LAWYERS PLAY FRESHMEN MEDICS FOOTBALL TEAM TUESDAY

One of the most interesting games of the season will be played on the T. C. U. field next Tuesday afternoon when the Lawyers play the Freshmen Medics. The two teams have just been organized and are practicing hard every day, in order that they may be in the best of condition when the date of the game arrives.

Both teams are confident that they will win, and are already making extended preparations to celebrate their victory.

The last game that was played between the Lawyers and the Doctors of T. C. U. was staged two years ago, and was won by the Lawyers by a score of 18 to 0. There are quite a few more Lawyers in the Law School now than there was at that time, therefore it is reasonable that the Lawyers could have a better team than they had at that time.

However, it is entirely possible that the young Doctors will also have a better team than they had at that time. Be that as it may, both teams are making great preparations and it is needless to say that the game will be a regular "thriller."

The line-up will be as follows:

Medics:
Winn, c.
Webb, l. g.
Pate, l. t.
Skaggs, l. e.
Walker, q. b.
Jeffries, r. h.
Woodard, l. h.
Chilton, f. b.
Coke, right end.
Jagoda, r. t.
Rex Howard, r. g.
Lawyers:
Ed Baldwin, r. e.
Upton, r. t.
Monk, r. g.
Sturgeon, c.
Sweet, l. g.
Radford, Howard, l. t.
J. Baldwin, l. e.
Keith, q. b.
Judge Raley, r. h.
William Jones, l. h.
E. B. Sewell, f. b.

After seeing the above line-up, it is no doubt that every member of the student body will make a special effort to be present at the wonderful exhibition of football tactics.

"Peanuts" McKee will coach the embryonic Doctors, while the young J. A.'s will be coached by the joint efforts of "Captain" Froggie Hawes and Jesse Martin.

Just a Word About Bears

If there is anyone in the University who does not know all about the bear family and just exactly how many different kinds there really are of this large family, then they should have a short talk with H. T. Rhodes and Roy Parks. They were in the same unenlightened state that you may be in before they were sent down to the city to buy a bear for the burial ceremony on the athletic field last Friday night.

After going from store to store in search of the largest bear that might be obtained, these two unsuspecting men went into The Fair store and asked the smiling young lady who met them at the door to show them the largest size of the desired article that she had in stock. When the young men first asked the young lady if she had any of the animals in stock they omitted to say "Baylor" bears, and it is supposed that this slight change in the first name of the bear led them to the discovery as to the different kinds of bears.

ART DEPARTMENT GIRLS TO HAVE CHRISTMAS SALE

The girls in the Art Department are planning to have a real Christmas sale at which there will be all kinds of art goods and are productions offered for sale. A number of the girls are busy making hand painted Christmas cards, and all kinds of little Christmas mementos which will be sold at this sale beginning during the early part of next week. Besides this, there will be quite a bit of hand painted china and all kinds of paintings which will be put on sale at this time.

All the money realized from this sale will be devoted to payments on the Liberty Bond which the Art Department bought some time back.

T. C. U. TO HAVE MILITARY TRAINING

Boys to be Given the Benefit of Helpful Military Drill. Training Is Not Compulsory—Many Volunteer to Take the Course

A meeting of all the boys was called by Coach Daniel immediately after chapel Tuesday morning for the purpose of finding out how many in the University would like to take a course in military training.

Coach Daniel explained that since football season was over, there would be a large number of men in the University, who would not have anything to do in the afternoons, and that they would loaf around and be no good to themselves or to anyone else. He pointed out that it was the duty of the University to furnish these men with some kind of physical training. He stated that it had been suggested by a large number of students and patrons of the school that it was their desire that T. C. U. have military training.

When he asked how many of the students would avail themselves of the courses in military training, should they be offered almost every man present rose to his feet. There were at least one hundred and fifty or two hundred who signified their desire of taking the courses.

Coach Daniel stated that there had been no formal organization made, up to this time, but that all who wished to take advantage of the courses would meet on the athletic field Thursday afternoon, at which time they would be formally organized.

