nearing the finish line in the first place. The dream of the Frogs is to win the only victory that matters - the state championship. But despite the Frogs' current three-game winning streak, there is no guarantee that they will automatically win the title. The team's road to victory is filled with obstacles, and each game will require a great deal of effort and strategy to achieve success. The Frogs' determination, hard work, and perseverance will be crucial in their quest to bring home the state championship trophy.

The Earth belongs in orbit around the sun. That's the bottom line. In the same way, the Nude Man belongs in Reed Hall.

In a Carl Jung, wacky, archetypal scenario, the Nude Man would also belong in Reed Hall. Although the most recent sightings are by a couple individual with grey bobs, other reports have characterized the Nude Man as female. Younger of course symbolizes the college environment as a whole; the old and the young are side by side, and one cannot be judged on the other's age.

In the final analysis, whether you buy the female approach to Nude Man analysis or not, that's where this line of reasoning stops. I still maintain that whatever background the female nude or male nude, the old data and nude analysis, would have to say: If you come up with something along that line, then you just have to admit it.

My musings on Nude Man by myth are also probably the only plausible Police when you really need the help. I do have a long experience with the police. We've got a gay on our halfl in a window. That's a virile jumpsuit of a form of artistic expression, but why should we be a Nude Man? Whether he's young or who, all reports have nagged him, he's not white.

The Condom Committee would have learned that: The average pore size in a condom (5 microns) is 50 times larger than the AIDS virus (1 micron) and can be easily penetrated by the virus.

A study of married couples who used condoms today and a collection of 99 percent of the unfertilized patients become HIV positive.

The main color in the past is that the infection always results in AIDS, and the infection always results in death.

AIDS and/condoms were used 100 percent of the time, 17 times the spread of AIDS.

AIDS and STD's and AIDS than the over 30 group because of a less significant in the population.

Death row inmateummings Kevorkian to make organs available for transplant

By MICHAEL GRACZYK
Associated Press

HUNTSVILLE, Texas — A Texas death row inmate hoping to help others on death row in the state is willing to donate his organs if the state will allow him to do so.

Gene Nobles, 53, said Wednesday he is correspond¬ing with Dr. Jack Kevorkian, an anti-euthanasia activist who has sometimes helped patients make organ donations, because "special situations" make it possible for him to donate.

He said he was born in Huntsville and has no relatives left.

"I think the time is now," he said.

Nobles said he is not sure how many times he has written to Kevorkian, but that he is willing to do it. "I have told him that if it can be done, I’ll be willing to help," he said.

"I don’t know of any state that does not specifically bar donations, but there are certain states where there are no organs being donated," said Nobles.

"I don’t know of any state that doesn’t allow donations, but there are other states where there are no donations." Nobles said he has no idea how many times he has written to Kevorkian, but that he is willing to do it. "I have told him that if it can be done, I’ll be willing to help."
Tri-captoivives provide leadership for Frogs

By JOE CONRAN
TCU Daily Staff

The three have been together through the entire history of TCU soccer, each have their own unique identity. The three have contributed equally to the success of TCU soccer in the last five years. One of the keys to their success is their ability to complement each other on the field.

The three Frogs are seniors, and their names are TCU's leading goal scorers.

He's the headliner of the team. His role is critical for the success of the team. He leads by example.

He's the quiet one. He's the one who keeps the team together. He's the one who keeps the team focused.

He's the loud one. When he's on the pitch, you can hear him from miles away.

He's the goal-scoring machine. He's the one who puts the ball in the net.

He's the strategist. He's the one who plans the game.

He's the vocal leader. He's the one who motivates the team.

He's the quiet one. He's the one who works hard and doesn't boast about his accomplishments.

He's the goal-scorer. He's the one who scores the goals.

He's the quiet one. He's the one who works hard and doesn't boast about his accomplishments.

He's the vocal leader. He's the one who motivates the team.

Yes, the whole store's gone mad!
We've reduced prices on new, yes new, fall clothing!
And if that's not enough...
there'll be cheap refreshments
(they're free!!) and loud,
terrible music (you'll love it!!)
All this...
plus a few bizarre and insane surprises
too crazy to mention!!

Thursday, October 21st
*7pm until midnight
University Park Village

*Store will be closed from 5-7pm to restock
merchandise throughout the store!
