

R. O. T. C. Unit Would Be Established if Boys "Had Their Way," Journalism Poll Shows

By V. G. SMYLLIE

An R. O. T. C. unit would be established on the campus if the matter were left up to members of the student body—at least that's what the results of a poll taken on the question by The Skiff this week show.

One hundred and fourteen students, approximately 10 per cent of the total enrollment, were asked the following question by students in the department of journalism: Do you favor the establishment of an R. O. T. C. unit

on the campus next year, knowing that it will not take the place of a year of military training? Would you join it under these conditions?

Fifty-five voted an unconditional yes, while 45 placed their opinions on the negative side of the column. Eleven went on record as favoring the establishment of the unit, if the training were not compulsory. Three declared themselves to be neutral and one said he thought the

unit would be "a good thing," but that he wouldn't join it himself.

Typical of the comment advanced in favor of the unit was that offered by Phil Mahaffey: "Since we will probably all be in the army sooner or later, I believe that it would be well for us to have some preliminary training."

Charlie Conway thinks it would make the boys dress more neatly and teach them discipline, while Cy Riekle opines that mil-

itary training will help any boy.

On the other side of the question, Forrest Black says, "We'll be in the army soon enough without anything extra," and Owen Cobb believes it to be "high schoolish" and against the tradition of T. C. U.

Jimmy Pattee expresses the sentiments of several students when he says, "I disapprove. I had enough of that stuff in high school."

Henry Barton believes that the

establishment of the R.O.T.C. unit "would be a fine thing if it would apply on the draft time," but otherwise he would be opposed to it.

G. L. Robertson expressed himself strongest of all, saying that "if T.C.U. establishes a military unit, I will go to another school."

From a feminine point of view Miss Elizabeth Kelso says that "it's a good idea because nearly everyone looks cute in a uniform," but Miss Marjorie Stev-

enson disagrees, stating that she doesn't like uniforms.

Wilbert Matthews believes that R. O. T. C. training on the campus would be a valuable asset to the future trainee, as well as an aid to the nation. Lefty Steinman concurs generally, saying that, while he opposes militarism, it would be better to secure preparatory training in college rather than to have to enter the army without any knowledge concerning military procedure.

Bob Hartle looks upon the es-

tablishment of an R. O. T. C. unit on the campus as a threat to T. C. U. democracy, while John Albert (Knocky) Parker says, "No, no, no. We have too much to do already without military training."

James Woodson believes the chances for advancement in the army will be far greater for boys who have had some type of military training in school, and adds, "We all want to be captains too, don't we?"

Let There Be Light

Some startling but interesting facts were revealed this week when representatives of the Texas Electric Co. and the fluorescent lighting agency were summoned by the Student Council to examine lighting facilities in the Library.

It was found by both that the most light on any table in the building at night was six foot-candles. That was on those located near the windows. In the center of the building, five foot-candles was the average amount per table, while in the alcoves, the maximum was four foot-candles.

These statistics phrased in technical terms mean little if anything to the average reader. But they should become significant when placed beside another set of figures for comparative purposes. The representative of the former company states that there should be from 20 to 30 foot-candles of light on each table, while the latter representative estimated that from 40 to 50 foot-candles per table was necessary.

True enough, these estimates may have been exaggerated slightly by representatives of companies whose business it is to sell electricity and electrical appliances. But the exaggeration could hardly account for such a marked difference.

The fact remains that lighting in the Library is inadequate—wholly inadequate. The situation which now exists merits immediate consideration by the Administration and should be corrected as soon as possible.

Poetry Award Valued at \$75 Is Established

Scholarship Given by TCU Dallas Woman's Club to 'Foster Creative Writing'

"To foster creative writing in Texas," a poetry scholarship—the first in the Southwest, so far as is known, and one of the few in the nation—is being established for T. C. U. by the Dallas T. C. U. Woman's Club.

The scholarship will have a value of \$75 a semester, according to Dr. Rebecca Smith, and will be awarded for the first time for the second semester of the present school year.

"The scholarship is open to entering students, either high school graduates or junior college transfers," says Dr. Smith, who will receive applications.

"The award will be made on the basis of the candidate's scholastic record as well as his poetic ability."