There are a number of men in the University who have had military training. They will be of much assistance to Coach Daniel in getting the recruits in hand.

Men Will Not Be Required to Wear Uniforms at Present

Coach Daniel stated that the men would not be required to wear uniforms at present, and that it would not be necessary for them to enlist in the Federal or State service in order to get this training, but that this course was offered to the boys to get them familiar with military tactics, and also give them some much needed exercise.

However, this small beginning may grow into something bigger, and it may not be long until there will be real military training in T. C. U. just as is the case in a number of the other colleges and universities in the State.

At present the recruits will be drilled on the athletic field, and will drill only two afternoons each week. Besides this actual time on the field, there will be classes in the military manual. Everything will be taught to the boys according to the latest methods, and everything that is learned here will be of great service to them in case they should be drafted into service, or should volunteer.

BRUSHES HAVE NOVEL PLAN FOR GETTING PENNIES FOR BELGIAN CHILDREN

The members of the Brush Club have shown throughout the year that they were especially interested in all things that would relieve suffering in the war stricken countries and make the conditions there more bearable. However, there must be some very creative and original minds in that club, judging from the many different ways they have thought of by which they might help those in distress. One of the most novel ideas imaginable has been adopted by which pennies may be obtained with which to buy Christmas presents for the Belgian children. This plan is that of charging one cent for allowing visitors in the Art Department to look at the different scenes in Camp Bowie through an especially strong pair of field glasses.

It is not certain where the idea first originated, but it is certain that it is a good one and is netting quite a few pennies every day. Also it is safe to say that it is well worth the money to look at the soldiers while they are being put through the dicerent manoeuvres, and also to look at the aeroplanes when they are passing. This is especially true when you may see them brought up to within grasp of you for only a penny a look.

WHEN IN TOWN DO BUSINESS WITH SKIFF ADVERTISERS.

EIGHTEEN FOOTBALL MEN TO RECEIVE LETTERS

The members of the T. C. U. Athletic Council met Wednesday afternoon for the purpose of granting letters to the men who had played on the football team, a sufficient number of games to deserve one, according to the rules of the Texas Inter-Collegiate Athletic Association.

The meeting was called by Coach Daniel, who recommended the different men for letters. After the recommendations had been heard from Coach Daniel, as coach of the team and as head of Athletics in T. C. U., the different men were voted on by the Athletic Council.

The Athletic Council granted letters to eighteen men. The following men were granted letters by this council:

Magill, Bralley, Hayden, Hogg, Bradford, Haire, Sharpe, Spikes, Hawes, Meyers, Kiker, Miller, Martin, Prinzing, Graves, Dutton, Lockman and Hale.

This seems to be an unusually large number of letters to be granted in one year, but all the above mentioned men have played the required number of quarters, and have shown themselves of such value to the team that it would be unfair to them to grant any smaller number.

The very fact that Coach Daniel has given every man on the squad a chance to make his letter, and at no time let any man feel that he was such a good player that his place could not be taken by some other member of the squad, has been one of the greatest forces in making all the men do their very best all the time.

Every man who received a letter has played in a sufficient number of games and has been of such value to the team, that they were awarded the letter. There were two or three other men who have been out on the squad this year and who have been exceptionally valuable to the team, but who, because of misfortune in being out of the games with injuries, or because of some other irregularity, have not been granted letters. Some of these men are fine football material, and if they come back next year, and do not suffer from the same misfortune that they did this year, there is no doubt that they will add much strength to the team.

New Jersey refuses to accept modern democracy and the progressive policies of the Wilson administration. The make up of the next legislature will be fifteen Republican and six Democratic senators and forty-three Republican and seventeen Democratic assemblymen. New Jersey is ruled by men who do business in New York City and cast their ballots on the Jersey side. They are known as commuters. There is a distinction between a commuter and a plain citizen.

BRUSHES MAKE SERVICE FLAG AS CHRISTMAS PRESENT TO UNIVERSITY

The members of the Brush Club, besides many other things, is making a service flag as a Christmas present to the University. To those who have not thought about what a service flag really is, a short explanation will be given. These flags are usually flown over the some of some family where there is some member of the family in the United States military service. For each member from the family who are in the service, this flag has a star.

