Administrators Complete Research

Come on Mugsy. I don't know what the deal is, but the boss wants we should head over to

the Student Center and clear out the Cafeteria a little. He hates them crowds, I guess.

Lyles Awarded Study Grant

A \$9,775 grant for continuation of a cholera research program has been received by Dr. Sanders T. Lyles, professor of biology, from the National Institutes of Health, Bethesda, Md.

The NIH, principal research arm of the Public Health Service, this year awarded 9,377 grants totaling \$176,640,724 for research

and construction of research facilities in 887 non-federal institutions. Approximately four-fifths of the amount went for support of 9,166 research projects concerned with major diseases and various basic problems in the medical and biological sciences.

Dr. Lyles' investigation on the

antigenic structure of "Vibrio cholerae," the organism which causes Asiatic cholera, is in its fourth year here. The first three years of research were supported by grants totaling \$27,475, also from the National Institute of Health.

"We are studying the diagnosis of an immunization against cholera," Dr. Lyles points out. "We are especially interested in more specific diagnosis and in understanding the factors involved in its spread, as well as immunization against it. An important factor is its reappearance from year to year in epidemic form."

A specially equipped and guarded laboratory in the Science Building is used exclusively for this research. Working with Dr. Lyles on the project is Dr. Earl W. Gardner, assistant professor of biology.

Test May Be Given Here

Curtis J. Firkins, Testing Bureau director, has announced that the Graduate Record Examination will be given here at the University if as many as 25 people sign

up for it before the end of the week.

The test was originally scheduled to be given in Dallas the middle of November.

Students planning to enter the TCU Graduate School do not have to take this test, but those trying for fellowships must take this exam.

Firkins is located in Building 8 on campus.

English Chairman Will Be Selected

Dr. Jerome Moore, dean of the AddRan College, has appointed a committee on the selection and recommendation of an individual for the chairmanship of the English department.

Dr. L. M. Cecil is the committee chairman. Other members are Miss Mable Major, instructor in English; Dr. T. C. Crenshaw, professor of English; Dr. James P. Moudy, dean of the Graduate School and Dean Moore.

Dr. Crenshaw requested that he be relieved of the responsibility of the chairmanship of the department at the end of the 1958-59 session.

Dr. Cecil has agreed to serve as acting chairman of the department.

Dr. Moudy Will Speak

The Chapel speaker for Oct. 20 will be Dr. James M. Moudy, dean of the Graduate School. Dr. Moudy, prior to coming to TCU, was academic dean at Atlantic Christian College in Wilson, N.C.

Three Recommendations Adopted for Snack Bar

By Ruth Ann Kindiger

A Student Congress committee has recently completed a study of conditions in the Snack Bar and Cafeteria.

As a result of this study three basic recommendations pertaining to the Snack Bar were adopted.

The first recommendation is that there be no card-playing in the Snack Bar area from 11 a.m. to 1 p.m. This would cut

down the number of students who stay in the Snack Bar during this entire period. The traffic turnover in the area seems to be quite rapid with the exception of card-players.

Congress also recommends that the Student Center Director instruct Snack Bar workers to see that tables are cleared promptly and that service be made as fast as possible.

Everyone is familiar with the blaring of the speaker system in the Snack Bar. This is considered indirectly the fault of students. The situation could be remedied if the students would pick up their orders immediately when called.

The committee found that seating capacity of the Cafeteria is being reduced during lunch hour by students who leave their books coats and hats on tables. Racks have been moved into the Cafeteria and students should use them, instead of tables.

Slowness of servers in the Cafeteria can be partially attributed to the slowness of students in choosing their food. Upon timing the periods that many different students spent in going through the lines, it was found to vary from 1½ to 3 minutes. Students should make their choice of food before they come to the item in the line.

By readjusting eating schedules whenever possible, line conditions could be better equalized. For example at 12 noon Tuesday the Cafeteria lines extend completely around to the doors. Twenty-five minutes later there is no line at all.

An army unit feeds about the same number of people as the Cafeteria does in about one-half the time. This is because the eaters move through the line quickly, accept the food on their trays and because the food is put on their trays promptly.

John Kollman, Taylor senior and chairman of the study committee expressed the opinion that there is no reason why the eating problem here cannot be solved. "This can only be accomplished with the full cooperation of the student body," he said.

Music Honor Goes to Ex

An honorable mention for achievement in music scholarship has been made to Miss Leta Nelle Thomason, B.F.A. '59.

The achievement award is made annually to a senior chosen from all chapters of Mu Phi Epsilon, national music society, throughout the United States.

Miss Thomason, one of six students from campuses all over the nation to receive honorable mention, was president of Mu Phi Epsilon and secretary of the University orchestra during her student career.

She also was a member of the Fallis Players; Alpha Chi, the Horned Frog Band; the Fort Worth Symphony Orchestra and Opera Association Orchestra.