This new scholarship is indicative of the growing interest in creative writing on the campus. Dr. Smith points out.

She cites as other evidences of this interest the Bryson Poetry Prize, the observance of Creative Arts Day, the activities of the Poetry Club, the publication of the literary supplement to The Skiff, the Writers' Exchange and the centennial volume of verse by T. C. U. students and exes, called "Sun and Wind."

Prominent writers among recent T. C. U. alumni are recalled by Dr. Smith. Among them is Miss Siddle Joe Johnson, who has had two books published—"Agarita Berry" and "Debbly"; Mrs. Irene Jones Carlisle, whose poems have been published in the Saturday Evening Post and other national magazines; Mrs. Thelma Breithaupt Cash, "No Silence Heard"; Mrs. Camilla Boykin Campbell, Mrs. Katy Crady, Jim Phillips, Everett Gillis and Miss Genevieve Papineau.

Exam Dates Set For Jan. 20-25

The week of Jan. 20 to Jan. 25 has been set aside for final examinations. All final exams will be given during the regular class meetings during that week. Thus, classes meeting on Monday will hold the final examination on Monday, Jan. 20; those meeting on Tuesday evening will have the final exam on Jan. 21, etc. All finals will be concluded during the week.

New spring semester classes will hold the first class meetings the following week, Jan. 27 to Feb. 1. All students now attending the Evening College will be given an opportunity to register during January. The week of Jan. 20 to 25 has been set aside for spring semester registration, present students should complete their registration prior to that week so that new registrations may be taken care of during the official registration week.

Presentation to Honor 24 Students Chosen Favorites Because of Their Versatility

By HELEN RUTH VERHEYDEN

There will be Big Names in T.C.U. history presented tomorrow night—students who have left an indelible mark on Frogland records. Twelve beautiful girls whose classmates voted them "favorites"; twelve young men whose personality and achievements have made them top ranking in their classes. From the youngest freshman to the most seasoned senior, they are T.C.U.—its spirit, its attitudes, its dreams. They are:

BETTY BECKHAM, freshman—the little miss who walked into the hearts of her classmates last September when she was selected freshman Horned Frog hand sweatsuit. Betty likes dancing, swimming, six-foot boys and eating. She is a member of Los Hidalgo, Froettes, W.E.A. and the Woman's Choral Club. Has an intense dislike for picture shows.

JULIA MAYO, freshman—came from Brownwood High School, where she was chosen favorite of her class. Her ambition is to be a dramatics teacher; likes fried chicken and hot libanito; and prefers boys with good Emily Post etiquette. Is a member of the Dred, Meliorist Club and the Student Christian Association. Her piece is broken dates.

RUBY LEE TISDALE, freshman—Spends her time dancing and horseback riding, and likes boys who are neat. Wants to teach home economics some day—probably so she can make strawberry shortcake, her favorite dish. Was an honor student in high school; is a member of the S.C.A. Froettes, Meliorist and Home Economics Club.

VAN HALL, freshman—hails from Kaufman, is partial to football, steaks and sweet milk. Played freshman football, is majoring in business administration. Favorite color is blue. Is a member of the Meliorist Club and the S.C.A.

MELVIN DACUS, freshman—deep-voiced town student who will have the lead in the '41 Variety Show. Keeps a scrapbook of Texas literature, is majoring in government. Likes tennis, baseball and chicken pie; wants to sing opera some day. Wants to find a girl with combination of personality and plain common sense.

MARSHALL MASON, freshman—Ministerial student whose favorite pastimes are playing baseball, football and basketball. Likes to dance, and dines on fried chicken and steaks. Is a member of the Glee Club, the Timothy Club and is president of his class. . . . left an honor roll record behind him in a Dallas high school.

MARY RUTH SCOTT, sophomore—business administration major who was a combination

choir singer-basketball player in her high school days. Likes to travel and has made trips through all the Northern and Southern states. Likes music and sports, plays badminton and tennis. Biggest thrill was singing in a choir at the New York World's Fair.

JEAN MONTGOMERY, sophomore—music lover who plays violin and piano, likes dancing and picture shows. Likes soft, dreamy music; hates "boogie woogie." Collects for scrapbooks; yet never is going to the Library. Changes her major each semester, and had fun being the sophomore Horned Frog Band sweatsuit.

