students, they would be expected to be careful in seeing that they were not abused by the more thoughtless ones in University. This is certainly a reasonable request and should be respected by all the students. The older students in the University should not only be very observant of such requests, but they should do all in their power to influence the other to observe them, and should make it as easy for them to observe them as possible. The only way for these upper classmen to be of assistance in bringing about the desired sentiment is for them to be careful in not going too far in the enjoyment of their greater privileges.

MEN'S GLEE CLUB ORGANIZED TUESDAY

Number of Men Trying Out Increasing.

The Men's Glee Club was formally organized at the meeting held in Professor Cahoon's Studio on Tuesday evening at six thirty o'clock. The officers elected for the club were: John Sturgeon, President; Munroe Rochester, Secretary and Treasurer; Loraine Dutton, Librarian.

Professor Cahoon gave the club several new numbers to be practiced at this time. It was very gratifying to not only Professor Cahoon, but to all those who heard the practice, to observe the way that these men handled these absolutely new numbers.

There were many more men present at this meeting than there were at the meeting last week, and there is promise of being many more. Last year, when so many of the Glee Club men left the University, it was thought that it would be very hard to get together another group who could do as well as they; However, the prospects become brighter each practice, and it is believed that the most optimistic may have reason to be surprised before the year is finished.

MUSIC STUDY CLUB ORGANIZED

Tuesday afternoon at two thirty in the Shirley-Walton Hall, the Music Study Club was organized. It was decided that the officers of last year should remain the same until after the first term, with the exception of a secretary and treasury, who is absent this term. Miss Bernice Holmes was unanimously elected to fill the vacancy and Miss Lucille Durrett will remain president. It is the intention of the club to study and broaden in every musical sense and bring artists, both local and national to the University. Let every student who is in the Fine Arts department, become a member of the club, for it will be entertaining as well as very instructive.

T. C. U. TEAM REGISTERS SECOND WIN OF THE SEASON

Artillerymen Outclassed And Get Big Surprise.

Confidence usually plays a great part in any game, but it failed to do so in the game between the Army boys and the T. C. U. warriors on the local field Saturday afternoon. The husky bunch from the First Texas Artillery came out and fully expected to carry away the game, but their expectation failed them when Bradley of T. C. U. crossed their goal line in the first few minutes of play. This made the Army boys play all the harder and a very interesting game was witnessed.

T. C. U. outplayed the Army from beginning to end and usually kept the ball on the Khaki's territory.

The soldier boys far outweighed the T. C. U. men and most of their players were old college stars, but nevertheless our men went around them like they were amateurs and won the game by an overwhelming majority.

The game was well played from start to finish, and only two fumbles were made by the soldiers and one by T. C. U. during the whole game.

Time was taken out several times during the game. Bradley was injured in the last quarter of the game. Thrice, time was taken out for conferences; once when Roberts received a forward pass and crossed the goal there was a little argument as to whether time was out or not, but it finally decided that the touchdown was legal.

The first quarter opened with T. C. U. kicking off. The army received ran for fifteen yards. T. C. U. held the Army for three downs. Army kicks, and Miller receives the ball and retruns for twenty yards. Then Miller went around the end for twenty more yards. Lockman received a forward pass and went for thirty yards. Twice more T. C. U. made successful passes, and then after a line back Bradley received a forward pass and

(Continued on page 4)

SHIRLEYS TO HOLD PRELIMINARY FOR OLD MEN'S CONTEST

On Monday night at 8 p. m. the Shirley Literary Society rendered a program on Mr. John Masefield and his work. All present pronounced the program a real literary treat and it is planned by the officers of the society to make the work this year, of a real literary nature.

At the business meeting of the society, the committee on the Old Men's Declamatory Contest, reported that on account of several men in the society being very nearly equal in platform ability; it was deemed best to have a preliminary contest. The committee felt that the ability of these men was too near an average, for them to make a fair and impartial choice. Following the recommendation of this committee, a motion was made and carried, to waive the constitution in this instance and hold the preliminary for the Old Men's Declamatory Contest, at closed meeting of the society, in the chapel, at 8 o'clock Monday, November 19th.

The names of Mr. Rhodes and Mr. Martin were presented for membership, and unanimously accepted by the society.

At the meeting on Monday night, October 15th, the entire meeting will be given to a discussion of Aeronautics.

It is announced that 680 engines and 6,000 cars built by American manufacturers will be shipped to France. Five engineer regiments composed largely of railroad men will handle the new equipment. At the main American army base, among other equipments there are being erected complete railway repair shops. Trained American railway mechanics will do the work.

SOLDIERS CREATE SENSATION MONDAY NIGHT

Clark Hall student makes mysterious Disappearance.