NOT FOR ME

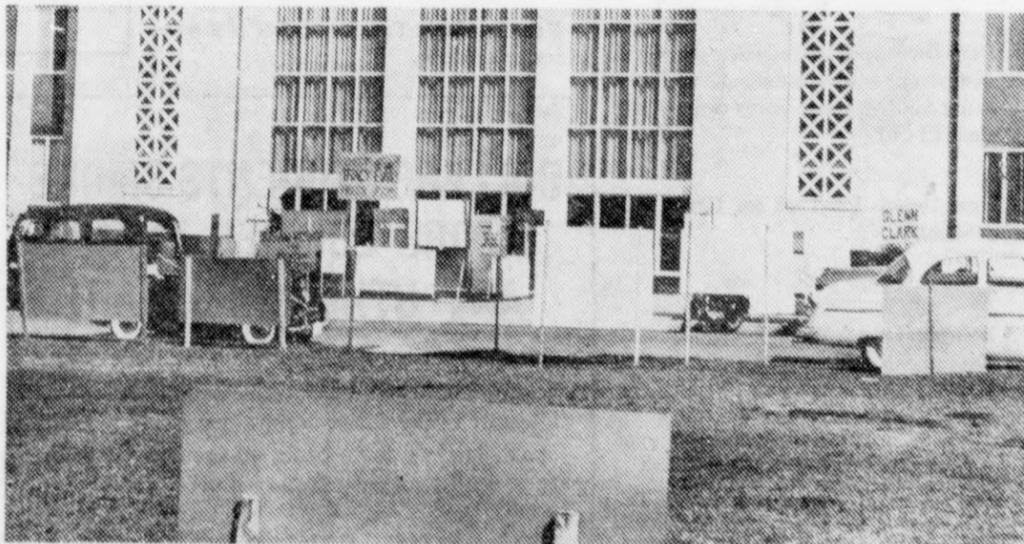

Dr. W. C. Nunn, professor of history, was assigning subjects for a term paper in his "Studies in the History of the U.S." course.

Dr. Nunn allows students to choose subjects pertaining to their own special interests if they like.

"I'm a nursing major," a young lady told him after class.

"Good, you can write on the history of nursing," he said.

"I hate nursing," was her reply.

A scene in front of the Student Center Monday showed election signs literally covering the front lawn. The signs, which went up Sunday night, remind students that the election

primary for the fall semester will be held today. Voting is taking place in the Student Center, Rogers Hall, Bailey, Fine Arts, Religion and Science Buildings.

ROTC Champs Aim for Aggies

The Army ROTC Rifle Team will begin its Southwest Conference matches at 10 a.m. Saturday, when they meet the A&M sharpshooters.

The team is the defending Southwest Conference Champion and will be led by Captain Joe Huddleston, Fort Worth senior. Huddleston is the high practice man this season with a 284 out of a possible 300.

Danforth Grants Available For Three Teachers in 1960

The Danforth foundation study grants are available for three TCU teachers for 1960. Applicants will be screened by committees appointed by the deans of the colleges, and nominations will be made by the deans to the foundation.

Danforth teacher study grants will be offered to about 80 promising men and women teachers at colleges and universities. Those receiving the grants will be free to enroll at any accredited American university for a 12-month period during 1960-61. They will be expected to attend an expense-paid Danforth Foundation Conference Aug. 22-28, 1960.

Appointments will allow the Danforth teacher one-half of his salary and one-sixth salary for each dependent. This allotment may go as high as \$2,400. In addition, he will receive tuition and fees at the school he chooses.

Teachers to be nominated must have the following qualifications. They must possess outstanding academic ability, congenial classroom personality, and high Chris-

tian ideals. They must be between 25 and 40 and have had one year of successful graduate study. A minimum of three years teaching experience, including two years in senior college is required. At the time of application he must have "Faculty status." Graduate assistantships do not count as teaching experience.

Teachers interested in the Danforth study program should see the dean of their college. All nominations must be in the hands of the foundation by Oct. 15, 1959.

Band Sorority Announces Officers

Tau Beta Sigma, University band sorority, announces its officers for the year.

They are Barbara Brezik, Taylor junior, president; Verna Kennelly, Fort Worth junior, vice president; Sharon Brown, San Antonio junior, secretary-treasurer, and Beverly Read, San Antonio junior, parliamentarian. Plans and possibilities for the coming year were discussed at the first formal meeting of the

chapter held recently in the Student Center. Mrs. James Jacobsen is sponsor.

★ HISTORICAL NOTE

In 1896 the total amount paid the faculty of AddRan Christian College, now TCU, for one month was only \$940.

LUCKY STRIKE *presents*

Dear Dr. Frood:

SOME LEFT

For the students who did not purchase a select series ticket and still wish to do so there are still a few left.

These tickets will be on sale in the student center lobby for approximately two weeks for the price of five dollars.