JANIS WARREN, sophomore—will be presented for the second time as class favorite. Is majoring in dramatics, was in freshman play last year, and sophomore play this fall. Never gets tired of going to picture shows, eating cornbread and watermelon. Likes tennis and bridge, and prefers red and blue color combinations. Hobby is collecting perfume bottles, recordings and poetry.

DEAN BAGLEY, sophomore—hails from San Saba, is majoring in physical education. Is making his name in football, his favorite sport, and is a member of the "T" Association. Likes soft, sweet music, steaks and French fries. Favorite color is blue.

GEORGE HAMILTON, sophomore—majoring in business administration. Led the student body on Saturday grid days. Wants to be an insurance man—hobby is collecting bottles. Loves music and hates knee-length socks. Always orders sweet milk and steak smothered in onions.

BILLY BLACKSTONE, sophomore—easy going footballer who hates for girls to talk "baby talk." Is majoring in physical education, and is a member of "T" Association. Likes to hunt and fish, and eats milk on the side. Likes to "look after" Malven, the other half of the only brother and sister team in the favorite group. Belongs to Woman's Sports Association, is majoring in physical education. Likes fried chicken and dancing. Hopes someday to have an ivory colored cottage—but has a comelike if you tease her about it!

RUTH PRIEST, junior—English major who loves chocolate pie. Hates to be kept waiting, likes football, badminton, horseback riding. Wants to go to South America and likes to collect costume jewelry. . . . is partial to red. Is member of the Bryson Club, Home Economics Club, is assistant to dean of women, has lead in the '41 Variety Show.

Only the Brave Should Dare

Even Daniel Boone probably wouldn't attempt it. The mighty powers of Superman might not even be enough to surmount the obstacles. So how do you think a mere T. C. U. student could gather up enough courage to go to the Library?

It's really a bold venture, and a dangerous one. First of all, there are the steps—not so bad going up, but pretty terrible when you start the downward trip. The "slip-iciness" of these steps is amazing! It's even worse when they are wet, which is often. Cleanliness is a wonderful thing, but in this instance, washing them every day is rather overdoing things. The grand old tradition of saddle shoes, with their rubber soles, makes a trip to the Library even more hazardous.

If a brave student does manage to get up the steps, there is the door. The door is a grave problem. The most successful method of attacking this problem seems to be to deposit all books and pencils on the floor, grasp the door handle firmly in both hands, take a deep breath and tug powerfully, simultaneously breathing a prayer for extra strength. If the door should come open, there will be a slight difficulty in picking up the books again, but this is another story.

Any knowledge-seeking student who eventually finds himself at this point, now has only the prospect of a dimly lighted interior to reward his efforts. Now he must search for his book, peer gropingly through its pages and return home with the somewhat comforting assurance that the headache he suffers means nothing more than a bad case of eyestrain.

This is a situation sad enough to bring tears to the eyes of even the hardest hearted Legree. And, really, in this season of term themes, Something Should Be Done!

Off Come the Hats To the Favorites

Tomorrow night 12 boys and 12 girls will frog their bow into the Horned Frog for 1941 in the eleventh annual Christmas Presentation Ball.

These students have been chosen by popular vote by their respective classes. Tomorrow night the student body and guests will have the privilege of choosing the final winners from each class to appear first in the "Favorites Section."

These 24 students are to be saluted in more ways than one. The entire group has a good scholastic record; all are prominent on the campus in one way or another. The student body is also to be commended for its fair voting, and the really serious thought which was given to the selection of these favorites.

The Skiff takes off its hat to the 1941 Favorites.

Let's Play Santa For Only a Dime

Not all Santa Clauses come falling down the chimney wearing red suits and white whiskers. There are some who can't even laugh "Ho ho" like the character in the story books. It's not hard to play Santa this year, because it only costs a dime.

Just before Christmas every year, The Skiff puts on a benefit to raise money for Christmas charities. Money and food obtained from the benefit are given to the Goodfellows and Santa Pals. This year's show will be

held in the Auditorium at 11 o'clock next Friday morning. There will be lots of good music and plenty of laughs.