On Monday night, there were a number of the soldiers who were doing some drill stunts and other peculiar maneuvers on the open space quite a little way back of the T. C. U. campus. The noise of the commands and the shouts from the soldiers could be heard by some of the students on the campus.

This naturally aroused the curiosity of all the students as to the meaning of this untimely drill and maneuvering. Many were the suggestions and surmises as to what was their purpose. Some suggested one thing and some another. No one seemed to be able to suggest anything plausible enough to be generally believed until it was suggested by some one that this was a bunch of the First Texas Artillery, who had slipped away from the camp to avenge themselves of the defeat suffered by them on the football field at the hands of the local warriors Saturday.

This struck every one as the logical thing for a soldier to do, and consequently, it was soon believed by every one, or almost every one in the two dormitories that they were about to sustain an attack from a bunch of whiskey-filled, disgruntled soldiers.

From the view point of an outsider, it would have been very amusing to see the different kinds of preparations being made by the different inhabitants of Clark Hall. Of course, many of them did not take the report seriously, but they saw an opportunity to create a little innocent excitement. Consequently, they pretend to be seriously alarmed at the situation, and were ready to offer all kinds of suggestions as to the best means by which the Clark Hall boys might defend the precincts of the University, against the inroads of such a mob as had been reported.

One of the Freshmen, in particular, was especially alarmed about the pro-

(Continued on page 4)

T. C. U. PIGSKIN ARTISTS WORK HARD

The Cry Is "On to Rice, Down With the Owls."

Coach Daniel is putting the football squad through extra strenuous training this week, in order that the team may be in shape to pick the feathers from the Rice Owl in Houston in the Saturday game.

Since the game with the First Texas Cavalry last Saturday, the cry of every football fan in T. C. U. has been "On to Rice," "Down with the Owls." This spirit has been manifested on the field every evening by the players by the serious way in which they have been doing everything in their power to get in the best possible shape.

Heavy Scrimmage Wednesday.

On Wednesday afternoon, the two squads working out, were put through a long, hard scrimmage, in which all the plays to be used in the coming game were tried out and worked down to a working perfection. This will probably be the last hard scrimmage before the Rice-T. C. U. game. The rest of the time between Wednesday and Friday afternoon, will probably be spent in hard signal practice, and all kinds of exercises that will put the boys in the best of physical condition for the game.

The team will leave for Houston Friday. They will be given a fitting "send-off" by the student body. The plans of the students for this final "Pep" rally have not been given out as yet. However, it is safe to say that there will be a great exhibition of "pep" and enthusiasm shown, and many things said and done that will make the "Purple and White Warriors" do all in their power to "Bring home the bacon."

Voltaire said, "Reason should take the place of religion and superstition." This statement is not applicable to these modern times. When the proctors come around just before Sunday School and Church time, we are well aware of this fact.

PRESS CLUB TO BE ORGANIZED

The minds of the greatest men who ever lived, would have lain unknown if those men had not been able to have expressed themselves. And so will everything exist unknown if it does not in some way become articulate. The Pres Club of Texas Christian University is for the precise purpose of helping the students express themselves.

It is not a difficult thing to get in the Press Club, but it may be difficult to stay in it; for only those students who prove their desire for the work, will finally compose the membership of the club.

Students are sometimes inclined to feel that when the editor asks for a contribution, that they are doing him the greatest favor in the world to write it. May be they are, but that is a very unhappy way of looking at it; they should feel that they are being given a really great opportunity; and they should be glad to avail themselves of it.

Later in the year, the Press Club has a contest, in which three \$5.00 prizes are offered: For the best poem, the best short story, and the best essay. It is not too early to begin thinking of that now; for it is not possible to work over any composition too many times.

Each winning paper in the local contest, is then submitted for a \$10.00 prize which is offered by the Texas Intercollegiate Press Association. This organization is composed of the Press clubs of eight different colleges, and it convenes every spring. Last year it was held here, and those who attended felt that great possibilities were awaiting this embryonic organization. This year it meets at Baylor, with Mr. Garrett, as President, and Miss Wilson, as secretary, and Mr. Slack, of Southwestern, as Treasurer.

Last year Baylor won the prize for the poem, and the Essay, both of which were on Alfred Noyes, and Simmons College, won the prize for the short story, which was entitled, "Hearts." Let our local Pres Club take now this motto: "Win a T. I. P. A. prize this year."

GIRLS GLEE CLUB HAS FIRST MEETING

Large Number Try Out for Club—Many Good Voices.

Tuesday afternoon in Mrs. Cahoon's Studio, the girls' glee club met for the first time this year. It was organized for immediate work.

There were thirty girls present, and several more handed in their names, who were unable to attend the first meeting because of other meetings and classes.

Last year, under the direction of Professor Thomas H. Hamilton, the Girls' Glee Club was an organization of which T. C. U. might well be proud. However, the outlook for this year is even brighter than ever before. There is material here this year for the largest and best girls' glee club in the state, so why not make use of it.

