

# Welcome, Mom and Pop

## Campus Opens Doors Wide Today To Honor Its Most Loyal Supporters

It's Parents' Weekend on the Hill! And to make sure everyone knows it, Miss Dianne Bundy, Birmingham, Ala. freshman, applies the last few brush strokes to the Parents' Weekend poster as Miss Martha Wyrick, Texarkana freshman looks on. Both lassies are members of the committee handling the three-day event. (Skiff staff photo)

The campus opens its doors today to welcome visiting parents.

The weekend of events planned to honor parents and families in some ways will resemble a freshman's first days on The Hill.

Visitors will be given name tags just as fish wear during Howdy Week. No beanies will be worn but parents will go through registration Friday afternoon and Saturday morning, nothing as complicated as their offspring's encounter though.

They will hear a special carillon concert tonight followed by vesper services featuring the Chapel Choir.

Parents can root like all good Froggies at the pep rally in the Quadrangle at 7:30 p.m. Who knows, the "old folks" might prove to be better boosters than "younguns".

Following another carillon concert Saturday morning, students will introduce their papas and mamas to the administration and faculty at a reception in the Student Center. This is a switch! They can probably recall leading junior by the hand to meet his first grade teacher.

Luncheons by various groups will precede the 2 p.m. Baylor-TCU game. Students have been allowed to purchase two extra tickets in the student section for their parents.

The Horned Frog Band will honor the families in its halftime show.

Dorm open houses after the game will give parents a view of campus residences. If mother's household hints have paid off, this will prove it.

The annual Parents' banquet will be served in the Student Center ballroom at 5:30 p.m. Tickets are \$1.50.

The Student Center will be open to visitors from 7-10 p.m.

Parents may get a wider view of campus life by seeing the film, "This Is TCU", in room 204.

Local church services will close the activities Sunday for the "Weekend Fish."

Some parents may be coming to check on their children's welfare. Some strange results came from the comic letter given to dorm students, as in the case of Patsy Rayburne, Alvarado senior.

Patsy's parents received the letter, full of spelling and typing errors. This confused them, as Patsy is a business education major. The letter jokingly mentioned having three checks sent back. By coincidence, Miss Rayburne had

See CAMPUS on Page 2

## Parents' Weekend Events October 28-30

Friday, Oct. 28

12 p.m.—Registration in the dormitories and the Student Center lobby.

6-6:30 p.m.—Carillon Concert featuring Emmet G. Smith.

5:30-7:15 p.m.—Vesper service in the Robert Carr Chapel.

7:30 p.m. Torchlight parade and pep rally in the Quadrangle in front of the Student Center.

Saturday, Oct. 29

9-12 noon—Registration in the dormitories and in the Student Center lobby.

9-9:30 a.m.—Carillon Concert.

9:30-11 a.m.—Reception in the Student Center Ballroom. Opportunity for students to introduce their parents to the Administration and Faculty.

12 noon—Luncheons arranged by campus groups.

2 p.m.—TCU vs. Baylor, Amon G. Carter Stadium.

4-5:30 p.m.—Dormitory Open Houses. All students and their families will be welcome to visit in all of the Women's Dormitories and in Clark and Milton Daniel Hall Men's Dormitories.

5:30 p.m.—Parent's Weekend Banquet in the Student Center Ballroom.

7-10 p.m.—Student Center Open House. All of the rooms of the Student Center will be open in order to provide a place for the students to visit with their parents. There will be a continuous showing of the film, "This Is TCU", in Room 204.

Sunday, Oct. 30

The churches of Fort Worth cordially invite the parents of their students to attend worship services with them.

## Democrats, Republicans Will Debate

The University will have its own version of the Great Debate.

Henry Kerry, Democrat, and Paul McCracken, Republican, will discuss political issues at 8 p.m. Tuesday in the Little Theatre.

Two Young Democrats and two Young Republicans will form the student panel which will question the guest debaters.

Kerry is a lawyer with the local firm of Brewster, Pannell, Leeton and Dean. He is a graduate of the University of Texas Law School and was on the armistice commission in Korea while in the Air Force. Married, with two children, Kerry has been called a liberal Democrat.

Republican Paul McCracken received a degree from the University of Michigan in 1951. After study in the TCU School of Business, he became a chartered life underwriter in 1959.

McCracken now represents the Northwestern National Life Insurance Company of Minnesota. He is also the father of two children and of Episcopalian faith.

The event is sponsored by the Forums Committee and is open to students and faculty. Young Republicans and Democrats are urged to attend.

## Everyone Aging

New York Yankee Manager Casey Stengel was identified in a wire story out of Pittsburgh the other night as "the aging Yankee Chief."

A sharp-eyed college man on the New York end of the circuit filed a quick rebuke.

"Don't," he directed, "call him aging—most people are."

## WBAP Station Manager Will Give Informal Talk

In the first of a series of evening lectures, Roy Bacus, station manager of WBAP radio and television, will discuss "Management Problems in Modern Radio and TV" at 7:30 Tuesday in Room 203 of the Student Center.

Bacus, a graduate of the TCU journalism department, is a former editor of the Cleburne Times-Review. Continuing with journalism work after joining the WBAP staff, Bacus is the editor of the Moslah Shrine Magazine. An active Shriner, he plays the saxophone in the Shrine band.

Bacus is married and has two sons, Roy, Jr., 12 and Randy, 9, and is a member of the University Baptist Church. He is also chairman of the public relations and advertising committee of the Fort Worth Chamber of Commerce.

The division of Radio-Television of the University is sponsoring the lecture. "A question and answer session and a coffee hour will follow the lecture," announced

William Hawes, Acting Director of the Radio-TV department.

ROY BACUS

## Clear Writing Authority Will Speak at Assembly

Lloyd Turner, Convair of Fort Worth's authority on clear writing, will address the monthly journalism assembly in Dan D. Rogers Hall at 1 p.m. today.

Journalism teachers and publication advisors in Tarrant County high schools have been invited to attend.

Turner is assistant to the manager at Convair and is the author of a book entitled "The ABC of Clear Writing."

A native Texas, Turner holds two degrees from Baylor University. He served as an instructor there and at the University of Pennsylvania prior to service with the Air Force during World War II.

Formerly on the staff of "Time" magazine, Turner is president of the Fort Worth Library Board, past president of the Downtown Lions Club, a member of the Fort Worth Board of Education and a former member of the executive committee of the local Red Cross Chapter.

Officers of the J. Willard Ridings Press Club will serve coffee after the journalism assembly.

LOYD TURNER

Ghosts and Goblins

# Trick or Treat Reflects Historic Religious Origins

All Hallows Eve is upon us. Oct. 31 the goblins will be out for Halloween trick or treat antics, big goblins, middle-sized goblins and little goblins.

The little ones, frightened by the mask even though they know their brother is behind it, will be excited as a pup seeing his first snow.

Others will soap windows and cook up various other devices to irritate the grown-ups.

A more reticent youth of 50 years ago would never have dreamed of soaping a window. He would have been content with overturning outbuildings, stealing gates, building fences across rural roads, putting the neighbor's wagon on top of his barn, or maybe just putting the porch furniture on top of telephone poles.

**A Papel Fiat**

How did all this get started anyway?

In its strictly religious aspect, the occasion is known as the Vigil of Hallowmas or All Saints' Day, Nov. 1, observed by the Roman Catholic and Anglican Churches.

Pope Gregory III (731-741) assigned this date for celebrating the feast when he consecrated a

chapel in St. Peter's basilica to all the saints.

In Latin countries the evening of Oct. 31 is observed only as a religious occasion, but in Great Britain, Ireland and the United States ancient Halloween folk customs persist alongside the ecclesiastical observance.

**Folk Origin**

Students of folklore believe that the popular customs of Halloween exhibit traces of the Roman harvest festival of Pomona.

These influences are inferred from the use of nuts and apples as traditional foods and from the figures of witches, black cats and skeletons.

Also there is an apparent connection with the religion of the Druids in pre-Christian Ireland and Scotland.

The Celtic year ended on Oct. 31, the eve of Samhain, and was celebrated with both religious and agrarian rites. For the Druids, Samhain was both the "end of summer" and a festival of the dead. The spirits of the departed were believed to visit their kinsmen in search of warmth and good cheer as winter approached.

**Trick or Treat**

It was also the period of thresh-

ing and of food preparation for winter.

Pranks and mischief were common on Halloween in Ireland and Great Britain. Wandering celebrants would do such things as cover chimneys with turf so that smoke would not escape.

Groups went from house to house demanding food and other gifts in preparation for the evening's activities. Prosperity was the reward of liberal donors, while the more selfish suffered.

These contributions were demanded in the name of Muck Olla, an early Druid deity, or of St. Columb Cille, who worked in Ireland during the sixth century.

Today folk festivals are manipulated, not celebrated. This reflects the growing influence of a rational outlook on life and the loss of interest of imagination and fantasy.

The secular character of contemporary culture is also reflected in public neglect of the religious significance of Halloween as well as in progressive loss of its folk vitality.

Children are least affected by this disenchantment and consequently the more important folk occasions tend to be dominated by the young.

# CAMPUS OPENS DOORS WIDE FOR PARENTS

Continued from Page 1

written three checks that week.

The Rayburnes were ready to believe that all that work had really gotten their little girl.

The festivities have been organized by the Parents' Weekend

Committee of the Activities Council. They have been aided by other committees, cheerleaders, the band, Vigilantes, the United Religious Council and various campus organizations.