This is the only organized way of giving in T. C. U., other than to a Christmas basket through clubs. So come on over, and you can play old St. Nick in a small way—and have a good time as well.

Men's Dormitory Recreation Rooms

Each year the administrative officers of the University go into a dither at some time or another over how to take care of the surplus energy of the students. The general theory is that the less spare time a student has, the less he will have time to think of something to do not sanctioned by the University. The intramural sports program was supposed to be an answer, and it is to a certain extent.

However, in a way, the problem has answered itself in Goode Hall this week. Someone started playing dominos and now every resident of Goode is an ardent domino fan in his every spare moment.

Of course, this is just a passing fancy and will not last long. But the point is that T. C. U. provides the men dorm students with no form of recreation whatsoever within the dorms. Efforts have been made to do this, but they were only half hearted and immediately fell through.

A recreation room in both Clark and Goode halls should be provided and equipped with sturdy equipment which could stand lots of wear and tear.

Open Forum

Dear Mr. Editor: In regard to the establishment of an R. O. T. C. unit on the campus, I object to it on the grounds that it is primarily a faculty project and could hardly obtain the sanction of a majority of the students at all.

T. C. U. is a school fostered by the church in the church tradition. Any project of a military nature would be a direct antithesis to school standards. It is obviously a bid, on the part of the faculty, for increased student enrollment, with military training as a bribe.

What of the schools offering such training? Reason would point out that if the present student body, or that of the future, wanted military training they would have enrolled in such schools.

Then there is the question of what good R. O. T. C. would do. In time, I feel, it would take the time and place of physical education. This would lead to the downfall of our present intramural sports curriculum, which is a flourishing and desirable activity on the campus.

The creation of such a corps also naturally entails elevation of certain boys to certain preferred positions. Most of the present male students would resent this distinction of their fellow classmates. The spirit of democracy and equality that now prevails would soon become nil. The best example that I know of, in this respect, is the system at A. & M., where every boy literally quakes and trembles in the presence of his superior for fear of making a false move. Who would want this condition here?

The fact that college military training does not mean anything of great importance in the national defense program, because every boy will sooner or later have to serve his year anyhow, makes the idea even more pointless.

I am firmly convinced that if such a unit were installed on the T. C. U. campus, before long the whole aspect

HAPPENINGS ON THE HILL

By Betty Williams

The news is stale by now, but we hope the chapel of Brito College will get its "small organ or large piano" from the gate receipts of the preacher-senior game. At any rate, SPEC SIMMS tried hard enough... looks like HOBBY STUCK got the small end of the deal, since he had to have six stitches taken in his upper lip as a result of the game... the patient is doing nicely, however, as the stitches have already been removed.

Which puts an end to football chatter for this year. That is, except for the results of the "T" initiation, the foe of all first-year lettermen. LEONARD PUGH got excused from class Tuesday because the class couldn't take the garlic-like odor of his breath, but he couldn't have any fun because no one else wanted his company either.

Even if that season is over, the Christmas parties of all the clubs are only beginning. Sigma Tau Delta had their Monday, with FLORRIE BUCKINGHAM, JACK ROLLO and HARRY REX DAVIS among those who reported a good time.

At the Dana Press Club's Christmas banquet, MILDRED SMITH fished out a hook and line in the exchange of presents—attached was

a can of sardines... VERNIE BARBER got a xylophone and outplayed the orchestra... MALVEN STEVENSON broke a spring on his car on the way to the senior picnic last Friday, so now he is rooting for CORNELL BERNARD, who played good samaritan and brought him out... CONNIE SPARKS got into a nest of wasps, and went around killing them to get even for the sting he received... FRANK WARD was there with DIANA CLOUGHLY... RUTH PRIEST was making hot dogs for CHILI MCKINNEY, while LOUISE FLACK did the same for PAUL SMITH.

Odds and ends: Though Boogie Woogie music has gone over with a bang, as witnessed by the crowd which gathered around KNOCKY PARKER after the demonstration of the Storytone at Chapel, while he did a little improvising, we wonder how everyone likes the new honky-tonk stuff like "You Are My Sunshine" and "New San Antonio Rose." LIZ FIELDS likes Sunshine, and so does CLELAND EARLY, but there are others like FRANCES OLSON who can't stand either one. How do you stand on the subject? Write in, and get some publicity... can't guarantee the quality...