T. C. U. STUDENTS TO BE GRAND OPERA USHERS.

Between thirty and thirty-five young men students of Texas Christian university will act as ushers at the Coliseum on the evening of Oct. 24 and 25, when "Faust" and "Lucia" will be presented by the Chicago Grand Opera Company. Cedric G. Hamlin will have charge of the corps of young men.

Last year the ushering was done by two groups of men, one from T. C. U. and the other from the city, but Manager Wear has decided to have only university men act in this capacity during the coming opera season. More than fifty seats for each performance have been sold the young men and women of the university.

Mr. Wear said Tuesday that ticket takers would be placed at all four doors of the Coliseum, insuring the rapid ingress of the prospective crowds of opera patrons. He also assures the public that the Coliseum will be comfortably warmed in case of cold weather.

Food price manipulators and profiteers are to be shadowed by the secret service men of the government. This is where Greed is to be given a wallop. 'Tis well.

STYLISH BOOTS

That are Attractive and Comfortable

An enjoyable sensation of elegance and ease is always experienced when you wear our Shoes. We're offering you the newest designs and most fashionable shapes; they satisfy your every style requirement.

The High Lace Boot illustrated here is the most popular style for Fall. Here you will find a large assortment of styles and sizes to choose from, in the most popular shades of black glazed, cocoa brown, field mouse, submarine and oyster grey, brown and white washable kid, with buckskin top and quarter and covered Louis Heels. Many other styles to choose from.

A visit to this great style exhibit of Fashionable Boots will be pleasing and interesting. Our New Hosiery Department is fairly alive with new colors and combinations in fashionable hosiery for misses and ladies.

A SHAMELESS PEACE PLAN

Germany is said to be willing to make peace on the following conditions: Restoration of Belgium and the return of conquered territory to France.

No annexations required or indemnities asked.

There isn't a chance. Belgium should be restored to the Belgians and they should be reimbursed for their frightful losses. Alsace and Lorraine should be restored to France, and the people of northern France should be reimbursed dollar for dollar.

Serbia is in ruins and the central empires should be compelled to pay for its rehabilitation and restoration. Rumania has suffered. Why should the weak be compelled to bear the loss of the enormous property losses inflicted upon them by ruthless invaders.

Italy should be given her lost provinces and the Italians who have endured the yoke of Hapsburg bondage should be given their liberty.

Peace will come when an American army of infasion halts before the gates of Berlin and American cannon summons the kaiser to surrender. If the world is to be made safe for democracy then the terms of peace must be dictated by the United States.

Americans do not demand vengeance. They are not seeking the territory of other nations. They are not in a war of conquest and the issue was forced upon them.

Now it must be settled right. In the years to come a militaristic bully must not be permitted to disturb the peace of mankind and the seven seas must be free to the commerce of the world.

Savagery must be bludgeoned. Lust for power must be crucified. It is impossible for absolutism and democracy to live (peacefully) as neighbors. Either one or the other must perish.

PROSPERITY AHEAD OF THE SOUTH.

There is amazing prosperity ahead of the South if the Manufacturers' Record has made an accurate survey of the field and its predictions come true. This Baltimore trade journal estimates the total value of the agricultural output of the South this year at \$6,000,000,000, or a gain of \$1,450,000,000 as compared with the figures of the year 1916.

Colonel Edmonds reminds his readers that the total value of the agricultural output of the United States in 1900 was \$5,000,000,000 and that the South will produce this year in its agricultural interests about \$1,000,000,000 more than the entire country produced seventeen years ago.

He reminds his readers that the total value of the cotton crop, including seeds, last year as reported by the New Orleans cotton exchange, was \$1,415,000,000. He thinks that it is entirely safe to estimate the value of this year's crop of cotton and seed at \$1,700,000,000 with the chance of the value largely exceeding this, and if cotton should command the prices demanded by the growers as a minimum, the total would exceed \$2,000,000,000.

He places the total grain crop of the South at 1,600,000,000 bushels at a value of \$2,350,000,000; potato crop, sweet and white potatoes of a value of \$180,000,000; hay and tobacco crop at between \$450,000,000 and \$500,000,000. Speaking of livestock he says the total value of the meat products two years ago was over \$1,000,000,000 and this amount may be exceeded by 25 per cent this year.

This is not all the story of prosperity. The southern states are shipping to the northwest, potatoes, vegetables and fruits and fish and other food products over

\$200,000,000, and the total value of such diversified agriculture as fruits and vegetables this year will be at least \$600,000,000.

This is an amazing story of the prosperity ahead of the South and her people. Fifty counties of Texas, however, were drouth swept, and the inhabitants suffered heavy financial losses. Regardless of this, Texas will produce 4,000,000 bales of cotton and the lumber, oil, sugar and rice interests have not been affected in the least by drouth or other calamitous visitations.