Howard Tours' Christmas fiesta in MEXICO

two full weeks especially designed for

- TEACHERS
- STUDENTS
- YOUNG PROFESSIONAL PEOPLE

DEC. 19 TO JAN. 3—

\$395⁵⁹

FROM DALLAS

ITINERARY: 4 days in Mexico City, 3 days in world-famous Acapulco, 2 days Guadalajara, 4 full days in the colorful towns of Patzucaro, Morelia, Guanajuato, San Miguel Allende; visits to Cuernavaca and Taxco.

FEATURES: See famed religious "pasadas" during Christmas holidays, "out-of-the-way" towns with historical background, ancient archaeological shrines, environment and works of Orozco, Rivera and other Mexican artists, native workshops showing handicraft in glass, tile, copper, silver and basket-weaving.

FUN: gala New Year Eve party in Acapulco, cruise around Acapulco Bay, visit cliff divers, bull fights.

Tour Price Includes: round-trip airfare tourist class; accommodations at first-class hotels, with private bath; 3 table d'hote meals daily, except in Mexico City; travel within Mexico by air-conditioned motor coach; bi-lingual guides; full program of sightseeing and social activities.

Dr. Frood, Ph.T.T.

Dear Dr. Frood: I am a 35-year-old freshman. Should I wear a beanie?

Worried

Dear Worried: If I were a 35-year-old freshman, I'd wear a mask.

Dear Dr. Frood: Nobody likes me. Girls despise me. Men can't stand me. Profs detest me. Dogs snap at my cuffs. What should I do?

Hated

Dear Hated: Don't ask me. I don't like you, either.

Dear Dr. Frood: I'm a non-conformist. But I smoke what everybody else smokes—Lucky Strike. How can I be different and still smoke Luckies?

I. M. Odd

Dear Mr. Odd: Light both ends of the Lucky and insert a straw into the middle. Sip the smoke through the straw and say "wildsville" after each puff.

DR. FROOD'S MORAL OF THE MONTH

Things worth having are worth working for. For example: If you want a football letter, find a football player and ask him to write you one.

Dear Dr. Frood: I'm flunking everything but math. I get D in that. Help me.
(Name withheld by request)

Dear Withheld: Spend less time on math.

Dear Dr. Frood: I have a ravishingly beautiful girl in my class. Sadly, she is witless. Should I flunk her?

Bookish

Dear Bookish: Pass her. Other professors are waiting.

Dear Dr. Frood: I go steady with two girls—one in the dorm, one in the Theta house. Traveling between the two places is making a wreck of me. What to do?
Tired

Dear Tired: Get your girl to get your girl into her sorority.

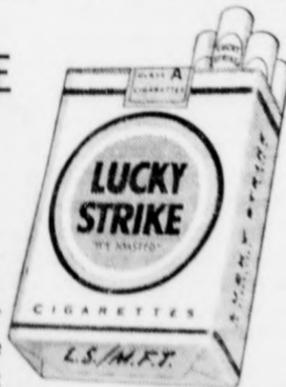

DR. FROOD AND THE AMAZING NEW FILTER

I had occasion recently to study the remarkable "no smoke" filter made of solid lead. No matter how hard you puff, you get no smoke. Incidentally, a pack of these cigarettes weighs 2 pounds. Luckies weigh less . . . and you get smoke. The best.

COLLEGE STUDENTS SMOKE MORE LUCKIES THAN ANY OTHER REGULAR!

When it comes to choosing their regular smoke, college students head right for fine tobacco. Result: Lucky Strike tops every other regular sold. Lucky's taste beats all the rest because L.S./M.F.T.—Lucky Strike means fine tobacco:

TOBACCO AND TASTE TOO FINE TO FILTER!

Product of The American Tobacco Company—"Tobacco is our middle name"

EDITORIAL COMMENT

Segregation Problems?

The new parking system begun this year on campus whereby separate faculty and student areas are designated has created a series of problems.

First of all, as with any innovation, until everyone learns just what the changes are, there is likely to be an increase in violations. This has definitely been the case here at TCU according to Security Officer Bill Biggers.

Second, because "faculty" areas were designated with light green paint on a white background, student drivers couldn't see the word "faculty" from the car.

Many a student learned that he was in a faculty area the hard way—by a \$3 ticket. This crisis has been solved. Maintenance men repainted all faculty areas in a darker shade last week.

A third problem exists in that student drivers have found it harder to locate a parking place in lots where much of the space has been marked "faculty" only.

This is particularly true in the north lot at Rogers Hall and the two lots west of the Student Center. Even vacant spaces on side streets are scarce because students' cars have been forced out of the parking lots onto the street.

It appears that too much space has been allotted to the faculty when 20 per cent of the faculty parking spaces are left vacant while students seek space on a side street.

A retabulation of how many professors actually drive cars on campus and reallocation of faculty spaces might be the solution to this final complaint.