**A FRAT TO REMEMBER**

Every year, as we all know, the Benevolent and Protective Order of Collegiate Fraternities awards a highly coveted prize to the fraternity house which, in its judgment, has done the most to promote and enhance the fraternity way of life. The prize this year—eight hundred pounds of white putty—goes to the Signa Phi Nothing chapter of the South Dakota College of Dentistry and Renaissance Art.

The award this year is exceptionally richly deserved, for the Signa Phi Nothing house is the very model of all a fraternity should be. It is, first of all, a most attractive house physically. The outside walls are tastefully covered with sequins. Running along the upper story is a widow's walk, with a widow stationed every three feet. Moored to the chimney pot is the Graf Zeppelin.

Indoors, the house gives an impression of simple, casual charm. The chapter room is furnished in homey maple and chintz, with a dash of verve provided by a carp pool three hundred feet in diameter. A waterspout rises from the center of the pool with the housemother bouncing on the top.

Members' rooms are gracious and airy and are provided with beds which disappear into the wall—permanently. Each room also has a desk, a comfortable chair, a good reading lamp, and a catapult for skeetshooting. Kidney-shaped desks are available for kidney-shaped members.

Perhaps the most fetching feature of the house are the packs of Marlboros stacked in heaps wherever one goes. If one wishes to settle back and enjoy a full-flavored smoke, one needs only to reach out one's hand in any direction and pick a pack of Marlboros—soft pack or flip-top box—and make one's self comfortable with a filtered cigarette with an unfiltered taste—that triumph of the tobacconist's art, that paragon of smokes, that acme of cigarettes, that employer of mine—Marlboro!

The decor, the grace, the Marlboros, all combine to make Signa Phi Nothing a real gas of a fraternity. But a fraternity is more than things; it is also people. And it is in the people department that Signa Phi Nothing really shines.

Signa Phi Nothing has among its members the biggest BMOCs on the entire campus of the South Dakota College of Dentistry and Renaissance Art. There is, for instance, William Makepeace Sigafos, charcoal and bun chairman of the annual Stamp Club outing. Then there is Dun Rovin, winner of last year's All-South Dakota State Monopoly Championship, 135 Pound Class. Then there is Rock Schwartz, who can sleep standing up. Then there is Tremblant Placebo, who can crack pecans in his armpits. Then there is Ralph Tungsten, who went bald at eight.

But why go on? You can see what a splendid bunch of chaps there is in Signa Phi Nothing, and when one sees them at the house in the cool of the evening, all busy with their tasks—some picking locks, some playing Jacks-or-Better, some clipping Playboy—one's heart fills up and one's eyes grow misty, and one cannot but give three cheers and a tiger for Signa Phi Nothing, fraternity of the year!

© 1960 Max Shulman

And while you're cheering, how about a huzzah for the newest member of the Marlboro family of fine cigarettes—unfiltered, mild, delightful Philip Morris king-size Commander! Have a Commander—welcome aboard!

# Graduate Finds Hill Changed, Crowded

"Where did all these cars come from?"

Barry Stephenson, second class journalist in the Navy, was amazed by the jammed parking lots on the Hill.

"And the new Ad Building! What a change in just two years."

Barry, who has just returned from a four-day visit with his parents, Mr. and Mrs. R. B. Stephenson of Dayton, Ohio, is completing an eight-day leave on campus with his brothers, Phil and Roger.

He will leave for a nine-month tour of duty Oct. 29 aboard the USS Lexington. The attack aircraft carrier will replace one now protecting United States' Pacific interests.

Stephenson considers himself very lucky—"because I got into my chosen field."

A 1958 graduate with a major in journalism, he is now editor of a monthly magazine, "The Musket", and a daily newspaper, "The Minute Man", on board his carrier. The purpose of these two publications is "to entertain the men".

Barry spent his first year in a Navy electronics school, but later he moved into public relations, working in International Headquarters, Supreme Allied Command, Norfolk, Va.

Last year he traveled through England, Spain, Scotland, Norway and Sweden, arranging news conferences on a Navy goodwill tour.

With two more years of service ahead, Barry will finish nine months of it on board the USS Lexington.

While he was attending TCU and working for The Skiff, he covered such incidents as the death of Ranch Week, the Student Congress beat and handled public relations for the band.

The most frequent questions asked Stephenson by new acquaintances are, "Did you know Jim Swink?" and "What kind of Team is TCU going to have this year?"

Since Barry feels that "the Southwest is coming up in the business world", he will probably come back to the Fort Worth area after the service.

Petty, Fort Worth senior, with Anna Lou O'Malley, Fort Worth junior. Second from front are C/Capt. Kirk Larkin, Waxahachie senior, and Martha Kay Frazier, Baytown senior. Third from front are C/Capt. Larry R. Kissinger, Fort Worth senior, with Stephanie Schermerhorn, Dallas sophomore. In the rear are C/Lt. George E. Horn, Fort Worth senior and Carolyn Acklin, Dallas senior. Miss Acklin is also Angel Flight commander. Sponsors will have the rank of honorary cadet major.

### Accompanist for 'Singers' Has Extensive Experience

Mrs. David Streetman, wife of TCU's new choral director, is accompanist for the TCU Singers. Mrs. Streetman taught piano, organ, music theory and music appreciation at Gulf Park College, Gulfport, Miss. before coming to Fort Worth with her husband. She received her B.M. in piano from North Texas State College and expects to receive her M.M. also in piano, from NTSC in Jan. 1961. Mrs. Streetman has played violin and viola for six years. She was first violinist in the North Texas Symphony Orchestra for two years.

## Foreign Students Give Hill Real Cosmopolitan Atmosphere

Students representing 24 countries have joined the "locals" on campus this year. Fourteen women and 37 men came here from foreign countries.

China provides 9, Mexico 6 and Canada 4. Iran, Korea and Japan each have 3 representatives. Hungary, Ecuador, Australia, India and South Africa have 2. Argentina, Germany, Cuba, Jordan, Lebanon, Egypt, France, England, Chile, Greece, Bolivia, Yugoslavia and Holland each have one student on campus.

The first foreign student to work on a Ph.D. here is 29-year-old Aleksandar Svager of Yugoslavia. He was awarded a \$2,500-a-year fellowship in the new doctoral program in the physics department which started this fall. After completing his degree, Svager plans to return to his homeland and teach.

Twenty-six foreign students are enrolled in the AddRan College of Arts and Sciences. Pre-engineering drew the greatest number, 2. Thirty-eight are undergraduate students. Eleven enrolled in the Graduate School, one in Brite College and one in the Ranch Training Program.

Dr. George Fowler of the religion department is foreign student advisor. His duties include helping acquaint the international students with the puzzling differences between their home countries and the campus.

American appliances and electrical gadgets prove baffling to the students, Dr. Fowler finds. Dial telephones and automatic

washing machines top the list of puzzlers.

Good old American dishes sound odd to some. For example, a Korean student still remembers an invitation to go out and eat a "not dog".

Most foreign students belong to the International Friendship Club. Sponsors for the organization are Dr. and Mrs. Leo Baggerly of the physics department. Members include American and foreign students.

The club acquaints members with world customs, languages and cultures. President of the group this year is Morris Horesch, a sophomore from Iran. Horesch is a pre-engineering major.

### Fast Operator

For ten years Miss Pauline Jones, head switchboard operator, has been promising Dr. Noel Keith that she was going to invite him to the local PBX Operators' "Bosses Banquet."

But, with so many bosses to pick from, she just never got around to it until this year.

"I was thrilled when she asked me," Dr. Keith said. "Then," he added sadly, "I found out she had invited Logan Ware and L. C. White too!"

"It just goes to show," he grinned mischievously, "that she's a more effective operator than I had thought."

# Now Hear This...

## Traffic Problem--Still Problem

The biggest obstacle facing University students these days is not the research paper, but the University Drive traffic.

Even Robert Lilly would have trouble directing traffic in this stretch of no man's land about 8 a.m. or 12 noon.

Amos Melton, assistant to the chancellor and director of information services, says that traffic engineers have studied the area off and on for about 30 years. A solution for safer pedestrian crossing is yet to be found.

City Safety Engineer T. R. Buckman says that the problem is bigger now than ever with approximately 20,000 cars passing through the University each day.

A traffic light was installed at the Library corner a few years back, but students continued to cross where they pleased.

The construction of two costly underpasses similar to those at Will Rogers Coliseum has been considered. There is doubt, however, that students would use them if built.

The installation of caution blinkers would have no effect on people who travel the street every day, according to Buckman.

Security Chief Bill Biggers says that although the traffic is quite heavy, "only two people have been seriously injured in the seven years I've been here." One was a retired faculty member, and the other was an instructor in the physical education department.

Buckman believes the University accident rate has been held to a minimum by the caution and judgment exercised by students in crossing the street.

Traffic on University Drive grows heavier each year. At present nothing is being done to alleviate the situation.

Here is one suggestion. Perhaps a few strategic "Stop When Ped-xing" lanes could be painted.

This would certainly benefit the students, but then, again, it might lead to some mighty good traffic-jams.

Ideas anyone?

## There Are None So Perfect

In the pre-election months and weeks there has been a deluge of biographies of presidential hopefuls.

There have been at least four hard-cover books on Richard Nixon alone, none of them portraying the man as a human being. No one can be so perfect.

Apparently, each candidate for the presidency finds it necessary to prove he has done great things, has a common touch, is superior in brain power, but is not snobbish about it. Little is said about that little thing called character.

The candidates' biographies are campaign literature. They are designed to depict an individual as possessing a reputation for achievement and noble aspirations.