Texas is a rich and prosperous state. Texas should have done something for the people of the drouth ridden section. J. S. Cullinan and those associated with him in the development of Texas and the uplift in a financial sense of those who need it are well aware of the existing conditions in that wide strip of territory scorched by the summer heat and burned black by the torrid rays of old Sol in the preceding months.

Those who are prosperous should remember those who are aching the bitter winds of adversity.

Americans should be grateful. America has produced large crops of staples this year. America is in a position to save the world for democracy. America is in a position to finance the sorely tried democracies of Europe. America is in the war now and America must emerge a victor.

LOOKING FOR WORK.

Henry Clews predicts the United States will emerge from the world war in a far more prosperous condition than any of all the other great nations whose participation antedated our own by nearly three years.

There are substantial reasons for this. In that long period our manufacturers, our farmers and all other American interests enjoyed a period of unexampled prosperity.

Our industrial plants were tuned up to the highest pitch of efficiency and our labor had attained the highest degree of skill in the various departments of manufacturing.

Our government has entered upon ship building plans that will mean that when the war ends we shall see American flags in all the great ports of the world and on the seven seas.

American ships will carry American products to all ports of the navigable globe.

American financiers and American business men will see to it that American made goods shall be found on all the bargain counters of the world.

It is to be America first in the years to come, America, the greatest of all nations. America, the saviour and the protector of democracy as well as the land of the free and the home of the intelligent and the patriotic and the God fearing peace loving.

Food Administrator Hoover has made the declaration that America must save "food for the war after the war" as well as the present conflict, for the reason that the United States after the war will be pitted in trade and industries against a Europe with a reduced standard of living and with a people greatly disciplined in all directions. This may be true. Up to date the countries of Europe have managed to accumulate a war indebtedness of \$60,000,000,000. After the war the survivors will be ground into the earth producing the wealth to pay interest on this enormous debt. War will be hell for fifty years to come following the declaration of peace.

Marion came to the breakfast table late, and was scanned by the reproachful eyes of her mother.

"Did that young man kiss you last night, Marion?"

"Now, mother," said the very pretty girl, with a reminiscent smile, "do you suppose that he came all the way from Forty-third street to hear me sing?"

It is announced that the Dutch West Indies have a population of 56,000 and the natives wear sandals which sell for about 40 or 50 cents. An aristocrat buys one pair of shoes a year to be worn on special occasions. The Dutch West Indies plan may become fashionable in the United States later along.

COME OUT ON THE FIELD AND SEE THE TEAM WORK

Are you doing your part to make the Varsity win their games?

Every evening all those men who compose the football squad are out on the field striving to get themselves in shape to represent the University on the grid-iron in the way she should be represented, when the time comes for the different contests with other schools, and teams over the state.

These men, or many of them, are doing this much for the University at a great sacrifice to themselves. They are out every evening going through this gruelling training in order that their "alma mater" shall not be found wanting when it comes to this kind of representation. They have their school work to be prepared just the same as any other student in the University. They have all the other responsibilities resting on them that the other students have; yet they are willing to put forth the extra effort required in giving not only their extra time, but a large amount of their energy to the making of a winning team.

Not only do these men make great sacrifices of time and pleasure, but they do so without any hope of getting anything like a substantial material remuneration. Some may remind us that at the end of the season, these men are rewarded by being presented with a letter from the Texas Athletic Association, that the local athletic association usually gives each man who makes his letter, either a sweater or a gold football, which is enough to make any man proud.

This is all true, and it is a fact that these men are proud of the trophies, and also there is not one of these men who would not gladly go out on the field and play the game with their last ounce of strength, even if they knew they were not going to receive even this much. However, this is not proof that they receive all they deserve, nor is it any argument that the other students in the University should not do something to help cheer them during those hours of gruelling practice.

Many of the students follow up this, and many other lines of argument and actually convince themselves that there is no responsibility or any duty resting upon them, other than to go out at the games and to root for the team when they are actually playing. They feel that when this is done, they have done their duty in helping the University to have a winning team. Consequently, while the boys are out on the field every evening doing the most disagreeable part of the work, that of running signals, and of practicing over and over the different plays, these fellows are sitting up in their rooms, reading some "snappy story" or lounging around in some room "swapping yarns," or maybe studying tomorrow's lesson, in order that he may be in bed earlier, or possibly that he may be able to spend a few minutes with the fair sex during the next day.

This is not the case with all the men in the University, because there are a few men who are interested enough to be out almost every evening and encourage the boys while they are practicing. This is as it should be—every man in the University should at least be out on the field enough to know who are representing them on the team and to lend their active encouragement to the men while they are practicing.