Prescription for Good Grades

It is not compulsory for students to make all their classes, but it is a good idea. TCU's policy is that regular and punctual class attendance is essential to successful achievement.

Teachers are supposed to keep an accurate record of all class absences. If a student misses three consecutive classes or an accumulation of absences reaches the point of endangering the student's status in the class, he is reported to the Dean of Students.

Our athletic teams and other groups on campus may not be away from school more than twelve days total in one semester, and are held responsible for all work missed.

Class attendance is generally reflected at the end of the semester when grades are released.

Don't Fence Me In

Step right up and take a chance! Try to guess which door is locked!

That should be the cry as students jerk and push trying to get into Dan D. Rogers Hall, the Science Building and the other buildings around campus.

Lines build up as each person awaits his turn to crowd through the unlocked doorway. Especially is this true in the Administration Building where the door that IS unlocked requires an amazing display of brawn to push it open.

It is a real challenge to navigate through the maze of double doors in the newer buildings without running into a dead end. The maze walls occasionally change so the student never knows what to expect.

It's annoying now, but it could be serious. In case of fire, every door would be needed.

Why not unlock?

LITTLE MAN ON CAMPUS

"WE'D LIKE TO CHECK OVER TH' REQUIRED TEXT FOR THIS COURSE...COONSKIN & I TIRE AT HAVING TO CARRY A HEAVY BOOK!"

THE LEDGER

Hosts to the Corps

By BETH MORRIS

Open letter to the students of TCU:

On occasion Chancellor Sadler has jestingly made the remark that one of the goals of TCU is to build a university worthy of our football team.

In one respect this is now a serious goal. Following the LSU game in Baton Rouge, Coach Martin received a letter from a member of the LSU faculty highly commending the good sportsmanship of our team, and even suggesting whereas the NCAA rules penalize a team for poor sportsmanship, there ought to be a rule awarding yardage to one which exercises the good sportsmanship ours did.

TCU has a great tradition for good sportsmanship. This tradition suffered a serious blow two years ago when we were hosts to the Texas A&M football team and Cadet Corps. Those students who were freshmen and sophomores at Texas A&M at that time are now juniors and seniors, and when they visit our campus on Oct. 17 it will be our final opportunity to give them evidence of the real sense of sportsmanship which is characteristic of TCU. We have confidence that the entire student body will rise to this occasion with a masterful job as thoughtful and considerate hosts.

Most gratefully yours,
 D. Ray Lindley, President.

The chances of the student body following through on Dr. Lindley's suggestion are pretty good. Since that occurrence two years ago, the word "sportsmanship" has taken on a new meaning. So has the word "spirit," for a few.

Spirit was at its zenith last year and it started out that way this fall. But bad luck and bad weather set in and it wasn't long before lower lips were dragging the ground.

Happily enough, attendance at the pep rally last week picked up with a victorious result. Now all we need is a seven-game winning streak and we're in.

"Sportsmanship and school spirit are closely related, but a paradox does exist in that you have one and not the other.

"School spirit can be defined as 'esprit de corps,' or 'the feeling that draws a unit together, that makes it function as a single individual.'

"It has a singleness of purpose, a mass desire to win." Bring yourselves together for a rally in the Auditorium tomorrow night. You'll have no trouble being good sportsmen but when it comes gametime on the gridiron, let's concentrate on BEAT THE CADETS!

Yours Truly

Editor
 The Skiff

It is our understanding that the Vigilantes, who supposedly adhere to Western chivalry, have incorporated into their new program a pledging system of merit points. In addition to using campus activities, such as intramurals, as vehicles for earning points, the Vigilantes have begun awarding points for each act of service performed, such as helping a crippled person transport himself to class.

We protest in the name of Christian ethics, as well as decency and chivalry, that these crippled persons, who by circumstances cannot even keep from being used because they need help—are being regarded as tools for gaining points; that any motive for unselfish service is corrupted; and that the Vigilante who accepts points for wheeling the disabled across campus is seriously endangering his personal integrity.

We are deeply disturbed by this exploitation of persons.

Sincerely,
 Anita Barickman
 Alan Abraham

★

Editor
 The Skiff

It is almost too horrible to describe. That poor girl and all those hangers, but the truth must come out. I didn't see the accident itself, but the results were enough.

As I entered the Student Center by the rear door, I saw a poor freshman girl standing there with seven coathangers in her mouth. They were wobbling something furious, and I thought she was trying to say something, so I removed them.

She then explained to me while reshaping her mouth and applying new lipstick, that she was of a prudent sort, well trained at home in social behavior and common courtesy. She went on to say that she had tried to leave the Student Center properly, by the right hand door, but when she opened the door to leave, a monstrous crowd rushed in to open the door because the right hand door which they should have gone through was blocked by three very uncourteous young ladies who were deeply engaged in conversation. They had burst in so explosively that the young lady was partially mixed up with that coat rack there that blocks one half of the doorway and was there filled with coat hangers.

