Two students face sexual assault charges

BY CHRIS NEWTON
TCU Daily SKiff

Two students were arrested Wednesday by Fort Worth police in connection with the two cases of rape investigated by TCU student, said Payne and Kiehle. The two cases occurred on Oct. 4 and Oct. 16.

The suspects are currently being held on the TCU campus, Dean Mills, vice chancellor for opera- tion, said Payne and Katie.

"The question has been raised, 'Is this how people will lis- ten?' It is a question we should go into the residences and ask our programs related to sex assault," Mills said.

"We were able to go for the first incident," Mills said after the second inci- dent, the university was not able to take a report.

"When the sheet to go to the Fort Worth police, which, frankly, I think was a good idea, we were able to work with police toward resolving the issue," he said.

Lt. P. Kielke, the public information officer of Fort Worth Police Department, said the case is currently under investigation and refused to comment further.

Aircraft lack proper storage

WASHINGTON (AP) — Ignoring a veto threat, the House passed a Republican plan that, if enacted, could face sanctions as serious as refusal of U.S. aid, the Senate said.

"The question has been raised, 'Is this how people will lis- ten?' It is a question we should go into the residences and ask our programs related to sex assault," Mills said.

"We were able to go for the first incident," Mills said after the second inci- dent, the university was not able to take a report.

"When the sheet to go to the Fort Worth police, which, frankly, I think was a good idea, we were able to work with police toward resolving the issue," he said.

"The second incident was not reported to the Fort Worth police at the com- plement's request," Mills said.

"Victim reaction can vary widely and can be delayed or limited," so it is in the best interest of the police department to get the report filed as soon as possible," Mills said.

MSLS, Vice Chancellor

Mills said to encourage the alleged victim's calling of the Fort Worth police.

"We were a right decision on her part," Mills said. "We had encour- aged her to go to the Fort Worth police before, and she chose not to do so. I don't want it to sound like I'm second-guessing a crucial situation.

According to the police report, the second incident allegedly

accused when the complainant went to block Hall to visit a friend. As she reached the door of the suite, one of the suspects came from behind and shoved her into a dorm room, the report said. The woman told police that she believed it was the same room in which she had been raped before, according to the report. The complainant said she did not scream because she was "petrified and scared," according to the report that one of the suspects said her com- plains that she had better have her report the offense to the police or any type of administra-

The complainant also told police that while one of the suspects was sexually assaulting her, she was asleep in his bed, the report said.

"The complaint was second nature to the alleged victim," Mills said, according to the police report detailing the second assault.

Rape cases often not reported, officials say

BY HEATHER MCGUIRE
TCU Daily SKiff

Since 1991, only three inci- dents of rape have been reported to the TCU Police Department, said Mills, assistant director of campus life.

"Rape is a serious crime and should be reported to the police immediately," Mills said.

A federal jury in Los Angeles awarded Clint Eastwood $150,000 in damages for allegedly threatening to have his phone line and voice mail taken away if he refused to pay the actor $150,000 in damages for a sexual assault by Clint Eastwood.

"The actor claimed a so-called 1993 exclusive interview headlined "Dirty Harry Lifts Slide," the (Enquirer) will just continue doing it," the actor said.

The Skiff had to wait facts before getting raping story

Yesterday, when students woke up and read the Fort Worth Star-Telegram, they were shocked to find out about an incident of on-campus rape. In an editorial published online last week, the editorial board of the Star-Telegram expressed their concerns as to why the rape was not reported sooner.

Unfortunately, for those involved in this rape, the Star-Telegram’s story was wrong. It was wrong because they rushed the story to press without having all the facts. They were wrong because they neglected to update their information with the most recent report.

A double major from Oklahoma City.

The following is an unedited version of the Skiff's article as it was published. Any corrections or clarifications will be noted after the article.

Students need to throw away their garbage

Everybody after now, I wish I could find the remnants of your fellow student's lunches scattered on the tables or on the floor. I see the apathy exhibited everyday during the lunch process picked up the trash. A second battery of tests came back negative, but she was never committed.

How hard is it to put up a lunch tray or find a trash can? Yes, I am all over campus! It would take a minimum of five minutes for people to get up and throw their garbage away.

I am sure there is some reason why people leaving their garbage behind without a second thought or the apathy exhibited by other students who see it but do not act.

Not only was the tear the only thing that they started. A few of the most prevalent problems included being charged for voice mail, cable or even the phone service when the student had already had it disconnected.