Up to this time there have never been more than a few boys sitting around on the bleachers, watching the boys while they scrimmage among themselves. There are actually a number of boys in Clark Hall who have never shown enough interest in the team to go out on the field and see them scrimmage, they do not know who is showing up well, and who is not, they have no idea whether the team is improving or not.

This situation should be changed at once. Every man and girl in the University should be out on the field to see these men work for their places on the team, at least on those evenings when there is scrimmage.

Heretofore there have not been any of the girls out on the field, because they were under

the impression that they were not wanted, or that they would not be allowed to do so by the authorities of the school. This will not be the case in the future, because their presence is welcomed and requested on every afternoon when there is scrimmage, and arrangements will be made by which there will be no objections to their attendance, from the school authorities.

This is the duty of every loyal student in the University. Every one should do at least this much to show his loyalty to the team, even if he is not able to take active part in the actual game, he may be of much service to the coach and to the team by being out every time there is scrimmage, to encourage the boys to form the proper habits of playing.

Another thing, the very fact that there are a bunch of the boys and girls watching them, will make these warriors come nearer doing their best in scrimmage. Some of the men who would be inclined to shirk the harder bumps, if there were no one watching them, would break their neck or get through the line, if they knew there were a bunch of the fair inmates of Jarvis Hall watching them.

Such an audience would be a great encouragement to the team and a great help to our coach in handling his men, and in obtaining the results that he desires from his hard training.

This article is not meant as a knock on the students as to their conduct in the past, but as a reminder of a real way in which they may be of actual benefit to the team, and of service in making a winning team, although they are not actually playing on the team.

Every student in the University owes it to the University; he owes it to the team; and he owes it to himself to be out on the field at every possible time, and to get acquainted with the players and encourage them in every possible way.

As has already been mentioned, there are a number of the students who have been doing the proper thing—let others follow this example, and when they have a spare minute in the afternoon, let this time be spent out on the side lines encouraging the men who are to represent us on the grid-iron. In this way we may be able to help the coach to build up a machine capable of "rolling old Baylor in the sod" on "Turkey Day." Let every man and young lady in the University get behind the team and boost.

Seven hotels and one bottling establishment within a radius of five miles of the aviation school at Esington, Pa., and in a great munition plant belt have been put out of business by the government for the period of the war. While the hotels were not ordered closed, the bars of the establishments were shut up, which means that practically all of them will be compelled to suspend business. One of the places closed is the Riverside hotel in Essington, owned by Commodore Charles Walber of the Riverside Yacht club. The order puts the Baldwin Locomotive works, the Westinghouse plant and a number of other factories engaged in government work in dry territory.

A Washington special conveys the news that the engineer corps is looking for 10,500 men with road construction experience to serve in an engineer brigade, which is soon to go to France and do road building work with Pershing's expeditionary forces. This regiment will be made up entirely of volunteers. Rapid advancement is promised men with special qualifications. An idle man who is able to work is a parasite. An idle man who will not work should be compelled to work.

It is announced that about twenty of America's staple food-stuffs on Nov. 1 will be placed under government control by proclamation of President Wilson. Food Administrator Hoover will place under license restricting meat packers, cold storage houses, millers, canners, grain dealers and wholesalers and retailers. These regulations will not be applicable to firms doing a business of less than \$100,000. This is war. Food and fuel and light are government-controlled. There is a war to be won and war measures are necessary.

CARR-BURDETTE COLLEGE NOTES.

Prof. Robert J. Cantrell, for several years assistant professor of Greek and Latin in T. C. U., and now president of Carr-Burdette College, was in Fort Worth Monday on a matter of business, and was also in a meeting with old friends at the University.

Carr-Burdette College opened on October 1, with a larger enrollment and better prospects for a great school than even the most sanguine expected. The summer was spent in overhauling The Home, repairing and renovating it from top to bottom; and now Carr-Burdette can boast of one of the most beautiful and serviceable school plants to be found anywhere, with all modern conveniences. The administration building is practically new.

Miss Mabel Polk last year head of the China department in T. C. U., is our teacher of Art and China. Miss Polk is an artist of rare attainments, as her work will show. Also, Miss May Louise Jones, who was with the Domestic Science Department in T. C. U. last year, has charge of this work in our college. Miss Jones is thoroughly acquainted with all phases of this science, and is successful wherever she goes. We predict a large enrollment for both these teachers, for their ability, and also because of the splendid accommodation in the college for both these lines.

Miss Aline Wilson, instructor of Piano in T. C. U., spent the weekend with Misses Polk and Jones.

President Cantrell delivered the convocation sermon Sunday morning at the Central Christian Church. A large audience was present. His theme was found in the phrase: Hinc as summum. Reporter.

A Few Serious, Interesting and Simply Told Facts About Our Country, the War, and the Liberty Loan.