Being somewhat recovered, (al- tho still rather large of mouth) she thanked me for my first aid and asked me in a very unprudent manner, why that coat rack that blocks one half the doorway had to be there anyway. I immediately explained to her the ways with coat racks. It is obvious that in rainy weather, people taking off rain coats and people putting them on like to rub the wet rain coats on each other, and being in a place that you have to trip over to pass, even people who are stupid enough to carry on conversations in doorways, stairways, and hallway junctions without regard for the people two floors up or the people they are making late for class, will be reminded to hang their coats up, if they remembered to wear any at all.

She smiled and thanked me, and when we tried to leave we couldn't move for all the uncourteous people piled up on both sides of the entrance-way.

Yours truly,
 Richard Spears

It's Called the 'Pot Shop'

New Ceramics Building Opens

By Margie Cronin

Ever heard of the "Pot Shop?" Well, its the name given by the ceramic students to their newly completed workshop located next to the University Development Building on University Dr.

The one-story, cream colored brick and redwood structure, is being put into use for the first time this semester under the supervision of James L. Wozniak, assistant professor of art.

"This expansion of facilities in the art department marks the beginning of a broadened program of crafts at the University," states Dr. Karl Richards, department chairman.

The workshop includes a class and laboratory room, with facilities for 10 to 14 students, and a second room entered through a fire door which houses a new 24 cubic foot, highfire gas kiln and a smaller electric kiln which the department has used previously.

The gas kiln, one of the largest non-commercial kilns in the state, will fire pieces up to 4 feet in height and 2½ feet in diameter.

Over one-quarter ton of clay will be used during the semester in the ceramic lab as students make bowls, vases, pitchers and ceramic sculpture.

Work in the lab will concentrate primarily on the manufacture of two types of pottery—stoneware and porcelain. Students learn to mix their own glazes, the vitreous or glassy coatings for the pottery. Most of the work will be fired at temperatures around 2450° F. with a firing cycle of 10 to 12 hours.

The process and glazes have changed little from ancient times, Wozniak relates. It is only in the past 50 years that Occidental potters have learned to match the

high-fire techniques employed by Chinese potters during the Sung Dynasty.

Ceramics students are still working with the potter's wheel which also has remained relatively unchanged for the past 5000 years. Its origin is uncertain, but it was in use around 3000 BC in Mesopotamia.

The "Pot Shop" will concen-

trate on wheel-thrown pottery, forming the soft clay by hand on a potter's wheel, rather than by using molds.

TCU's art department began offering work in elementary ceramics on a small scale during the middle 40's, but not until this fall have facilities been expanded for experimentation in high-fire techniques.

Professor Wozniak hopes that Harvey K. Littleton, University of Wisconsin; and J. Sheldon Carey, University of Kansas, interested in working with pottery and would like the facilities to be available to community interest groups as well as students.

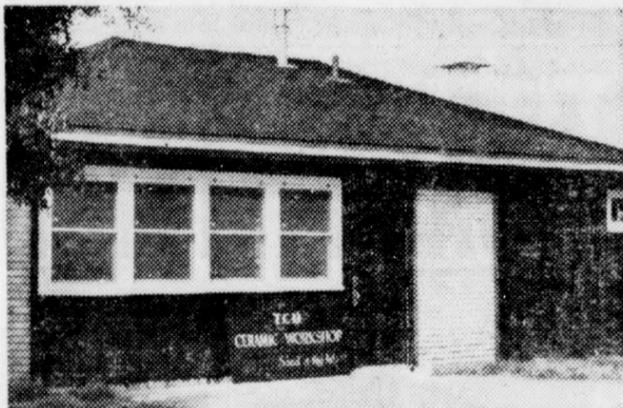

The art department is presently sponsoring the first invitational ceramics exhibition in the Fort Worth area. Four internationally known potters will contribute to the exhibit, which will be displayed on the second floor art gallery of the Fine Arts Building. Exhibits will be by Charles Lakofsky, Bowling Green State University; Toshiko Takeazu, Cranbrook;

Engaged Aug. 15 . . .

. . . were Miss Betty Sue Dye, Fort Worth sophomore, and Charles Macdonald Duncan of Lewisburg, Tenn. Miss Dye is a member of Delta Delta Delta, and Duncan is attending the University of Tennessee School of Pharmacy. The couple plan to be wed in Robert Carr Chapel next summer.

Former student . . .

. . . Miss Evelyn Weyl, is engaged to Franklin M. Clemens, both of Fort Worth. They plan Dec. 4 vows in St. Alice Catholic Church. The former . . .

. . . Miss Bobbie Nelle Roberts, Fort Worth junior, and Tom Crum, McKinney B. A. '59, were married on Sept. 5. She is a member of Kappa Alpha Theta, and Crum is a member of Kappa Sigma. They are now living in Austin and attending school.

Engaged Aug. 1 . . .