The reading is generally for juveniles. Few men are worthy of biographical study until long after they have been laid to rest. Then their deeds and character may be studied objectively and in historical perspective.

On the other hand, a soft answer has been known to turn wrath into fury.

One advantage of a big business is that it can absorb big losses. Some say that is the only advantage.

## The Skiff

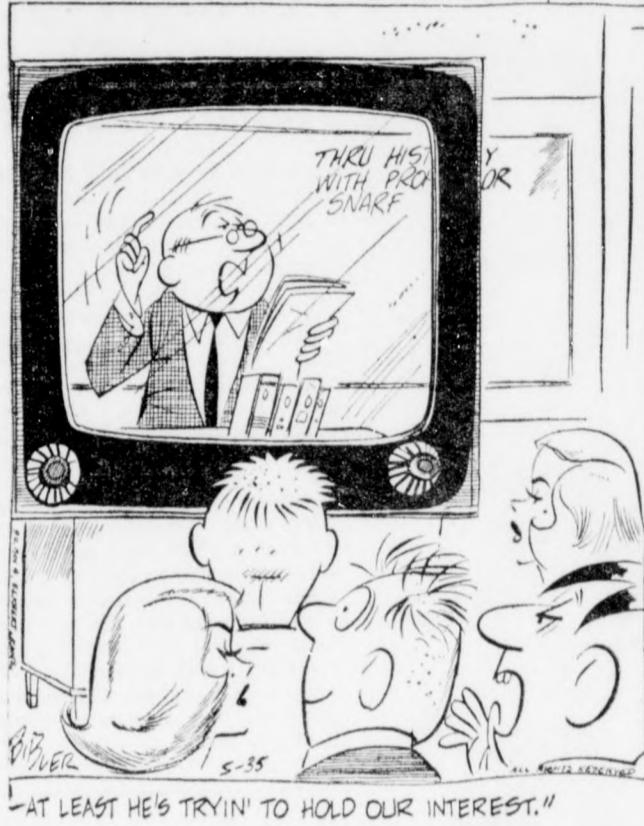

The Skiff is the official student publication of Texas Christian University, published semi weekly on Wednesday and Friday during college class weeks. Views presented are those of the student staff, and do not necessarily reflect administrative policies of the University. Represented for national advertising by National Advertising Service, Inc., 420 Madison Ave., New York, N.Y., Chicago, Boston, Los Angeles, San Francisco. Second-class postage paid at Fort Worth, Texas. Subscription price, \$3 a year in advance.

## LITTLE MAN ON CAMPUS by BIGGER

## BACK TALK

### This Is Your Weekend

By JERRY JOHNSON

Howdy, Moms and Dads!

Welcome to the 1960 versions of Parents' Day, which, by the way, has been renamed "Parents' Weekend" to prolong your stay.

The Parents' Weekend Committee has done its "dangdest" to see that you enjoy yourself during your three-day visit.

Among the activities you may attend are two concerts, a parade and pep rally, dorm open houses, a banquet (now you can see if the food is really as bad as he or she says), a rip-snortin' football game, a film about TCU, church services and many others.

And while you're up here, you can "chew out" the professor who flunked little Homer last Spring! He was a wicked, wicked man for doing it, and don't forget to tell him so.

And while you're in the "chewing" mood, you can strangle the person responsible for the Parents' Weekend letter you received. Wasn't it a funny letter? Ha, Ha, and wasn't it a funny coincidence that you did have three checks come back from the bank?

★ ★ ★

Tonight's activities include a carillon concert by Professor Emmet G. Smith, assistant professor of organ; vesper services, featuring the Chapel Choir and a torchlight parade and pep rally for the big game tomorrow.

Speaking of the game, did you know that tomorrow will mark the Baylor Bears' first loss of the season? Y'up, the mighty Froggies will see that your viewing will be a pleasure by skinnin' the Bruins.

And we wouldn't mind it one bit if you out-yelled the students. In fact, we don't think you can yell. Why don't you surprise us?

After the game, com'on up to the Student Center for chow. It starts at 5:30 in the ballroom and Dr. D. Ray Lindley, president of this h'yar University, plans to give an interesting talk to help digest the food (?).

If you haven't anything planned after the banquet, trot on over to the Little Theatre and see the final performance of William Inge's Broadway hit, "The Dark at the Top of the Stairs". It has really been going "great guns" this past week, so don't miss it!

Sunday morning, bright and early, we want to see your shining faces in church. After all, this is a Christian school!

And if you can face up to it, tackle another meal in the Cafeteria. I betcha' they'll have chicken. Who knows, you might even like the food they serve there.

Above all, enjoy yourselves while you're here. Tour as much of the campus as possible and I'm reasonably sure Bill Biggers, our chief security officer, will let you off cheap in case you find your windshield ticketed!

## the Soothsayer

By JACK HARKRIDER

We now present "Sports Highlights", with your host, Milfred Ginch.

"Good afternoon, sports fans, and welcome to 'Sports Highlights', presented by the Humbug Oil and Refining Company.

"Our guest for today's show is that home-spun philosopher, Abe Marvin, the pride of Wharton County and coach of the TCU Lizards. Welcome to the show, Abe."

"Thank ya, Johnny."

"My name is Milfred."

"I'm right proud to be here, Johnny. 'Course I'm not used to these here new-fangled tel-e-vision gizmos. Makes me feel like a flea on a hot rock."

"Well, tell us about yesterday's game. How did it look?"

"Why, Johnny, it looked like a couple of hounds let loose in the chicken yard. Them fellas was runnin' all up and down that field like roosters with their heads cut off. It was a real civil war. Yessiree—a real hog wal-low."

"How 'bout the team, Abe? Did they do as well as you expected?"

"Ohh yea. They did a real good job. I got a bunch a real good boys out there and they played a real good game and I feel real good about the battle. I mean to tell ya, it was a real good battle."

"Well, what did you think of the Leopards?"

"Oh, they got a real good team—ain't no doubt about it. They had a bunch a real good boys out there and they gave us a real good battle. I mean to tell ya, them boys don't buck the plow—they come to play football, and they do it real good, too."

"Here's a picture taken of yesterday's action, Abe. Could you describe what's going on in the picture?"

"Be glad to, Johnny, soon's I get my spek-tickles on here. My eyes ain't so good as they used to be—ahh—that's better. Oh say! Now that's a real good shot! There's ol' Tulip takin' out a couple a Leopards. He had himself a real good day out there. He's a hoss out on that field."

"Isn't that Harley Morehead with the ball?"

"It sure is. Ol' Rabbit's a little dude, ain't he? He's havin' himself a real good year. Yessiree, that littl' rascal can really scoot. He's a real good ball player."

"Well coach. What about next week's game? Do you think the Lizards can hold the Pandas?"

"Ohh, we'll make a real good try at it, Johnny. 'Course they're rated pretty high in the nation, but that don't scare my boys none. They'll be out on that field waitin' to play football. 'Course, them Pandas 'il be comin' down to play football, too, so it ought to be a real hair-rasin' wooly-booger."

"How about the Panda players themselves? Can you give the sports fans some idea of what to look for?"

"Ohh yea. They got some real good boys on their squad—ol' Moose and that other fela. They ought to have a real good team. It'll be a real good game."

"Well, coach. I see out time's just about up and I want to thank you for appearing on our show. It's been real good—er, I mean it's been a pleasure chatting with you and getting the real lowdown on yesterday's game and what to expect next week."

"Ohh. Glad to do it, Johnny."

"My name is Milfred."

DOLLYE JO LUTON

The CHI OMEGAS . . . will entertain their parents with a luncheon in the Cannibal Room at Western Hills Hotel tomorrow at 11 a.m.

KAPPA DELTA . . . celebrated Founders' Day last Monday night with a banquet at Colonial Country Club. The KDs will have a buffet in their chapter room tomorrow before the game for their parents. After the game they will serve coffee and cookies in their chapter room.

ZETA TAU ALPHA . . . is planning a tea to be held in the

Zeta chapter room tomorrow before the game. The tea will honor their parents.

ALPHA DELTA PI and SIGMA CHI . . . had an informal mixer last night at the home of Miss Roselin Gould, Arlington sophomore. The ADPIs will entertain their parents with a luncheon before the game tomorrow at the home of Nancy Newton, Fort Worth freshman.

PI BETA PHI . . . will have an open house in the chapter room for their parents after the game tomorrow.

DELTA TAU DELTA . . . will have open house in the Delt chapter room after the Baylor game tomorrow. The Mothers' Club will serve refreshments to the parents.

LAMBDA CHI ALPHA . . . is planning a Parents' Day reception in the Lambda Chi chapter room before the game tomorrow.

SIGMA CHI . . . will entertain the parents with a luncheon at Cross Keys Saturday morning. The Sigs will also have an open house in their chapter room before and after the game tomorrow.

DELTA GAMMA . . . Parents' Day luncheon will be held at Ridglea Country Club tomorrow at 11:30 p.m.

ALPHA GAMMA DELTA . . . will entertain their parents with a luncheon at La Barn at noon tomorrow. They will also have open house before and after the game in their chapter room.

KAPPA ALPHA THETA . . . had chapter dinner Wednesday night in the Student Center. The Thetas will entertain their parents with a light luncheon in their chapter room Saturday before the game.

PHI DELTA THETA . . . will hold open house in their chapter room before and after the game for their parents. The Phi Deltas will have a "Twin Date Party" at the Fort Worth Gun Club Saturday night.