The total yearly income of all the people in this country is estimated at forty billion dollars.

During the first year of the war we must find eighteen and one-half billion dollars, or about forty-seven dollars for every hundred dollars that we earn.

These figures are astounding, but we can "get by," and if you will read on you will see how we are going to do it.

There are two ways in which the government will raise this money—by taxation and by borrowing money from you.

The more the government will allow you to loan to it, the less it will have to tax you right now. Therefore, ease your taxation by buying a Liberty bond.

Arguments about facts which have been mentioned is useless. We are in the war; we must win, and to do it the money must be found.

This is how we are going to find the money—by economizing and saving.

Duty demands it; common sense advises it, and the government calls upon you to do it.

Waste and extravagance must go, and the money so saved loaned to the government or given up to them in taxes to carry on the war.

Give up the money you waste on the "unnecessaries" of life, and buy a Liberty Bond with it. You will be putting by for a rainy day and serving your country at the same time.

Many people in the Eleventh Federal district have money that they do not need until spring. They should loan it to the government at good interest. It is good business and good Americanism.

You do not part with your money when you buy a Liberty Bond. The bond is as good as money; it is yours to borrow on; to sell, or do as you like with. It pays god interest, too.

Taxes never come back; they pay no interest; they are a dead expense. Again we say, ease out your taxation by buying a Liberty Bond.

Do not be scared at having to find all this money. Billions of it will be paid back to the farmers and workmen of this country. Billions will be loaned to our allies at interest and will form a huge National bank account, which we can draw upon later. This country is in the position of a man who has to deny himself in order to keep his business going, but who will make a fortune if only he has sense enough to put up the money when it is needed.

The patriotic appeal of the loan is so clear that it does not need to be hammered at.

Our boys are giving their lives; our friends and allies their money and their lives; the whole civilized world is fighting that right and might shall rule, that the world shall be made a safe place for honest men, women and little children, to live in.

To keep insisting that you, as an American, support such a cause is quite unnecessary. The answer to the call of the Liberty Loan is to be found in your common sense and in your

heart.

Think over very seriously and very carefully these few serious, interesting and simply told facts about our country, the war, and the Liberty Loan. Then do your duty to yourself and to your country—buy a Liberty Bond.

MEDICAL COLLEGE NOTES.

Prof. R. H. Needham, Professor of Chemistry and Toxicology for the past seven years, has been confined to his bed for the past two weeks with a very severe case of erysipelis.

The following seniors have received appointments to serve as internes in the local hospitals: C. E. Eaton, City and County Hospital; F. B. Hart, All Saints Hospital; J. L. Lattimore, St. Joseph's Infirmary.

The following members of the graduating class of 1917, either have received their commissions in the army or have been recommended for commissions: Ed White, J. C. McKean, P. D. Robason, W. T. Tyson, S. R. Murchinson and R. E. Forrester.

The Delta Omicron Alpha Greek Fraternity held its first meeting of the year, last Saturday night with sixteen of its old members present. A letter of greeting was adopted and sent to Dr. G. W. Day, a character member of Eta Chapter, who is now with General Pershing in France. Lieut. Day graduated with the highest honors, cum laude degree in 1914.

The annual Sophomore-Freshman rush took place on last Friday. The usual breaking of doors, leadaver, hearts, and Freshmen bones was not as bad as usual, due to the timely interference of members of the office force, who were looking to the end of the month when the bills would be due.

Many places on the faculty have been left vacant by the call to the colors of many of our red blooded professors, some of those who have left are: Drs. F. G. Sanders, Shirey, McKean, Horn, Taylor, Alexander, Grisso and Mr. John B. Hawley, who received the title of Major in the Engineering Corps.

Dr. Harry Logsdon, who for the past several years has been associated with Dr. Bacon Saunders, has answered the call, his place being filled by Dr. J. T. Tucker, '14.

Two second-year medical students, who heard and answered the call, were Walker Stallings and W. E. Haley. They could not resist longer the lure of the bugle call nor withstand the challenge of the Kaiser, so they are leaving their chosen profession to take up the gun in defense of our own Red, White and Blue.

Be brave boys, fight for old glory so grand,
'Twill only be a short time, till by you we will stand,
To cheer, to fight, to bleed, to die,
Be brave boys, 'twill be you and I.

Dr. Duane Meredith, '10, will occupy the chair of Bacteriology this year, which was left vacant by the resignation of Dr. T. C. Terrell.

The different classes will meet next week to elect their officers.

PLACE FOR SHADOW HUNS

Senator La Follette of Wisconsin invited annihilation. He has "the courage of his convictions." But his convictions are not popular with the American people who are 98 per cent patriots and are in this war to win it. Millions of Americans were opposed to the United States entering the war. Millions of Americans did not see why the United States should fight the battles of European countries.