. . . were Miss Carol Sue Allen, Dallas senior, and Milton Ashmore, Dallas senior. Miss Allen is a member of Zeta Tau Alpha. They plan to be married this summer.

Also engaged . . .

. . . are Miss Linda Hildreth, Fort Worth senior, and Ira Butler, Fort Worth junior at the University of Texas Law School. Miss Hildreth is the president of Kappa Alpha Theta, and Butler is a member of Kappa Sigma. The wedding will take place Jan. 30 in Robert Carr Chapel.

Married Aug. 28 . . .

. . . were the former Miss Barbara Brooks, Dallas B.A. '59, and Frank Weier, senior at Texas A&M. Mrs. Weier is a member of Kappa Alpha Theta. They are now living in College Station.

Engaged this summer . . .

. . . were Miss Pat Wood, Perry-

ton senior, and Charles Weatherby of Fort Worth. Miss Wood is the past president of Kappa Alpha Theta and Weatherby is a member of Phi Kappa Sigma. They plan to be married on Feb. 13.

Nov. 20 . . .

. . . will be the wedding date for Miss Susan Staats of Fort Worth and Paul Roy Lozuk, Fort Worth junior.

Engaged . . .

. . . are Miss Mary Beth Houts, Fort Worth junior, and Floyd Rockwell of Fort Worth. Miss Houts is a member of Kappa Alpha Theta, and Rockwell is a Kappa Sigma graduate of the University of Texas.

A summer wedding . . .

. . . on August 17 took place in Edinburg for the former Miss Mary Helen McDonald, '59 graduate, and George McDaniel also of Edinburg. She is a member of Kappa Kappa Gamma and he is a senior at the University of Oklahoma. They are living in Norman where Mrs. McDaniel is teaching the second grade.

August 22 . . .

. . . the former Miss Janet Frantz, B. A. '59, of Donna, and Buddy Blake, Dallas senior, were wed at her home. Blake is a member of

Phi Kappa Sigma and was a cheerleader for two years.

Sylvia and R. E. Dodson . . .

. . . are the proud parents of Miss Deidra Denise Dodson who was born on June 7. Mrs. Dodson of Waco is a member of Kappa Kappa Gamma, and Dodson, Mt. Pleasant junior, is a member of the Horned Frog football team.

Married . . .

. . . on Aug. 1 were the former Miss Liz Creson, B. A. '59, of Dallas, and Ted Sisco, B. A. '59, of McKinney. Mrs. Sisco is a member of Delta Delta Delta and he is a member of Lambda Chi Alpha. The couple are now living in Fort Worth where she is teaching at Paschal High School.

Also married . . .

. . . on Aug. 1 were the former

Miss Katherine Laceywell, B. A. '59, of Jacksboro and Bobby Murray, of Fort Worth. Mrs. Murray is a member of Kappa Kappa Gamma and he was a former member of the Horned Frog football team.

Engaged . . .

. . . are Miss Sherra Arnold and George Smith, Jr., both of Fort Worth. Smith and Miss Arnold, former students here, plan to be married on Nov. 6.

Robert Carr Chapel . . .

. . . was the scene of the wedding of the former Miss Sue Jo Parish and Joe Weldon Driskill on Sept. 25. Mr. and Mrs. Driskill are both June graduates.

Shaunda Lynn Shotwell . . .

. . . was born on Sept. 17 to Mr.

MAKES HAIR FEEL STRONGER!

"Surface" Hair Tonics

Penetrating Wildroot Cream-Oil

"Surface" hair tonics merely coat your hair. When they dry off, your hair dries out. But the exclusive Wildroot Cream-Oil formula penetrates your hair. Keeps hair groomed longer...makes hair feel stronger than hair groomed an ordinary way. There's no other hair tonic formula like it.

MAKE HAIR OBEY ALL DAY WITH WILDROOT CREAM-OIL!

Two Tie in Football Contest

As last week's football contest proved, no one is perfect.

All of the many entrants missed the Rice-Florida deadlock, but 17 contestants tied for first place, picking the other seven games correctly.

Two of these, both girls, hit the TCU-Tech total points right on the nose, with a guess of 22 points. Since there was a tie, the winners, Misses Ellen Janes and Carole Cronk, will receive two passes each.

Miss Cronk was awarded the "Forecaster of the Week" Award by The Skiff sports staff recently, for picking seven out of eight games the wrong way and was named as a sure winner in a future contest. Needless to say, this probably will be the only prediction the staff has made that will come true.

Only one contestant foresaw a tie game in the contest. Dan Norman predicted Texas and Oklahoma would battle to a deadlock

in their annual Cotton Bowl classic.

The "Plum of the Week" award goes to a contestant destined to be a professor. Correctly picking all but the Rice-Florida game, the entrant guessed ten total points in the TCU-Tech game and absent-mindedly forgot to write in his name and address.