Amusements

Hither and thither off the campus there are plenty of activities to keep one busy on the nights which aren't devoted to studying (?).

For instance, the Den is among the best places in the entertainment field. Headed by Hal Grayson, numerous features are presented for the dancers' enjoyment. "Ragtime Cowboy Joe" is one arrangement of the lighter vein, while such pieces as "Only Forever" and the popular "Star Dust" are treated in a way not to be forgotten. Several good vocalists are added to this "Musical Magic" Grayson's orchestra is noted for.

And by the way, you'll always see some more "Frogites" there. Tuesday night the Dana Press Club held its annual Christmas banquet there and last night the Alpha Phi Omega fraternity followed the same order. Our ace reporter reports that Miss Georgia Fritz, comely Psychology assistant, was seen "putting her little foot" at this gay spot Wednesday night. Also Miss Marjorie Winkel and her escort seemed to be having an equally good time the same night.

And if you aren't in the mood for dancing, why not attend a good movie? Tonight the Tivoli theatre is having a special feature. It is to be a Rumbogie Jamboree and is being brought about because of the current popularity of the "La Conga." Beginning at 9 p. m., two pictures will be added to this Jamboree. They are: "La Conga Nights" with Hugh Herbert, and "Argentine Nights" with the Ritz brothers and the Andrews sisters. If you are not up to

Has been active in intramural sports; is a member of the Chamber of Commerce and other campus organizations. Wanted to be a baseball player when he was little, but years to be a Big Executive now...

By JACK BILLINGSLEY
 Four Aggies, three Horned Frogs, two Owls, one Steer and a Bear make up the 1940 Skiff all-Southwest Conference grid team. For the second straight year the Aggies dominate the mythical team. Last year there were three Farmers on the eleven. There are only two repeaters from last year's team, Marshall Robnett and John Kimbrough of A. & M. These two Cadets have been unanimous choices for the past two years and have made most of the all-American selections also. Two of last year's selections, Nelson of Baylor and Crain of Texas, slipped down to the No. 2 team. Roland Goss, end from S. M. U. was out most of the season with injuries.

The ends—Big Jack Russell of Baylor promises to become one of the outstanding wingmen in the history of the league. The huge sophomore was a standout in every game played by the Bears and was the leading end in the conference. Close behind Russell came Phil Roach of the Frogs. Roach led the conference in pass completions and was a rugged

lad on defense also. These two players assure the conference of having a second straight year of exciting football.

The tackles—Here the Aggies and the Owls take over, with Ernie Pannell of A. & M. and "Moose" Hartman of Rice being far ahead of their nearest rivals. Pannell was a bulwark of the mighty Aggie forward wall and Hartman was mentioned on several all-American squads.

The guards—Probably the strongest position on this year's team is the guard slots, where the Aggies' Marshall Robnett and T. C. U.'s Bobby Sherrod hold forth. These two boys were stars in every game that their teams played. Robnett led the great A. & M. line and was named on most all-American teams. Sherrod held together a patch-work Frog line

A picture of Fred Hartman, Rice star who was selected at one of the tackle posts, was not available.

by his individual brilliance and was rightfully voted the most valuable man on the T. C. U. team.

Center—Here at the pivot position two boys waged a bitter battle throughout the season. Last year's all conference center, Bob Nelson of Baylor and Rice's captain Ken Whitlow led all centers in the loop. However, in the game between Rice and Baylor, Whitlow outplayed his rival by such a margin as to win the post. Both men are great leaders, fine snapper-backs and rugged line-backers.

The Backfield—This year's backfield would make any coach's mouth water. There is speed, power, blocking, passing and kicking in the quartet. All-American Kimbrough of the Aggies supplies the power and speed, Jim Thomason, his teammate, the blocking, and T. C. U.'s Kyle Gillespie and Pete Layden of Texas do the passing and punting.

Frog Cagers Tackle Tech

Two Teams Evenly Rated For Contest

Sporting an even break in their initial two starts, the Horned Frog cagers are in Lubbock this morning, where, tonight and tomorrow night, they will engage the Texas Tech basketballers in a series.