This flag is being made for the University and will be let to fly from the flag pole on the campus. It will represent the University family, and there will be a star in it for every one of its students who are in actual service.

When the flag is completed some time this next week, there will be placed thereon 105 stars, representing the 105 men from the University who are now in actual service. As this number increases, the number of stars will be increased.

This flag is being made by hand, and the members of the Brush Club are doing all the work on it.

The flag will be nine feet long and seven feet wide. The stars, which will be blue, will be placed on a white background; there will be a red border around the entire flag. This will be a beautiful flag and will have a special worth because of the thing for which it will stand.

OLD MEN'S DECLAMATION CONTEST TO BE HELD IN CHAPEL FRIDAY NIGHT

One of the warmest contests of the year will be held in the University auditorium Friday night, when the "Old Men" of the two literary societies will compete on the public forum for honors. All the men who will enter this contest have been in some final contest of this kind before. Every man in the contest has represented either one of the societies, or the University in similar contests before.

These men have been selected by their respective societies to be the representatives for their societies. There will be a cash prize given to the winner of both first and second place.

All the men who are to enter the contest have been working hard, and it is expected that this will be one of the best contests that has ever been held in the University.

According to the regular custom of things, the two societies will occupy their regular places in the auditorium, and each society will give their yells for their representatives and for the society. This is always a lively occasion, and usually one of the first in the year, at which there is any show of society pep. Every man in the University should be present at this contest and should be ready to show his colors.

FOOTBALL MEN BANQUET-ED IN ROYAL STYLE WEDNESDAY NIGHT

Domestic Science Girls Have Charge of Banquet—"Foggie" Hawes Elected Captain for 1918 Season

Never in the history of the University has there been seen a more sumptuous repast or a more enjoyable occasion than was had in the Domestic Science banquet room, Wednesday night, when the football men were given their regular annual banquet.

The entire banquet was under the direction and supervision of the Domestic Science girls, who were ably directed by Miss Burford, the head of the Domestic Science Department, and Mrs. T. V. Smith, Miss Burford's Assistant.

The entire room had been beautifully decorated in purple and white. Around the walls could be seen all kinds of pennants and banners, mingling with the other tasteful draperies and shadings.

The long banquet table was beautifully bedecked in the prevailing colors, and the place cards were in the shape of small of small purple footballs, having the names written on them in white letters.

The different courses were served by the Domestic Science girls with the utmost precision and skill. In fact it would have been a credit to any department to be able to do anything with as much facility and grace, as was displayed in the serving of this banquet.

Every young man who was present at this excellent banquet went away absolutely convinced that training in this department should be required of every young lady in the University. All the football men feel that it would be showing a criminal lack of appreciation if some word of thanks were not given here to the members of that department, who assisted in making this banquet one of the finest occasions of the year.

The following were the young ladies who officiated at the banquet: Misses Burford, Avondale Bacon, Lela Thompson, Ruth McKinsey, Ruby Jones, Beth Combes, Lena Gilbert, and Joan Neal. The following were the courses that were served:

Oyster Cocktail	Olives	Celery
Tomato Soup	Salted Almonds	Saltines
Fried Chicken	Mashed Potatoes	Peas
	Pineapple Sherbet	
Waldorf Salad	Ice Cream	Footballs
	Purple and White Cake	
Oranges	Bananas	
Raisins	Apples	Bonbons
	Nuts	
	Mints	
Chocolate		Coffee

Coach Daniel Acts as Toastmaster

It was very fitting that the man who had created the machine that had done such wonderful work during the year, should be master of ceremonies at the banquet which was to celebrate the success at the end of the season. Coach Daniel proved to all the boys, without doubt, that he is

(Continued on Page 3)

GIRLS BEGIN PRACTICE FOR BASKETBALL

Girls of the University to Be Given Physical Training

Quite a large number of the girls in the University responded to the call made, the early part of this week for aspirants for places on the girls' basketball team. The first practice of the year was held on the court just north of the girls' hall Tuesday afternoon. There was quite a large number of the girls who reported to Miss Bryant and Coach Cahoon for practice.