This week's contest should

prove more difficult, with most of the games rated as toss-ups. For those who are looking for a sure-fire method of picking the winners, here is a bit of advice from one of the winners:

"Study the statistics and past performances of each team closely, keep a close watch on the pre-game odds and then toss a coin."

HUMBLE Presents . . . THE NEW TIRE of this generation!

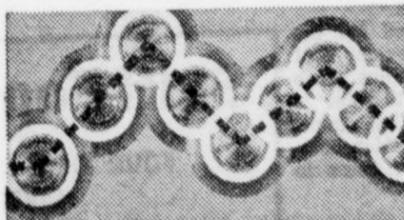

ATLAS BUCRON TIRES

Positively No Squeal!

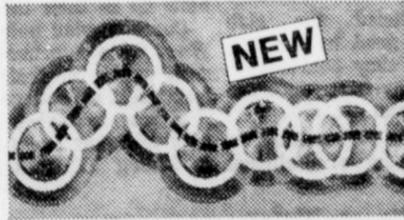

YOU CAN'T MAKE IT SQUEAL!

The new Atlas Bucron Tire grips the road so well you can't make it squeal. The secret is in the miracle new rubber of the tread.

Ordinary tires "bounce" . . . multiply bumps and jars.

Atlas Bucron Tires smother "bounce," give shock-absorbing ride.

SAFER! STOPS 30% QUICKER THAN ORDINARY TIRES

Tested against other tires, the Atlas Bucron Tires stopped 30% quicker—often the difference between a safe stop and an accident. Atlas Bucron Tires will stop quicker on wet pavement than ordinary tires on dry.

SOAKS UP BUMPS AND JARS! You notice bumps with ordinary tires because the rubber "bounces." The miracle new rubber in Atlas Bucron Tires smothers "bounce." Your car rides like the day you bought it, steers easier, handles better.

Trade Now for a set of these amazing new tires.

Ask for a demonstration ride—you'll be amazed! Then talk trade with your neighbor under the Humble sign. The price is less than you would think, and terms are available. Equip your car with Atlas Bucron Tires on all four wheels.

GUARANTEED BY HUMBLE

Humble guarantees the Atlas Bucron Tire against all road hazards for 18 months. Adjustment is based on months of service. Guarantee is honored by 38,000 Atlas dealers on service station driveways throughout the United States and Canada. (Note: All Atlas dealers do not carry Atlas Bucron Tires, but all will make adjustment under the guarantee.)

ed on an opposing field, the star seemed to have a poor day. Even though, sportswriters thought he was an All-America candidate.

Near the end of the season, the outstanding team played host to their traditional rivals. The winner of this contest would receive national recognition.

For fifty minutes, the two teams played a rough, rock-sockum deadlock. Then, with only a few minutes left, the home team's right halfback threw a long pass that was intercepted and run 70 yards down the sidelines for the winning touchdown.

Only the home team coach and his contractor friend knew the runner had been at least two feet out of bounds all the way.

of making the big team next year.

The doff of the helmet this time goes to the people of Texas Tech. Virtually all of the students who attended the game stayed overnight, came back raving about West Texas hospitality.

The cheerleaders were taken to dinner and parties after the game, the band was given a special party in their honor, and even the sports staff was shown an excellent time. All this and a victory, too.

While on the subject of hospitality, the idea of being nice to the Aggies on their upcoming visit has been pounded into the ears of the student body since classes began. It's becoming slightly monotonous, but it's not such a bad thought. After all, if the students roll out the red carpet for the Corps, it may shock them so much, they might lose the game.

Sports Fact

Gus Sonnenberg of Dartmouth, an All-America football player, captured the world's heavyweight wrestling crown in 1929—just one year after turning pro.

Block, Fake and Pass

A Frog pass play is shown developing during the Tech game. Quarterback Larry Dawson (10) took the ball, faked to Fullback Jack Spikes (20) and threw a pass to Marshall Harris, not shown. Shown left to right are Dan Gurley (23), Tech halfback; Bubba Meyer (81), Frog end; Fred Weaver (68), Tech guard; Robert

Lilly (72), Frog tackle; Spikes, Dawson, E. J. Holub (55), Tech center; Arvie Martin (53), Frog center; Roy Lee Rambo (60), Frog guard; Marvin Lasater (23), Frog halfback; Don Floyd (75), Frog tackle; Bobby Cline (73), Tech tackle, and Ken Talkington (21), Tech quarterback.—Skiff Photo by Bob Bullock.

A&M Seeks Third Win

By ERNEST WHITE

Fresh from a hard-fought win over Texas Tech, the TCU Frogs will be out to make it two in a row over the Aggies from A&M.

The Aggie team, along with the Cadet Corps, will turn out in force Saturday for their first conference showing of the season.

Led by Quarterback Charley Milstead, the Aggies have become increasingly stronger since their season opener with Texas Tech.