SIGMA ALPHA EPSILON . . . will entertain their parents with an open house in their chapter room Saturday before and after the game.

SIGMA PHI EPSILON . . . will have a luncheon at the House of Mole for their parents tomorrow before the game. Later they will entertain in the chapter room with an open house.

## Math, English Professors To Discuss Study Habits

Study Habits Clinic talks continue today at 4 p.m. in the Student Center Ballroom.

Dr. J. W. Smith, professor of English, will illustrate "How to Organize Written Material" and "How to make An Outline and Develop It Into A Finished Paper."

Dr. L. A. Colquitt, mathematics professor, will point out "Ways to Improve Your Study of Mathematics".

Study Habits Clinic series are designed to help the student improve his grades with better study techniques by teaching him to retain written material, write papers, understand math, take tests and utilize time.

"Making the Most of Your Time", presented by Dr. Estes Polk, professor of English, will open the last day of the Study Habits Clinic series at 4 p.m. tomorrow in the Student Center Ballroom.

Dr. C. J. Firkins, director of the Testing Bureau, will close the session with his talk, "How to Take Tests".

Question and answer periods will be held after each talk.

"The program will benefit the students who are not having trouble with studies as well as the students who are," maintained Dr. Firkins.

## Construction Of Displays Begins Nov. 7

Don't lose your \$10 deposit by breaking the display rules!

Homecoming display chairman, Miss Sue Duncan, Birmingham, Ala. junior announced a meeting of organizational display chairmen to be held Nov. 2 at 4:30 p.m. in room 210 of the Student Center.

Organizations may use the east side of the stadium to begin construction on displays beginning at noon Nov. 7 and ending at noon on Nov. 10, at which time the displays must be moved to the permanent locations and the grounds must be completely cleared.

Display judging will begin at 8:30 p.m. Friday and trophies will be presented at the dance that night in the Student Center. There will be three judges, a faculty member, an ex-faculty member, and an ex student.

Display rules are:

1. Displays may be set up Nov. 9 at noon, not before.
2. Displays must be finished by 6 p.m. sharp, Nov. 11.
3. An itemized expense account must be turned in to the Student Congress office no later than 6 p.m. Nov. 11.
4. Voltage and number of plugs needed must be turned in to the display chairman at the meeting of organizational display chairmen Nov. 2 at 4:30 p.m.
5. Displays must be junked for the maintenance men to collect at 5 p.m. Nov. 14.

Dale Johnson, B.A. '60, is presented the annual Sigma Delta Chi award for the most outstanding male student of 1960 by Dr. Max R. Haddick, sponsor of the professional journalistic group's chapter. Johnson is presently employed as night editor of the Mid Cities newspaper.—(Skiff staff photo).

### Johnson Is Named SDX Outstanding 1960 Graduate

Dale Johnson, B.A. '60, received the Sigma Delta Chi, professional journalistic fraternity, award for the 1960 outstanding male graduate from the University in journalism.

The award, the first annual one to be presented by the TCU chapter, was given for general excellence in character, scholarship and competence to perform journalistic tasks.

Johnson, the son of Mr. and Mrs. Felix M. Johnson of Gainesville, also received The Skiff Sponsor's Award for the most loyal reporter.

While at TCU, Johnson worked on the Skiff as photographic editor, photographer, reporter and editorial writer.

His pictures and stories have appeared in the Hillsboro Daily Mirror, Cleburne Times Review, Gainesville Daily Register, The Texas Press Messenger, Quill and This Is TCU.

Johnson also received honorable mention for his pictures and feature on safe driving which appeared in the Skiff. The award was presented in an insurance safe driving contest for college papers throughout the country. Johnson, whose interest began with photography as a hobby,

worked as a summer replacement for the commercial page editor of the Dallas Times Herald while the regular editor was on vacation. He is now employed as night editor of the Mid Cities paper, which serves Hurst, Euless, Bedford, Richland Hills, North Richland Hills and parts of Haltom City, and the Irving paper.

### Voice Professor To Give Recital

Arlene Sollenberger, assistant professor of voice, will present the second faculty recital for this semester on Tuesday, Nov. 1.

The soprano will be accompanied by Dr. Keith Mixon, professor of theory and piano, and Dr. Ralph Guenther, professor of theory and flute.

The program will include numbers by Handel, Chaussou, Menotti, and Schumann.

### Council Announces Plans For Women's Intramurals

The Women's Intramural Council met recently to discuss the fall intramural season.

Eight sorority representatives and four independent representatives were present to discuss the volleyball, tennis, badminton and archery schedules.

The representatives are: Misses Patsy Meyer, Kappa Kappa

Gamma; Sue McMurtry, Pi Beta Phi; Barbara Leech, Alpha Delta Pi; Patsy Posey, Chi Omega; Deanna Larson, Alpha Gamma Delta; Jeanette Wilkerson, Kappa Delta; Charlotte Hilley, Delta Gamma, and Allie Beth McMurtry, Delta Delta Delta.

Thirteen teams have entered the volleyball tournament.

The independent representatives and their teams are: Misses Ruth Redland, Disciples Student Fellowship; Martha Chilton and Glenda Craddock, "Weavers"; Pat Schuler, "Spooks" and "BSU".

The three top teams receive a trophy annually. Also the "Teamwork and Participation Award" and "Best All-Round Woman Athlete" will be presented.

The purpose of the Intramural Council is to coordinate the games and activities, agreed Misses Billie Sue Anderson, sponsor, Glenda Craddock and Martha Chilton, co-directors.

Douglas Malloch: "The biggest liar in the world is They Say."

### Graduate Earns Ph.D. From MIT

James F. Campbell Jr., class of '55, has been awarded his Ph.D. degree from Massachusetts Institute of Technology this year. He specialized in semi-conductors.

Campbell is now employed as a physicist with the Fairchild Semi-Conductor Corporation in Palo Alto, Calif.

While at MIT, he was a teaching assistant in 1955 and 1956 and a research assistant from 1956 until 1960.

### Student Congress Publishes Paper

"Toad Talk", a paper, is being published by the Student Congress and Activities Council this year. Pam Smith and Patsy Rayburne are editing the paper which will be distributed every Wednesday afternoon. Louis Mondy, chairman of the congressional relations committee, originated the title for Toad Talk. He explained that its purpose is to keep students informed about actions taken by congress and the Activities Council.

Albert Lasker: "It is change, not love, that makes the world go round. Love only keeps it populated."

I'M KIND OF A "WELCOME-WAGON" FOR LEAVES!

**PEANUTS**  
I SAID GO ON HOME!  
YOU'RE NOT GOING TO MAKE A FOOL OUT OF ME AND OUR FAMILY BY STANDING UNDER A TREE TALKING TO FALLING LEAVES!  
I CAN'T THINK OF ANYTHING MORE SILLY THAN SOMEONE TALKING TO A BUNCH OF DRIED UP, STUPID, WORTHLESS LEAVES!

## Skiff Football Contest

FOUR TICKETS TO WORTH THEATER  
GIVEN EACH WEEK

### CONTEST RULES

1. Contest is open to TCU students ONLY
2. Only ONE entry will be accepted from each contestant and EVERY game must be picked.
3. Contestants must pick total points on TCU game each weekend, in case of a tie, contestant coming closest each week will be declared the winner.
4. Entries must be received in box marked "Skiff Football Contest" at the candy counter in the Student Center by 6 p.m. Friday.
5. No member of The Skiff staff is eligible for prizes.
6. Winner will receive four passes to the Worth Theater.
7. Entries will be judged by sports editors of The Skiff.

## Freshman Class Brings Top Students to Campus

Big?  
The biggest.  
Bright?  
Read the record.  
The current freshman class is the biggest in the University's history and, if it is to be judged on its record, it is also the brightest.

Calvin Cumbie, registrar, reports that at least 63 students in the 1,129-member class were valedictorians or salutatorians of their high school classes.

Cumbie explained that his records do not show the class standings of all the students so there may be a few who held first or second places whose records do not so indicate.

### Eligible for \$1,200

Texas, Louisiana, Oklahoma and New Mexico students who won these honors have doubtless made

it known, since each of them is automatically eligible for a \$1,200 scholarship. This is the last year this arrangement will be in effect. Beginning next fall, standings on College Board examinations will be the basis for awarding scholarships.

Cumbie indicated the Class of 1964 will not have to depend only on its impressive galaxy of stars for creditable work. He said there is a solid body of good scholastic records.

Of students whose standings are known, 70 per cent were in the upper half of their high school classes and 38 per cent in the top quarter.

### From 39 States

The class comes from near and far. Seventy-two per cent are Texans but the remaining 28 per cent represent 39 states. Missouri, Oklahoma, New Mexico, Illinois and Louisiana sent the largest out-of-state groups.

Mrs. Anna Byrd Wallace, assistant registrar, said families are already visiting the campus to place entrance applications for next year's freshmen.

## Music Schools Board Will Have Session Here

The Board of the Texas Association of Music Schools will meet in the office of Dr. Michael Winesanker in the Fine Arts Building Saturday, Oct. 29. Dr. Winesanker is the chairman of the department of music and president of the TAMS.

The meeting is to plan the program for the annual spring meeting of the association which is to be held here next year.

There is to be a discussion at

the meeting of questions relating to teacher certification in music and the Texas Education Agency. The group will attend a luncheon in the Student Center at noon and will return to the meeting in the afternoon.