Every afternoon the number of those who report for this practice increases. It is believed that even a larger number will try for the team when the real schedule of physical training is well under way.

It was announced in chapel this week that every girl in Jarvis Hall would be required to take some kind of physical exercise. Miss Bryant who will be in charge of this work, will provide something for every girl to do at least two afternoons every week. It is thought that the girls will be taken on hiking parties, to begin with. They will be required to walk only two or three miles on the first two or three hikes, but as they become accustomed to the exercise, they will be required to do more.

This is a fine idea and should receive the hearty co-operation of every girl in the hall. Every day it is being realized to a greater extent that in order to be in a condition to do the best mental work, the body must be kept in condition.

There is nothing that will keep the body in good condition like regular systematic exercise. The University authorities realize this and are prepared to take care of any or all of those girls who are not interested in their own welfare enough to take care of themselves in this respect.

DOMESTIC SCIENCE DEPARTMENT REALIZES \$40 ON OLD CLOTHES SALE

Every one in the University remembers that a few days ago, the members of the Domestic Science Department visited all the boarding halls in the University and gathered up all the old clothes that could be found. These clothes were put on sale down town at a regular rummage sale, and the proceeds are to be used in helping to pay for some dishes for that department, and for some other improvements that are to be made in the near future.

The members of the Domestic Department were well pleased with the result of this sale, and are glad that they are able to report that they realized about \$40 on the proposition.

Those in the department who were vitally interested in the sale, and who participated in the sale, wish to thank all those who made any kind of contribution, because this extra amount at this time will enable the department to have some few things that they otherwise could not have.

FRESHMEN MEDICS ORGANIZE

At a recent meeting of the Freshman Class of the Medical Department a permanent organization of the class was effected and officers elected for the year. Ray Skaggs was elected president; R. M. Thomas, vice president; J. N. Sisk, secretary and treasurer, and Rex Z. Howard, sergeant-at-arms and official bouncer. Dr. Houston Terry, professor of Histology and Embryology, was constituted official class professor.

In this class there are thirteen classified regular and three specials. Of the regular freshmen, three are college graduates—T. J. Jeffries holding Ph. B. degree from Valparaiso University; one a normal graduate—Rex Z. Howard, from Sam Houston State Normal College, also for five years head of the Physiology Department of Fort Worth Public Schools.

The freshmen this year are perhaps more closely allied with the main University than were any former classes. Skaggs and Sisk are doing senior academic work on the Hill and Thomas, Winn, Jagoda, Coke and Webb are removing requirements in other classes. Pate presents his pre-medical work from Stamford College, and Simmons College of Abilene; Chilton and Walker come from Oklahoma A. & M.; and Woodward has regular standing on work done in T. C. U. in previous years.

Of the special freshmen, Sweeney

ANARCHISTS

Minister Lenine is an alias. The real name of the Russian leader is Leber Braunstein. His brother was an anarchist and was executed for complicity in a plot to assassinate the successor of Nicholas Romanoff.

Leon Trotzki is a representative of Russian labor; an intellectual anarchist, an idol of the peasants. He believes that they are to be the rulers of Russia.

Lenine never had any faith in the peasants. He believed them bigoted and blindly patriotic, superstitious and sodden to the last degree.

These are the men who must be overthrown by Kerensky and Korniloff before peace can come to Russian democrats and a stable government evolved out of chaos.

Cossack rule is preferable to the rule of the red radicals. The latter are mad men, while the Cossacks at least believe in a stable government and law and order.

According to late cablegrams Kerensky has overthrown the Lenine Government and his followers are in full possession or control of the entire country.

If so, to make his success permanent, he should shoot or hang the leaders of the red radicals and transport their followers to the firing front. A blood and iron policy is necessary to save the democracy of Russia as well as to create and perpetuate a government of the people.

Latest from the Russian front:

"Kerensky has returned to Petrograd and controls the telegraph."