Sporting a 3-1 record, the Brazos River Boys boast of an exceptionally talented backfield, featuring the running of Fullback Gordon LeBoef and Halfbacks Randy Sims and Billy Few. Robert Sanders, a relatively unknown sophomore halfback, also is destined to give the Frogs additional headaches.

The Frogs, on the other hand, have a modest 2-2 season record, having downed the Red Raiders, 14-8, in their last outing.

Playing a rough and hard-hitting game, the Purple eleven managed to contain the mighty Tech passing game and used "Big Panther" Jack Spikes to their fullest advantage in cracking the Raiders' backs.

Carrying the ball 19 times, Spikes racked up a total of 71 yards, then showed his pass-receiving talents by pulling one in for 21 yards.

TCU came out of the tussle with three men injured, one seriously.

Quarterback Larry Dawson is recovering from an injured knee. He is expected to be ready for the Aggie game.

More seriously hurt was Guard Roy Lee Rambo, who suffered a torn muscle in his right shoulder.

BALLIN' THE JACK

By JACK HARKRIDER

Pity the poor Red Raiders. Texas Tech has one of the greatest defensive linebackers to hit the campus in a long time and he won't make the All-America team.

Bill Holmes, sports publicity director for Tech, has sent a ton of copy on E. J. Holub to everyone within mailing distance, only to have it fall on deaf ears.

In talking with several sportswriters in the Southwest area, the consensus of opinion was that Tech had no one else to push, so they pushed Holub. However, he must be seen in action to be appreciated.

During the TCU game for example, Holub compiled a total of 11 unassisted tackles, or more than Floyd, Lilly, Armstrong and Rambo put together. And, according to his Lubbock fans, this was one of his poorer performances.

The only trouble is, Tech plays no one outside of the Southwest area, save Oregon State, and Holub will not be seen by enough sportswriters to make a worthwhile bid for All-America honors. However, those who have seen him, and especially those who have had to face him on the gridiron, are quick to sing his praises.

"I thought Tech played a fine game, they hit real hard, especially that Holub," said Floyd.

"Holub is a real hoss, he'll hit you," offered Spikes.

"Holub is a real football player. He'll go after you. He's one of the finest I've ever seen," added Dutch Meyer.

E. J. is patterned after Lilly, standing 6'4" and weighing a little over 120 pounds. He is a 21-year-old industrial management major and a junior, which gives him one more year of eligibility. With a little luck and a better schedule, he might stand a chance

NTSC Eaglets to Host Wogs For Season's Second Scrap

Escaping with a victory at A&M last week, the Wogs will journey to Denton tomorrow night and square off against the North Texas Eaglets.

"North Texas will be hard to stop after beating the Texas Tech frosh last week," commented Coach Fred Taylor. "They will be up for us. We will just have to keep from losing that ball and missing assignments," he continued.

Taylor predicted the club should be real good by the end of the year, if they continue to improve like they have since the first of the season.

The Wogs will be counting on the hard charging of Fullback

Lloyd Mynatt and Halfbacks Donnie Smith and Kirby Richter, while End Lynn Morrison and Guard Bernard Bartek are expected to be standouts in the line, punching out holes for Halfback Jerry Terrell.

"Freshman football teams are like moon rockets," said Taylor. "Frosh coaches, just like those boys at Cape Canaveral, can't foretell whether the product of their efforts will be successful or blow up in their faces."

Coach Taylor pointed out the Wogs were a prime example of such action in their first game last week at College Station.

It was a typical first game, with mistakes and fumbles nearly killing TCU. Right down to

the last play, both benches crowded the sidelines, pulling for a last-minute break.

Luckily the Wogs were successful in a late fourth-quarter drive, pushing over the Fish goal and winning 14-13.

Both the Wogs and Eaglets will field 32 men, which is a far cry from last week when the Aggies employed a four-team substitution system. Their roster carried 76 names.

Southwest Sports Tales

Tampering With Sidelines Causes Woes for Coach

By JAMES HARPER
(Editor's Note. This is the first of a series of odd, almost unbelievable, but true occurrences in the world of sports, collected by James Harper.)

Not too long ago, the head coach of one of the Southwest's more prominent football elevens came up with a startling fact: no one ever measures the dimensions of a football field.

Do the officials, players or fans ever question the width or length of the playing field? Of course not.

The coach had a problem. If his star ball carrier had a good season, his team would receive national attention. But if the star failed, so would the team.

During spring training, the coach noted his swift hero was being run out of bounds before he

could make his cut upfield. If only the field were two yards wider, the player could out run the defensive pursuers, make his cut and charge upfield.

Now the coach reasoned if he widened the home gridiron and took his chances on road trips, he could have a very successful season.

Secretly, the coach and a contractor friend measured off the field with an added seven feet in width. Three and a half feet extended past both of the old boundaries.

Well, it proved to be the right solution. The first two home games found his team winning by lopsided scores. The defensive players kept missing the star back as he made his sideline cut.

However, when the team play-