But the crisis came.

War was declared. Millions of men were drafted, billions of dollars were appropriated and then an American had to make a choice. He was either for his country, heart and soul, or a traitor to his flag.

Colonel Theodore Roosevelt hit the nail on the head when he said: "You do not find any shadow Huns in Germany."

There the men who denounce the government of Germany are sent to the front to dig trenches. There should be no shadow Huns in this country.

GOOD OLD UNCLE SAM.

Judicious Advertising is booming the grand old United States. Judicious Advertising has been gathering statistics for the edification of its readers. The United States, covering less than 6 per cent of the earth's area and containing only about 3 per cent of the earth's population, possesses 33 per cent of the world's wealth and produces:

Seventy-six per cent of the corn grown in the world.

Seventy per cent of the cotton.

Seventy-two per cent of the oil.

Fifty-nine per cent of the cop-

Forty-three per cent of the pig iron.
Thirty-seven per cent of the coal.
Thirty-five per cent of the tobacco.
Twenty-six per cent of the silver.
Twenty-four per cent of the wheat.
Twenty-one per cent of the gold.
All this is true.

But when it comes to the production of cotton or the number of bales to the acre, North Carolina is away in the lead of Texas. Modern methods, if adopted, would produce a crop in Texas of 10,000,000 bales of cotton on a less acreage than is planted today. Texas produces four to five million bales of cotton on an average of ten to twelve million acres.

This is a waste of land, a waste of money, a waste of energy, a waste of opportunities.

George W. Armstrong has the statistics to back up his claim that Arkansas, Tennessee, Alabama, Mississippi, in fact all the states east of the Mississippi are wheat and corn-producing states.

Texas is not a corn-producing state.

In June the hot winds come. In June the farmer who risks a corn crop after witnessing the devastation of his fields by the scorching sun and the burning wind registers an oath that he'll never plant another grain of corn. The very next season he gambles again.

PHILATHIA CLASS HAVE PARTY.

The Philathia class of the University Church was entertained at the home of Mrs. Colby Hall, the teacher, last Friday evening.

This class boasts of a membership of some fifty young ladies. There were also others present, and the delightful social was thoroughly enjoyed.

The real purpose of this meeting was to give all the members an opportunity to enter into the true Christian spirit which this class desires to manifest throughout this and the coming years, in other words, to get a good start.

BRUSHES AND LAWS TO CELEBRATE HALLOWEEN.

The Brushes and Laws will be given a Halloween party by Mr. and Mrs. Cockrell, on Wednesday evening, Oct. 31, in their home. All kinds of Halloween frolics will be indulged in, and special excitement will be furnished, for at least some of them. All the Brushes and "Bars" are asked to

keep this date open so that every member of both organizations may be there.

This last word is unnecessary to any of those students who attended any of the similar affairs given by Mr. and Mrs. Cockrell last year. This is the first meeting of the year of these two organizations, and will probably be a stepping stone to many other enjoyable "stunts" between the Brushes and Bars during the year.

T. C. U. TEAM REGISTERS SECOND WIN OF THE SEASON.

(Continued from page 1)

crossed the goal for a touchdown. Lockman failed to kick goal. After this touchdown the army boys seemed to tighten up and with several linebacks got the ball on dangerous ground. Score: T. C. U. 6; Army 0.

Second Quarter.

The Army kept using their terrible linebacks and brought the ball on T. C. U.'s ten-yard line from where Sergeant Purnell went through the line for a touchdown. Newman kicked goal. Army kicked and Spikes of T. C. U. received the ball and ran for fifteen yards. Miller went around the end for ten yards, Roberts around for ten more, and Lockman went through the line for five more. The ball was getting on dangerous territory for the Army bunch, but T. C. U. held for downs after being penalized five yards for being offside. As soon as the Army boys got the ball they fumbled, but recovered the ball. Here they were penalized five yards for roughness. Army punts to Miller, who returns thirty yards. T. C. U.'s ball. Bradley receives a pass and goes twenty yards. Miller bucked the line for three yards. From here Roberts received a forward pass and made a touchdown from the twenty yard line. It was disputed whether this down counted because it was made in the last few seconds of play, but finally it was decided that the score counted. Score: T. C. U. 12; Army 7.

Third Quarter.

Army kicks and T. C. U. returns for thirty yards. Miller goes around right end for ten yards. After three downs, T. C. U. punts and Army returns for twenty yards. The Artillerymen tried several passes, the most of which were unsuccessful, because of the wonderful defense of Bradley and Miller. Again when T. C. U. got the ball they made use of the Forward pass and gained several yards, but finally held for downs with the ball on Army's ten-yard line. Army tried punting, and Bradley fell on the ball for a safety. After T. C. U. received the ball and carried it to Army's ten-yard line when the time was up.