"Premier Kerensky has been arrested at Petrograd."

The Finnish telegraph bureau is responsible for the return of Kerensky to Petrograd. The Swedish telegraph agency for the arrest of Kerensky at Petrograd. A London telegraph agency for the capture of the Bolsheviki by the Cossacks and the complete overthrow of Michael and Leonidas.

NO SHORTAGE IN FEEDS

It is announced that the cotton seed crop is late, that the difficulties of transportation are great, but the crop in sight is ample. Moreover, the 800 mills in the Southern States can produce 25,000 tons of cotton seed meal and cake a day and in Texas alone 5,000 tons a day can be turned out during the season. Food administration officials say there ought to be no shortage in feeds produced from cotton seed as shown by a survey made by the administration. In addition to the cotton seed cake supply there will be a large amount of peanut cake and millions of tons of velvet beans from Georgia and Alabama. These are said to be of equal value for feeding the starving cattle of the country. Conservation is the order of the day. Help the cause along.

SAVE THE LIVESTOCK

A Washington dispatch says enough cars have been requisitioned through the efforts of the United States food administration, in co-operation with the commission on car service, to bring 150,000 head of cattle from the dry districts of Texas and Southern New Mexico, and place them in territory where there are ample pasturage and water to sustain them properly.

To handle this situation 3,225 cars have already been requisitioned. The Southern section of New Mexico will be taken care of by the Santa Fe railway, under promise that preferential handling would be given cattle in this section, which, according to reports received, is being done.

More cars are to be ordered if necessary to furnish the

ELLISON'S

West Seventh and Throckmorton

needed relief. Over 1,000 cars of the number thus far requisitioned are either in Texas now or on their way.

The food administration has been keeping close watch upon the territory affected and has twice before sent relief there and moved cattle out, in all a total of about 3,000 cars.

On account of the war the world is facing a meat famine. On account of the long Texas drouth cattle raisers are facing financial losses. Cattle should be removed from the drouth districts to sections where the pasturage is inviting and the price of feed within the reach of the meat producers of the Southwest.

KING BEES OF THE EAST

Viscount Ishii has sailed for the Orient. He is the head of the commission which negotiated a new agreement with the United States regarding the Far East. Uncle Sam and the mikado are pals now. They have builded an open door in China. They have taken China under the wing of the eagle and the wing of the Japanese bird of freedom and they are going to establish signboards over Mongolian land containing a warning to Europeans to keep off Confusian grass plots.

This is an age of miracles and the nation with the greatest number of dollars and the most powerful guns is certain to be the big nation of the earth.

Brother Jonathan is the king bee today. He has the men, the money, the munitions, the resources, the raw materials, the finished products and the commercial instinct necessary to control the commerce of the world, or at least obtain a mighty big slice of it.

In addition to all these, he will be the owner of the greatest merchant marine that the world has ever known.

Move on!

One hundred and sixty-eight saloons in Hoboken, all within a half mile of the water front of that city, have been closed in compliance with the law requiring the establishment of a dry zone within that place of shipping. Along the New Jersey water front 112 other saloons are to be closed within a short time by order of the department of justice. Water wagon drivers are in demand.

MEMBERS ELECTED FOR THE ATHLETIC COUNCIL

Judge Raley Selected As Student Chairman

The different departments of the University elected their representatives to the Athletic Council this week in order that this body might meet for the purpose of granting the football letters to the members of the team.

Each different department of the University has a student representative, and there are four representatives from the University faculty. The faculty representatives are: Coach Daniel, Coach Cahoon, Prof. Alexander, and Prof. Winton. The representatives elected from the different departments of the University were as follows: Law Department, Judge J. A. Raley; Brite College of the Bible, Hardison; Business College, Magill; the Medical College and the College of Arts and Sciences are also entitled to a representative, but they have not yet elected this representative.

This Athletic Council has to do with the discussion and settlement of all

questions pertaining to athletics in the University. Of course, Coach Daniel, as the director of athletics has a great influence in directing the activities of this council and is always called upon to make any suggestions that may be of value to the council, but in some cases, it is felt that he would not want to take all the responsibility of deciding some questions that are presented, and therefore this council is selected for the purpose of helping him to decide and to settle all these questions.