Attending the meeting will be such persons as Dr. Donald Morton, chairman of Fine Arts at Tarleton State College; Dr. E. A. Thormodsgaard, chairman of the music department at Texas Western University; Dr. James Richards, head of music at East Texas State College and Dean E. W. Doty of the College of Fine Arts at the University of Texas.

Dr. Orville Borchers, dean of the School of Music at Southern Methodist University; Dr. James Mathis, dean of music at Hardin-Simmons University and Dr. Kenneth Cuthbert, dean of the School of Music at North Texas State College will also attend.

Dr. Earl V. Moore, who just retired at dean of the Music School at the University of Michigan and acting dean at the University of Houston this year, will come as a special guest of Dr. Winesanker.

## Interviews For Seniors To Be Held

Several employment representatives will be on campus next week to interview interested seniors.

The United States Marine Corps will interview seniors majoring in any subject on Oct. 31, Nov. 1 and 2.

Also on Nov. 1 the U.S. Dept. of Justice, Immigration and Naturalization, will talk to majors in any subject.

A representative of the U.S. Civil Service Dept., 8th Region, will be here to talk to students of all majors on Nov. 2.

On Nov. 3 Ernst & Ernst will talk to senior accounting majors. Students interested in talking to a spokesman for the Boy Scouts of America may do so on Nov. 3.

The interviews are to be conducted 9 a.m.-5 p.m. in the Student Center.

### Concentrates on Star Performer—The Neutron

# Physics Department Conducts Research

Initial equipment in the university's new nuclear physics lab includes a \$25,000 ion accelerator (atom smasher) being checked out by Dr. Leo Baggerly (background) while Dr. Joseph Morgan operates the "atom smasher's" remote control unit. The laboratory is located on the ground floor of the Science Building.

Scientists every day throughout the world are finding new uses of a tiny particle with a nucleus of less than a millionth of a millionth of a centimeter.

Not so long ago it was used for destruction at Hiroshima and Nagasaki where thousands upon thousands of Japanese died from its effects.

The tiny particle, of course, is the atom.

But the atom is not just used for war-time purposes, scientists everywhere are finding what good uses can be made from this tiny object.

And conducting one of the newest research operations is the physics department here on campus.

#### Nuclear Installation

The department is currently outfitting a nuclear physics installation on the ground floor of the Science Building.

The laboratory's initial equip-

ment includes a \$25,000 ion accelerator, containing a 150,000-volt power supply for accelerating ionic particles, a vacuum chamber, an ion source, target assembly and a console for remote control.

The machine was designed in large part by Dr. Ira Morgan, a graduate who is now vice president of the Texas Nuclear Corp. which built the accelerator.

One of the many reasons for establishing the nuclear research laboratory, according to department Chairman Dr. Joseph Morgan, is to make way for the new Ph.D. program just beginning this Fall.

#### Atom Smasher

The lab's ion accelerator, in popular terminology, is called an "atom smasher," although technically atom smashing does not occur in most cases and the atom's nucleus is only slightly changed by the reaction.

"What takes place," according to Dr. Leo Baggerly, physics prodean of the department's nuclear fessor, who directs a great deal of this, "is this:

"A projectile—in our case, a deuteron—with sufficient energy to penetrate the nucleus of an atom enters, carrying with it its own momentum and kinetic energy. Although this extra energy is almost immediately distributed among the protons and neutrons in the nucleus, usually the energy is more than a stable nucleus

can retain and eventually a reshuffling must take place.

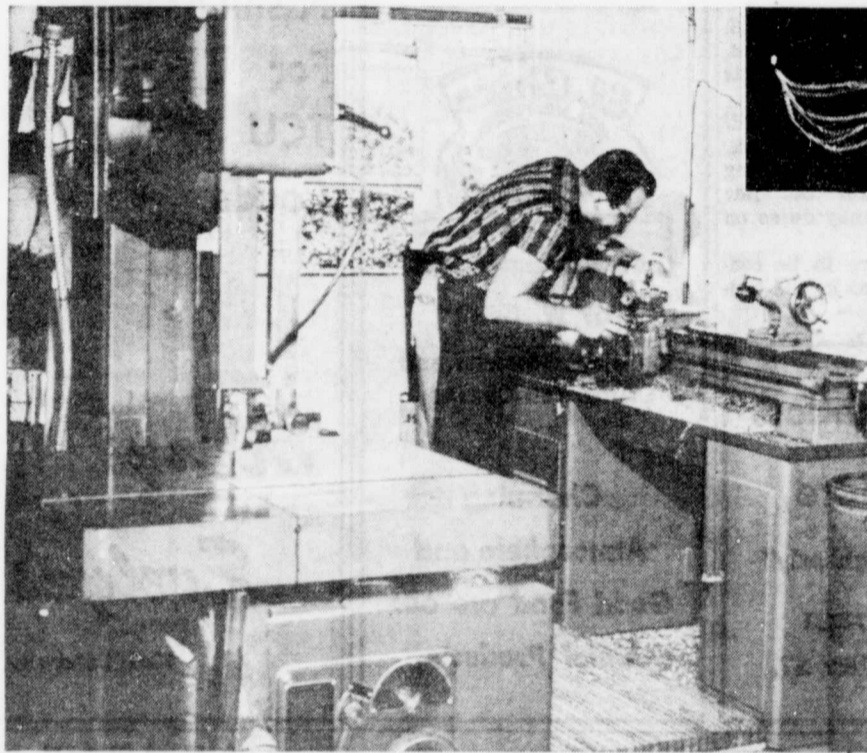

#### Nucleus May Explode

"In only a comparatively few instances do these nuclear reactions result in true disintegration. Some, for example, when fission occurs, the nucleus will split into particles of almost equal mass. Or in other rare instances, the nucleus may explode into 10 or even 20 fragments."

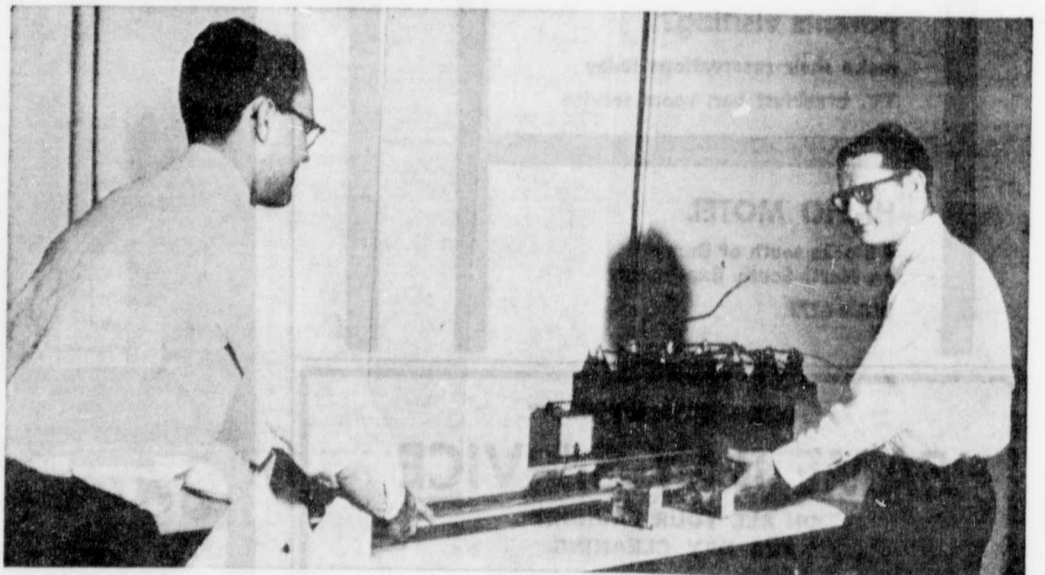

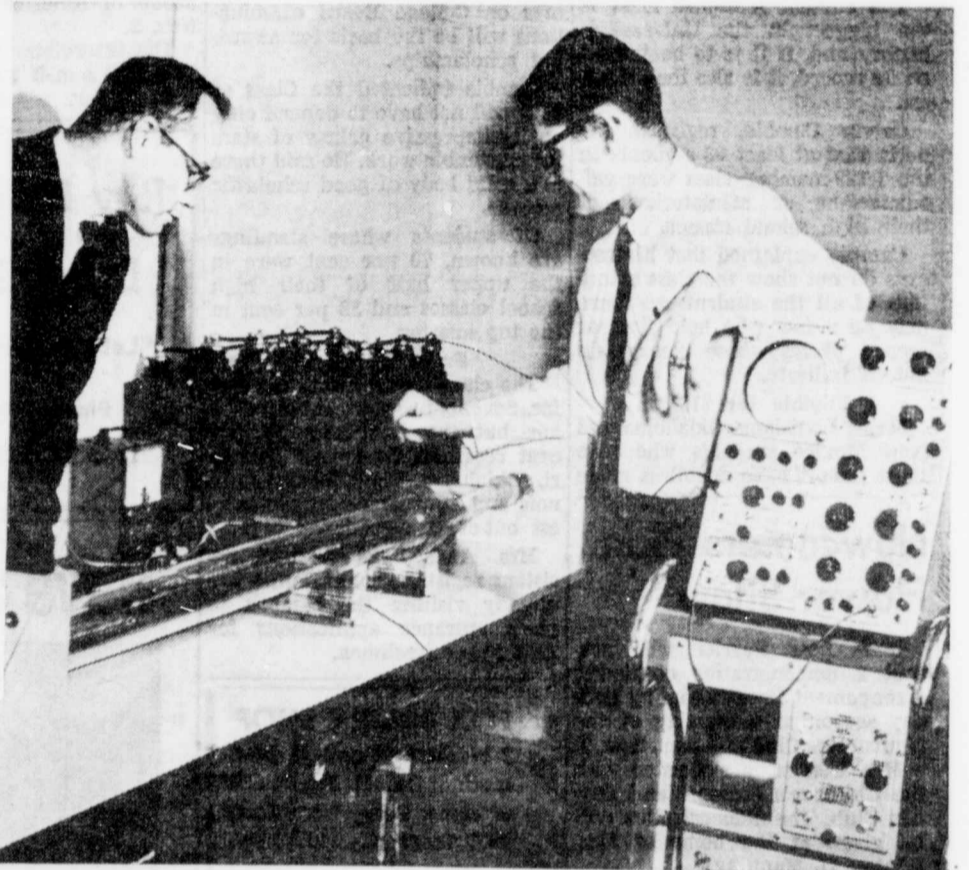

Initial nuclear research in TCU's laboratory is being concentrated on this star performer—the neutron. The work concerns elastic and non-elastic collision between the neutron and the nucleus of an atom, with researchers measuring the energy of the scattered neutrons on a time-of-flight spectrometer calibrated in millimicroseconds—or one-thousandth of a millionth of a second!