Score: T. C. U. 14, Army 7.

Here the Army bunch was like a stone wall, and held T. C. U. for downs, but before they could get the ball any distance from their goal, Lockman recovered a fumble and crossed the line for a touchdown. Lockman failed to kick goal. After this touchdown, the ball sawed back and forth over the center of the field.

Bradley of T. C. U. seemed to be everywhere all of the time. Besides carrying the ball many yards, he was always back of Army line downing his man and blocking their forward passes.

The stars of the game were: T. C. U.: Miller, Lockman, Bradley, Prinzing and Kiker; Army, Purnell and Newman.

Only four substitutes were sent in for T. C. U., while the Army changed a great many times.

The Line-up:

First Texas	T. C. U.
Purnell	Lockman
	Fullback
Payne	Martin
	Left Half
Barry	Prinzing
	Right Half
Lacy	Miller
	Quarterback
Newman	Bradley
	Left End
Hartley	Kiker
	Right End
Terrell	Magill
	Left Tackle
Greer	Spikes
	Right Tackle
Thompson	Bradford
	Left Guard
Beem	Sharp
	Right Guard
Lattimore	C. Bralley
	Center

Touchdowns: Bradley, Purnell, Roberts, Lockman; goal kicks, Newman. Safety, T. C. U.

Substitutes for T. C. U. were Hayden for Sharp, Hale for Roberts, M. Bralley for Hayden.

Officials: A. M. Keister (Kentucky), referee; Chaplain Barnes and Major Dunbar (Camp Bowie), umpires; Bill Bowman (Polytechnic) head linesman; Lieutenant Hanger, field judge.

SPECIAL CHAPEL NUMBER WEDNESDAY.

T. C. U. students look forward to Wednesday morning chapel, for we are favored with a number from the fine Aarts faculty, Wednesday Mr. Zeigler played a cello solo, which was certainly enjoyed and appreciated by everybody. Mr. Geigler is a genuine artist and is a great addition to the Fine Arts Faculty.

SOLDIERS CREATE SENSATION MONDAY NIGHT.

(Continued from page 1)

tection of Jarvis Hall. Consequently He made many statements as to what he was intending to do in case of the coming raid. He felt that above everything else all the boys should show their real metal in protecting the Jarvis Hall and should not think of their own welfare. Following up the statements that he had made, he retired to his room, here he busied himself with whittling a good handle on a large board, with which he proposed to annihilate the whole oncoming mob. It was learned by some of the older boys the nature of his preparations, before they were completed.

Some of them slipped up to the window, and pretending to be the soldiers, began to claw n the screen as if to take it off its hinges and yelled "Let's get him." With one movement, the Freshman was out of the room and down the hall to, no one knows where, leaving his half-finished weapon and all thoughts of heroism in saving the inmates of Jarvis Hall.

A thorough search was made for him, but no trace of him was found until the next morning when he showed up for his breakfast in the dining room. It may be that as he heard the shouts outside the window, the thought occurred to him that the food supply of T. C. U. was left unprotected, and remembering the oft-repeated saying that "Food will win the war," rushed to the dining room and remained there all night.

Be this as it may, we are all sure that as soon as the soldiers, finished their drilling and their maneuvering, they left the hill for the camp and were not heard from afterwards. Thus a great catastrophe was averted in the history of T. C. U.

T. C. U. STUDENTS SEND MANY EXHIBITS TO DALLAS FAIR.

Mrs. Cockrell was in Dallas Monday and Tuesday, entering the work of her students in the Art Department of the Dallas State Fair.

There were about twenty of the Art students here in T. C. U. who have entered some of their work in the different exhibits. Every department of the art will be well represented by the T. C. U. students. An entire case will be filled with T. C. U. hand-painted china, and one wall will be filled with T. C. U. paintings and tapestries.

Every year T. C. U. students send many exhibits to the State Fair and are always some of the winners. The work done here in this department has always received a very high mark in the judging of these exhibits.

On account of the large number of exhibits this year, and because of the exceptional class of work that has been done, every one is expecting to win even more places in the exhibits this year than in the past.

While Mrs. Cockrell was in Dallas, she had a private view of the Loan Exhibit, which is sent from New York City. She stated that this exhibit alone will be well worth the trip to the fair, and says that every student who goes to the fair should make it a special point to see these paintings.

Signor Marsoni, in an interview in Washington, praised American democracy.

"Over here," he said, "you respect a man for what he is himself—not for what his family is—and thus you remind me of the gardener in Bologna who helped me with my first wireless apparatus.

"As my mother's gardener and I were working on my apparatus together a young count joined us one day, and while he watched us work the count boasted of his lineage.

"The gardener, after listening a long while, smiled and said: "If you come from an ancient family it's so much the worse for you, sir; for, as we gardeners say, the older the seed the worse the crop."