This same system has been used in the years that have just passed and it has been found to be highly satisfactory. It has been found to be representative of all those who are interested in athletics, and therefore is satisfactory to all concerned.

Every student who enters the University pays an athletic fee. This fee is devoted to the different phases of physical training that come with the different seasons, throughout the year. The Athletic Council has control of the disposition of this fund. It is, therefore, nothing but fair that these students who pay their money for the purpose of promoting athletics should have the privilege of saying

who shall have charge of it. Also it is nothing but wise that there be a number of faculty members on the council, to advise with the student-members and to form a soberer element.

This short explanation is given here in order that all the students may better understand the workings of the

Athletic Council and how its members are selected.

FOOTBALL MEN BANQUETED IN ROYAL STYLE WEDNESDAY NIGHT

(Continued from page 1)

not only the best football coach in the State of Texas, but he is also a fine speaker and an excellent toastmaster.

After reviewing the season that has just passed, and complimenting all those who have contributed to the success of the season, Coach Daniel called on President Waites for a short address. Dr. Waites was very high in his praise of the team that had accomplished so much with so little prospects, at the beginning of the season, and called attention to the fact that this was accomplished only because there was such a competent man at the head of the team.

Following Dr. Waites, Mr. Durrett, Coach Cahoon, Prof. Alexander and Dr. Winton each made a short talk to the boys. After these talks by the faculty members who were present, Coach Daniel called on each of the men on the football squad for some kind of an expression. It was then that Coach Daniel showed his wonder-

ful memory by mentioning some incident or giving the impression that the different men had made on him the first time he saw them, when he called on them for a short expression.

Coach Daniel Presents Each Letter Man with "34 to 0" Tie Pin

After every man had had an opportunity to express his feeling concerning the past season, and anything else that might have been on his mind, Coach Daniel again assured each member on the squad that he had never before enjoyed working and associating with a bunch of fellows as much as he had with the team this year. He stated that he had received the most courteous treatment from every member of the club, and at no time had he ever had cause to reprimand any man because of a lack of respect for authority. In appreciation of this, and of the spirit that was shown throughout the season, Coach presented each letter man with a beautiful gold stick pin with "34 to 0" engraved on it.

This was a surprise to all the men on the team, and it is needless to say that these pins will be kept by all the men on the team, and treasured by them as long as they live.

"Froggie" Hawes Elected Captain for Year 1918

The football team this year has been an exceptional one in many ways. One of the singular features about the team was that there was no captain of the team. The entire season was finished without a captain. The captain-elect for this year, Gish Martin, did not return to school and no one was ever elected to take his place.

However, it is the usual custom, at the end of each year to elect a captain for the coming year. When the ballot was counted by Coach Daniel and President Waites, it was announced that "Froggie" Hawes had been elected to lead the Purple and White warriors during the season of 1918.

"Froggie" will make an excellent captain for the coming year. He was the only man on the team this year who played on the team last year; he is very popular among the boys, and has shown himself to be a leader among the boys while they are on the field. Because of his popularity and because of his long experience in college football, it is felt that he will be of much assistance to Coach Daniel in winning the State Championship in 1918.

Almost All Letter Men to Be Back Next Year

When all the men who would be back next year were asked to stand, almost every letter man rose to his feet. All these men are young, and will not come within the "draft" age, therefore there's no reason why Coach Daniel will not have at least eleven or twelve letter men back next year at the beginning of the season.

After the election of the captain, all were ready to retire from the banquet hall. However, before finally adjourning, everyone present joined in singing "When That Old T. C. U. Team Falls in Line."

The following are the men who were present at the banquet: Magill, Bralley, Hayden, Hogg, Bradford, Haire, Sharpe, Spikes, Hill, Hawes, Slay, Anderson, Meyers, Kiker, Cross, Bell, Miller, Martin, Woods, Prinzing, Graves, Dutton, Bralley, Roberts, Hawkins, Acker, Lockman, Hale, Ligon, Bradley, Prof. Alexander, Prof. Winton, Dr. Waites, Mr. Durrett, Coach Cahoon and Coach Daniel.