The Ph.D. program just beginning plans to concentrate work in five major fields: nuclear research, X-ray diffraction work on solids and liquids, optics, solid state research involving semiconductors and transistors and theoretical physics.

"Our aim is to develop a program where well-qualified, able individuals can obtain a high doctoral training on a broad, experimental and theoretical level as far as the essential fields of physics are concerned," Dr. Morgan says, "with specialized training in an individual research area."

Turning a section of a metal X-ray camera on a lathe in the well-equipped instrument shop is Don Hall, mechanic-technician in the physics department. Special pieces of equipment for all phases of research are constructed here. Both wood and metal-working tools are available.

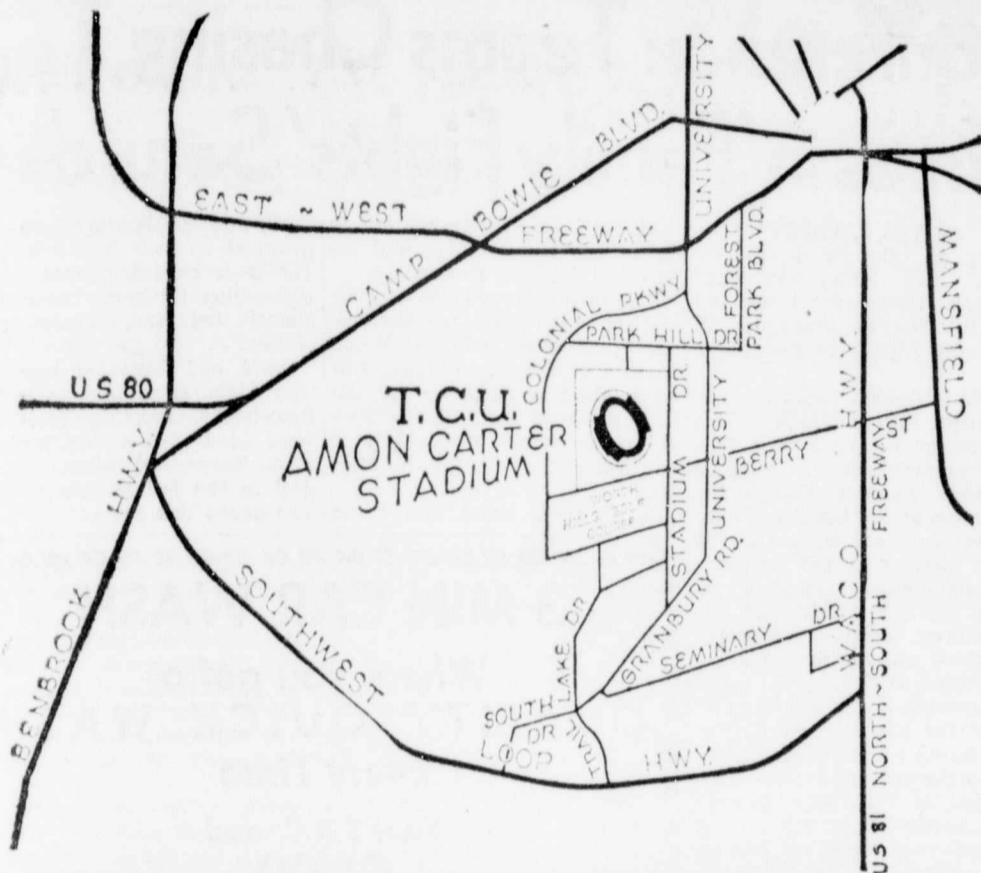

Dr. H. M. Mosley and Lynn Purvis (top photo) examine triggering mechanism of shock tube. Oscilloscope is shown at right. Dr. Baggerly and Instructor Lynn Purvis (bottom photo) assemble a new shock tube affection-

ately called the "gray beast." Oscilloscope screen (inset above) shows lighted line .000005-second long, one of a few traces that a shock passed through the tube.—Skiff Staff Photos.

Dr. Morgan adjusts a crystal sample in the \$24,000 x-ray diffractometer installed in the science division last summer. X-rays from the sample are measured at right. This equipment will be used for research in the diffraction and scattering of X-rays by amorphous and glasslike materials and liquids.

For the parents' convenience, here is a map indicating the best roads for traveling to and

from Saturday's football game. (Diagram courtesy Fort Worth Star-Telegram.)

## Visiting Team to Check Results of Self-Study Work

Two years of exhausting self-study will come to a climax here Nov. 6-9.

With 30 volumes of bound reports covering from the student social program to the new doctoral degree plan before them, a team of educators from over the country will visit the campus to check the results of the study.

The program began in 1958. The Southern Association of Colleges and Secondary Schools had instituted a program of "re-accreditation."

Under the plan, member schools would study themselves. The result of their study would then be checked by an association team.

The University agreed to act as a "pilot school." It is the first complex institution to undergo such a self-evaluation study.

Dr. Otto R. Nielsen, dean of the School of Education, is general chairman of the program. He is also chairman of the steering committee.

Working with him on the committee are Jerome A. Moore,

dean of AddRan College; Ike H. Harrison, dean of the School of Business; Laurence Smith, dean of students; and Amos Melton, assistant to the chancellor.

Dr. Charles Davis, president of Winthrop College, will head the inspection team from the Southern Association.

### Business Jargon

A Program: Any assignment that can't be completed by one telephone call.

To Expedite: To confound confusion with commotion.

Channels: The trail left by inter-office memos.

Co-ordinator: The guy who has a desk between two expeditors.

## Traffic Program Planned

Three main points should be considered by football fans driving to the TCU-Baylor game Saturday afternoon at Amon Carter Stadium.

(1) Start early, for the game will begin at 2 p.m.

(2) Have 50 cents in change to pay for parking unless you own a season parking ticket.

(3) Avoid University Drive as part of your route to the stadium.

This advice was given by the Sportworthians committee on stadium parking in announcing plans for handling the huge flow of traffic expected at each game.

The Sportworthians have been working on traffic plans for months, and have hired additional men to direct the flow of automobiles.

Several streets will be designated one-way before the game and the flow will be changed after the game to speed traffic.

Start for the stadium early. That way the rush is avoided and pre-game activities can be seen.

The parking fee is charged by TCU this year for the first time. Extensive surfacing was completed this summer and the fee will be used to pay for improvements.

The avoidance of University Drive, a bottleneck in the past, will help the traffic flow considerably, a survey showed.

The traffic committee came to these general conclusions:

Fans arriving from the west should take (1) the Southwest Loop, getting off at Trail Lake or South Drive, or (2) take Montgomery to West Vickery to Rogers to Park Hill.

From the south (Waco highway), leave South Freeway at Felix, go to Hemphill and then to Seminary Drive, or leave the Freeway at Seminary.

From the east, leave the West Freeway at Forest Park, proceed to Park Hill and turn on to Stadium Drive.

Before the game, these streets will be one-way leading toward the stadium: Rogers, from Colonial Parkway to Park Hill; Stadium Drive, from Park Hill to Cantey; Alton Road, from Simondale to Bellaire Drive North; Park Hill, from University to Stadium Drive; Berry, from University Drive to Stadium Drive.

After the game these streets will be one-way outward: Rogers, from Park Hill to West Vickery; Highview, from Cantey to Park Hill; Stadium Drive to Park Hill; Park Hill, from Boyd to University; Park Hill, from Boyd to Colonial Parkway; Cantey, from Stadium to Forest Park; Bellaire Drive North, from stadium to

University; Bellaire Drive North, West; Berry, from Stadium Drive from stadium to Bellaire Drive to University.

### TONIGHT COULD BE THE NIGHT

One of the advantages of going to college in a big town is that you can take in all the cultural and other events going on. The temptation is to let them slide past, however . . .

Tonight, the 28th could be the night that you learn to love Opera. LA BOHEME, one of Puccini's most beautiful and most accessible operas will be given at 8:15 by the Fort Worth Opera Company.

You can only appreciate opera by seeing it and hearing it, because it is a marriage of all the arts. Give yourself a new experience and go out and hear opera well done.

Coolidge Hunt, Texas Tech's hard-running fullback, will test his skills against Rice this week in one of the Southwest Conference's leading games. Hunt leads the SWC in rushing with 359 yards in 81 carries. He gained 122 yards against SMU last week.