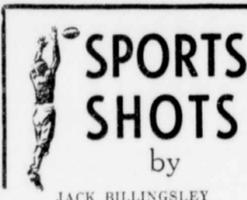

The Frogs, boasting a victory over the strong North Texas State Teachers, will be at full strength. Dennis Tankersley the senior forward who has been bothered with a sprained ankle, will be ready to go at top speed tonight.

Coach Mike Brumelow plans to start the same five that has started the first two games. This will see Floppy Blackmon at center, Buddy Barron and Al Wagler at forwards and L. A. Monroe and Guy Holt at the guards.

The Purple opened their season last Saturday night in Brownwood by dropping a tilt to the Howard Payne Yellow Jackets 49 to 35. Coach Brumelow started his "new" team of Blackmon, Wagler, Barron, Monroe and Holt. This combination didn't seem to be able to go, so the "old" team of Groseclose, Billingsley, Cannaday, Dennis and Ralph Tankersley took over.

This quintet looked very good, and even pulled ahead of the Jackets. But, with the first five back in the game at the close, Howard Payne put on a rally that left the Frogs behind. Dennis Tankersley and Groseclose paced the Frogs, with nine and eight points each. Ralph Tankersley turned in a sterling defensive game, holding Smith, Jacket star, scoreless while he was in the game. Blackmon, after a shaky start, settled down and played a fine game.

Frogs Beat Denton Teachers
 Tuesday night, against the North Texas Eagles in Fort Worth, it was a different story. The first string was "hot" and jumped into an early lead and was never headed. However, the game was a nip and tuck affair that ended with the Frogs out in front 43 to 36.

T. C. U. was honored this past week with several of her old "greats" and dignitaries coming back to the campus. Chief among these was Francis Schmidt, head coach of Ohio State University, formerly head man at T. C. U. Schmidt was in town visiting relatives, but his kinfolks didn't get to see much of him because he spent most of his time around the Gymnasium talking with Coaches Meyer, Brumelow, Grubbs and Clark. He had a pretty drab season at Ohio State, but looks for a much improved team next fall and is making plans for a lengthy spring drill.

While football is his business, Schmidt admits that basketball is his first love. While coaching the cage game at the University of Arkansas, he won the conference championship five times out of seven years. Schmidt piloted the Frogs to two conference cage crowns, in 1931 and 1934. Happily, the Frogs won their first game of the season Tuesday night while Schmidt was an interested spectator. After the game Coach Mike Brumelow took Schmidt to the Frogs' dressing room and introduced him to the players. Within two minutes of their introduction he had the entire team grouped about him and was busy ironing out some of the rough places that he had noticed.

A sure way of determining a player's value is to watch how his opponents rate him. A look at all of the all-opponent teams that Southwest Conference schools have selected will show one that Kyle Gillespie is all-conference without a doubt. The Paris lad has been placed on every one that has come out. Baylor, Texas, A. & M., Arkansas and Rice have put Kyle in their backfield. Also seen on most teams are Bobby Sherrod and Phil Roach. Sherrod is making most of the sport writers' all conference teams, while Roach is being con-

Pigskin Fades For Volleyball

Intramural Roundballers Organize for First Game After Christmas Holidays

With the intramural pigskin crop laid by, the volleyball teams of Prof. Tom Prouse's league plowed into their pre-holiday schedule with a vengeance Wednesday when the Seniors took two out of three games from the Frosh by scores of 15 to 10 and 15 to 8, while the Juniors trounced the Sophs 17 to 15 and 16 to 15.

Because of a conflict in use of the Gymnasium on several nights, the schedule will not be announced until later.

Though the volleyball is still being bounced back and forth across the net, the intramural league is already making plans for its round ball season.

Prof. Prouse announces that there will be two leagues in the basketball department this year. The "Red League" will be made up of five teams that will play their games at night. The "Blue League" will also consist of five teams that will play their games in the afternoons. The fifth team in the "Red League" will be made up of parsons and in the "Blue League" of five-year men.

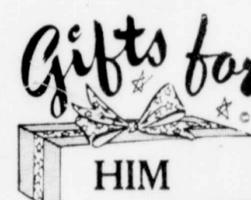

The top team in each league will meet at the annual intramural Open House for the championship.