Football Men Have Pictures Made for "Horned Frog"

Wednesday afternoon, all the football men caught the one o'clock car for the city for the purpose of having the pictures made for the "Horned Frog."

The work for the Frog is being done at the Bryant Studio, at 705½ Main. While the boys were at the studio, a group picture was made of all the letter men, and also individual pictures made of the men, which will be used in the Horned Frog.

CARR-BURDETTE COLLEGE NOTES

Mr. Oliver B. Polk of St. Joseph, Mo., visited his sister, Miss Mabel Polk, October 28.

A demonstration in bread making in the Domestic Science Department was given by Miss Jones Thursday afternoon. It was regretted that some of the visitors had to leave before the Parker House rolls were ready to serve, as "the proof of the pudding is in the eating," but the members of the household can testify that the demonstration was highly successful.

The college girls enjoyed a Hallow'en frolic Wednesday night. Mrs. Crain as fortune teller was one of the most popular attractions. The evening was doubly enjoyed by Master James Crain, it being his fifth birthday. After refreshments were served a large

birthday cake with five tapers, was cut by Master James.

The Central Christian Church revival was started Wednesday with Rev. Gerald Culberson preaching an impressive sermon. Mr. Hutton, the popular singer and Sunday School specialist, joined Rev. Culberson Sunday. The students are showing a marked interest in the meeting and we are glad that Mr. Hutton is to be a guest in the college home during the meeting.

Venice is only about twenty miles from where the Germans crossed the Piave river and only one more natural defense line of any strength stands between the river and the city of Doges. Rich loot and priceless treasures are the stake, should the Huns make the journey.

Society item reproduced from the Tobalsk Tagski: "Mr. and Mrs. Nicholas Romanoff and their neighbors stood in line, yesterday, for bread cards." The affair was strictly informal.

ONLY TWELVE DAYS LEFT FOR PICTURE MAKING BEFORE THE HOLIDAYS

The "Turkey Day" battle has been fought and to the appreciation of the many students that fill the boarding halls of Texas Christian University,

we came out with the big end of the score, 34 to 0. The highly touted "Bear" has been buried on the hills of the Horned Frogs. Out on the east side of the campus stands a monument that has been erected for the wonderful work of the ones that held the bear at bay during that entire afternoon. With this wonderful game won, most of the students believe that the year's work is a success; but students, our year's work is not yet a success. Some might ask the question, Why isn't it? The answer is this, The Horned Frog, the annual, the book that represents the student body, not only in athletics, but in as many different contests as are carried on during the entire year has not been published. It has the picture of every student in the University who makes the payment as prescribed by the Business Manager.

Every student that leaves the school before the year is out and doesn't take home with him or leave money for the annual to be sent later, when it comes off of the press, his school year has been a complete failure, according to older students of the University. The Horned Frog is one of the best books that any student can take home with him. They can, at all times in after life, go to this book, turn over the different leaves, refresh and revive the many old friends and memories that would be forgotten if it were not for The Horned Frog.

Students, there are only about 12 more days left for picture making before the holidays. May we beg of you to go down at once to Bryant's Studio and have your pictures made?

After Christmas we'll be limited to two afternoons a week for the picture making, and so you can very readily see what a predicament it will put those in who are editing the annual. Let me plead with you again to go at once and have your pictures made before the holidays begin.

AVIATORS AND THEIR TELEPHONES

A New York man, Jesse L. Spence, has invented a helmet for the use of aviators which not only provides them with a head covering but a telephone as well. Any one who has ever tried to talk while in an airplane knows how difficult it is, says Popular Science Monthly for December.

The loud noise made by the engine and the high wind pressure make conversation well

nigh impossible.

The type of helmet invented by Mr. Spence has a pocket which holds a telephonic receiver, ear tabs and a flaring tube leading away from the pocket which connects with an opening inside of the ear tabs. When two or more persons are in the airplane each wears a helmet.