# Conference Teams Chasing Top Prizes in 'Family Fights' Saturday

By TIM TALBERT

They all play for keeps Saturday. They being the eight Southwest Conference teams and the prize they're chasing is an unscheduled game in Dallas Jan. 2.

Baylor's Golden Bears roar into Amon Carter Stadium this weekend on the crest of a five-game winning streak. Paced by the three Ronnies—Bull, Goodwin and Stanley, the Bears have the best balanced offense in the league. Stanley is the conference's leading passer, completing 32 of 56 for 476 yards and two touchdowns. Bull and Goodwin rank third and fourth in rushing competition. Both have the speed to go outside and Bull can go inside if the situation exists. The Frogs found a much-needed guard and linebacker in Richard Holden against Pitt. Guy (Sonny) Gibbs demonstrated that he can run and pass with the best of them. After starting only one game and playing with the second team in the others, Guy ranks fifth in total offense, fourth in passing and tenth in rushing. But Gibbs will need some help if the Frogs are to hand Baylor their first defeat.

The dehorned Longhorns of Texas are snorting and pawing the ground waiting for their game

with SMU. The Steers are out to gain back lost prestige and renew lost faith in themselves.

The Ponies seem to be improving with each game, but the season may run out before they can reach a winning level. Texas will be wanting to make up for the first skunking since Darell Royal became coach. It could be a long hard afternoon for the Mustangs.

Rice's Owls bump into Texas

Tech, and the Raiders have just wrapped up their first SWC win. The Owls have developed into a title contender to the surprise of almost everyone, except Jess Neeley.

A&M and Arkansas have the only night game this week. The Razorbacks, snorting from the same kind of loss they inflicted upon Texas last week, a field goal in the last minute of play, also needs this game.

## Hosses, DSF Intramurals Top Choices

Process of elimination is in progress in independents football next week.

And that's the way The Hosses and DSF likes it.

If all the other teams in the league knock each other out of contention and DSF and The Hosses continue to win, the championship will be decided when these two teams play.

Baptist Student Union brings their 1-1 record into the first game Monday against the Army Doughboys who have an identical record. Neither team can afford a loss and stay in the running for the lead.

The Army defeated the Vigilantes 16-0 in their last outing and BSU was shut-out by The Falcons 40-0 Monday afternoon.

The Vigilantes will try to help The Hoses to the throne by defeating DSF Crusaders in the last game Monday.

DSF is currently tied with The Hosses for the league lead with a 2-0 record.

Will Rogers: "To understand a politician, look at the other head on the pillow."

## Filters for flavor

*-finest flavor by far!*

THE TAREYTON RING MARKS THE REAL THING!

Tareyton has the *taste*—  
**Dual Filter**  
does it!

### HERE'S HOW THE DUAL FILTER DOES IT:

1. It combines a unique inner filter of ACTIVATED CHARCOAL... definitely proved to make the taste of a cigarette mild and smooth...
2. with a pure white outer filter. Together they select and balance the flavor elements in the smoke. Tareyton's flavor-balance gives you the best taste of the best tobaccos.

**Hare Always Backed Team**

# Moreland 'At Home' With Frog Eleven

By JACK GLADDEN

Long ago in the days BAM (Before Abe Martin) a husky, tow-headed goblin used to haunt the Stadium every Saturday during football season.

He watched each play as carefully as a press box quarterback and dreamed that someday the man on the public address system would call out his name.

Now he has heard it—many times.

"Carrying the ball for the Frogs on that play was left halfback Harry Moreland."

Harry's football career started early in the fourth grade. For two years he played fullback on a Gra-Y team sponsored by the YMCA. Both years the team won the Fort Worth City Championship.

"I was a terror then," Harry grinned. "I weighed 65 pounds."

In the sixth grade his family moved to San Antonio, but Harry kept up his football. He played halfback on the junior high team. Each year the team won the district championship.

The family moved back to Fort Worth when Harry was in the ninth grade, and the next year he enrolled in Arlington Heights High School.

He went out for football and track. His track work helped Harry develop into a top-notch sprinter.

"In 1956," Harry said, "our 440-yard relay team set the state record which was not broken until last year."

Since the Heights football team used the single wing formation, Harry played tailback for them. A three-year letterman in high school, he was picked for the All State, All South, and All America teams.

When he graduated he chose to spend the next four years with Abe Martin and the Frogs.

"I picked TCU," he said, "because I liked the school."

"And I've always been a Frog fan, ever since I was a little kid."

A journalism major, Harry

wants to go into public relations work when he graduates.

Asked what he liked to do in his spare time he replied, "Hunt and fish some, but mostly just relax."

His taste in music?

"Classical. It's easy to relax by."

HARRY MORELAND ... moments to remember.

# No Post Men-Swaim

If anyone ever asks freshman basketball coach Johnny Swaim who his post men are he corrects them.

"We don't have a post man," he's quick to point out.

But Swaim does have two of the finest prospects in the conference this year in Hal Ratcliff of Dimmitt and Bobby McKinley of Bowie. Both were all-state last year and have shown exceptional skill in early workouts.

If the Wogs were to start a game today the starting lineup would probably be Green, Ratcliff, McKinley, Tommy Robbins of Fort Worth Poly and Jack Pozero of San Antonio.

"Robbins is quick as a cat," says Swaim.

McKinley and Ratcliff are the biggest catches.

Both are smooth on defense. McKinley is exceptional on offense, owning practically every shot in the book, while Ratcliff is the kind of player that "has to work for his shots."

"If we never win a game we're still going to have some fine prospects for the varsity," Swaim relates. "All these boys are fast."

The first game for the Wogs will be Dec. 2, preceding the varsity's game with Austin College. Lon Morris, always one of the state's toughest junior colleges, will visit the Wogs at Public Schools Gym, site of all Horned Frog games.

## SAE Faces Hard Play

Out of the frying pan into the fire. This is the situation SAE must face Tuesday afternoon.

Three teams—Sigma Chi, Phi Delt and SAE—were tied for the fraternity intramural lead with 3-0 records.

SAE played Sigma Chi yesterday and Tuesday afternoon they play the Phi Delt. On top of this, SAE's quarterback Leland Phillips is still limping on his sprained ankle.

The Phi Delt has won four straight games on the passing of Mark Clifford and the catching of Joe Jones. These two were instrumental in the 22-0 defeat of the Phi Kaps last week. Ken Anderson also caught a touchdown pass in that game.

The Tuesday game between the Delt and Lambda Chi was rescheduled because of bad weather.

(Standings Thru Tuesday)

Team	W	L	Pct.
Phi Delt	4	0	1.000
Sigma Chi	3	0	1.000
SAE	3	0	1.000
Delt	1	2	.333
Kappa Sig	1	2	.333
Phi Kap	1	3	.250
Sig Ep	0	3	.000
Lambda Chi	0	3	.000

## Gibbs, Second Unit Keep Spots for Baylor Game

By DANA CAMPBELL

It's taken two years, six games and a bushel full of progress. But now it appears that Sonny Gibbs is on the Frogs' starting 11 for keeps.

Abe Martin, the Horned Frog leader, was so pleased with Gibbs' overall performance against Pittsburgh last week that he plans not only to lead with Sonny against Baylor tomorrow, but with the entire second-team backfield unit—halfbacks Harry Moreland and Roy Dent and fullback R. E. Dodson.

"Sonny did a real good job for

us against Pitt," says Martin. "He slowed down there at the last but I'm going to start him again. I think he deserves it."

Gibbs and Co. will be facing one of the nation's top-ranked teams in Amon Carter Stadium at 2 p.m.

The book has the Frogs listed as six point underdogs. Martin doesn't feel this is enough, although he indicates in no uncertain terms that this could be the Frogs' best game.

Buster Brannon, the cage coach who has scouted Baylor three times, isn't the least bit optimistic. Says Brannon: "All Baylor

can do is run and pass and play defense. This is the best team they've ever had. And that Bull (Ronnie) is a Jim Swink on offense and John Crow on defense. I frankly don't see how the Frogs can win."

**BUT WHILE BRANNON** says the Frogs' cause is a hapless one, the rumors trickling in from Baylor indicate the boys there are plenty worried.

"We're scared of TCU," Bear Coach John Bridgers has mumbled. "I don't care what anyone says, they still have the kind of team that can beat anyone on a given afternoon. Our boys aren't

taking this game lightly . . . they're plenty worried.

"Of course everyone is out to get us now and we're having to take each game as it comes up."

TCU will field the bigger line of the two tomorrow. Heading the forward wall are Buddy Iles and Milton Hamm at ends, Bobby Plummer and All-America nominee Robert Lilly at tackles, Richard Holden and Ray Pinion at guards and Captain Arvie Martin at center.

Lilly played one of the best games in his career against Pitt last week. Holden, in his first starting assignment, was highly impressive, prompting Martin to retain him in the lead-off platoon.

Pinion, who has received little publicity this year, also made some crisp tackles and appears to be heading down the stretch in fine style.

**WHILE OUTWEIGHED** in the line, Baylor defies any team in the nation to match its backfield.

The Bears have the Southwest Conference's leading passer in Ronnie Stanley and two of the finest runners in the country in Ronnie Bull and sophomore Ronnie Goodwin.

Stanley was the thorn in Texas A&M's side last week as he led the Bears to a 14-0 whitewash. He completed 12 tosses, including a 43-yarder to halfback Tommy Minter that broke the Aggies' backs.

Minter is one of the conference's fastest runners and also one of the finest pass catchers.

Bull is being hailed as a solid All-America candidate and an impressive showing against TCU this week could cinch him a position on the dream team. Bridgers may be planning just such a showing.

Sports publicist Jim Brock of the Frogs indicates the game may

draw between 35,000 and 40,000 fans.

"Baylor is undefeated in six games and is nationally ranked," Brock explains. "and for this reason I think people will really want to see this one. Ticket sales have slowed down, but if the weather improves we may get close to 40,000."

A quick summary: TCU vs. Baylor, 2 p.m. at Amon Carter Stadium. A running and passing exhibition expected from Baylor and a crisp, hard-hitting TCU line. Favorite? Baylor by 6. Series record: TCU has won 30, Baylor 29 and there have been seven ties.

### Two-Platoon Best Grid Writers Say

"Because very few sophomores are ready mentally to play varsity football, the two-platoon system is beneficial to more players than the current arrangement."

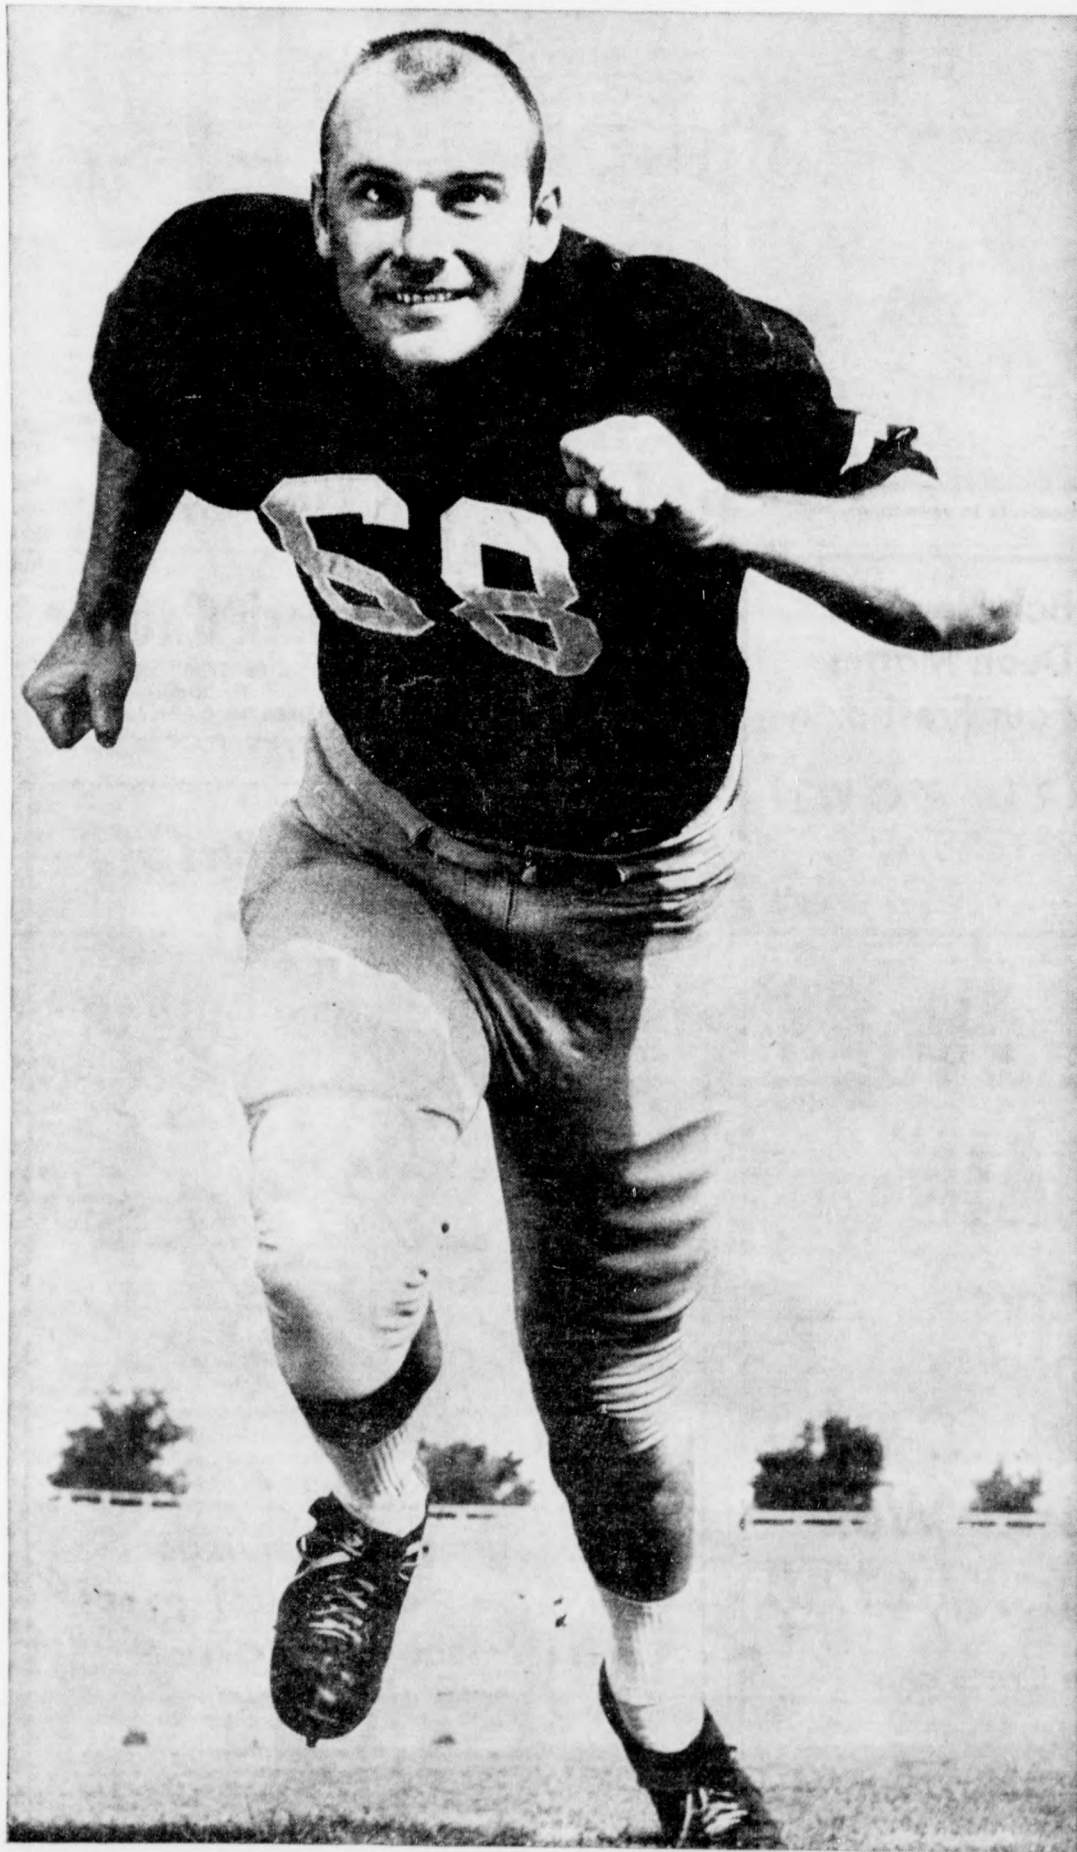

This is the opinion of a sports writer clinic which met in Cincinnati, Ohio.

"Trying to play two ways is too much for the average young college player," decided the group. "When they break down defensively they become worried and start missing other assignments."

—0—

### O'Brien Now Driller

Robert David (Davey) O'Brien graduated in 1939 with a B.A. in government. He was elected to the National Football Hall of Fame in 1955. Davey led the Frogs to 11 straight victories including the Sugar Bowl and No. 1 rank in the nation. He now heads the Davey O'Brien Drilling Company Inc.

RAY PINION . . . Will help anchor Frog line against Baylor.

## Classic Scribe Says 'Football, Fie on It'

Covering Saturdays Horned Frog game for the English press was the eminent journalist William Shakespeare.

As 1564-1616 are the dates associated with the famed writer, the chap in the press box must have been William XVII.

It must be admitted no one caught his name. But several of his written comments were noted.

Shakespeare covered every phase of the game. In the Pittsburgh dressing room he heard Coach John Michelosen tell his fullback Mike Frasca:

"Now, by my sword, well hast thou fought today. By the mass thou fought today. By the mass, so did we all. I thank you sir."

Speaking of Frog captain Arvie Martin, Coach Abe Martin was quoted having said:

"The worthy fellow is our general. He's the rock, the oak, not to be wind-shaken."

Halfback John Yaccino told the reporter what he thought about TCU tackle Robert Lilly: "What an arm he has! He turned me about with his fin-

ger and his thumb, as one would set up a top."

Another Pittsburgh player said of Bobby Plummer:

"He thinks, being twenty times of better fortune, he is twenty men to one."

Last week Shakespeare overheard Dutch Meyer, athletic director, make this statement:

"Arm'd as we are, let's stay within the house."

One Panther (who had better not stick his head in Froggy territory anytime in the near future) commented on the Horned Frogs:

"It can not be this weak and writhled shrimp should strike such temer to his enemies."

Overheard was one fan who lamented:

"Was there ever any man beaten out of season when in the why and the wherefore is neither rhyme nor reason"

After a Pitt player had asked a Frog lineman if there had been clipping on the previous play, the TCU player retorted:

"Of one or both of us, the time is come. I will not answer thee with words, but blows."