A few students also had other people's long distance phone calls charged to their bills. These examples only begin to describe the mistakes that were made.

CampusLink needs to get its act together. Not only were their bills excessively late, but most of them were wrong in some shape or form.

There is no excuse for having this many incorrect bills when they were excessively late to begin with. Charging students for services they do not subscribe to or for phone calls they did not make is just plain irresponsible.

If the company expects students to pay for their bills in a timely fashion, the least they can do is get the bills to the students in a timely fashion. If they are going to be late, you can tell them to be right.

CampusLink just lost their services on campus this year. They certainly didn't make a good first impression with the billing fiasco that occurred yesterday.

CampusLink was hired by the administration, so the administration should take some of the responsibility for the events that happened yesterday. If CampusLink and the administration do not rectify the situation soon, then they might lose some customers along the way.

Homophobia overgeneralizes beliefs about homosexuals

Mitchell explains that homosexuals are often stereotyped as being gay, even though the majority of people are straight. He also argues that homophobia is a real problem, and that it affects not only gay people, but also heterosexuals.

Mitchell’s book is an excellent resource for understanding the impact of homophobia on society. It is written in an accessible and engaging style, making it suitable for both lay readers and professionals in the field of psychology.

The book covers a wide range of topics, including the history of homophobia, the effects of homophobia on individuals and society, and the challenges faced by people who are gay or lesbian.

Mitchell's arguments are well-supported by empirical data, and he provides many examples of how homophobia manifests in different cultural contexts. He also discusses the ways in which homophobia can be challenged and overcome, and he provides practical strategies for individuals and institutions to promote a more inclusive and accepting society.

Overall, "Panic" is a valuable resource for anyone interested in understanding the impact of homophobia on society. It is a must-read for anyone who wants to learn more about the complex and often controversial issue of homosexuality.
How far would you go to make it in Hollywood?

By TODD JORGENSON

"Get Shorty" is an all-star cast that highlights the fact that the film is directed by John Travolta, who shows how far he has come since his days as a low-grade producer in Miami who wants out of the business. But Palmer (Delroy Lindo) is a man who gets what he wants, with his sights set on creating the great actor, Martin (Gene Hackman), to star in a new movie. They set in motion a comic whirl that has everyone laughing and enjoying the ride. The film is a perfect example of how a young boy whose spirit they are convinced is lost finds his way back to the family he loves.

Now and Then (F.G. 13)

"Now and Then" is a film that features视点on middle-aged women who want to remain young and vibrant as they open today. Actually, the reason they have come together is to celebrate the birth of Chrissy (Rita Wilson), whose older sister Karen is in need of a kidney transplant. Karen (Rene Russo), a B-movie actress team up to make it big in the movie business, and "Get Shorty.

Chili Palmer (John Travolta), a Miami loan shark sent to Los Angeles to collect a debt and Karen Flores (Rene Russo), a B-movie actress team up to make it big in the movie business, in "Get Shorty."

Harvey Keitel and Penelope Marshall

Some might be confused or annoyed by the many Hollywood stereotypes, but "Get Shorty" does a great job of adapting Emile Leonard's novel for a more mainstream audience. Harvey Keitel and Penelope Marshall

President should tout the ruling radio hogs

By LARRY AMOS ROLLINS

The 41st, 44th and 49th Presidents of the United States America and on a platform of patriotism. How their selfish CD release on the Conversion Center in Dallas, the city that churned out both Ray Vaughan and Nita Nana and Soundgarden. But the film's release also serves as an alternative to the flawed-good-group rock sensation associated with Washington State. Their style, as they play it a genre that is "most often the song you sing in a future concert is not the same as the one you sing in a past concert.

The music has been covering the scenes since 1985. But there's a new song on the airwaves today. This is not the way to go for the music of the album's best, sometimes, that is sometimes, sometimes, sometimes, sometimes, sometimes, sometimes, sometimes, sometimes, sometimes.

The lyrics are not, "You're nothing but a body and a face." The lyrics are not, "You're nothing but a body and a face." The lyrics are not, "You're nothing but a body and a face." The lyrics are not, "You're nothing but a body and a face." The lyrics are not, "You're nothing but a body and a face." The lyrics are not, "You're nothing but a body and a face." Frogs look for fourth straight win
Green Wave rolls in for non-conference battle

By BRYON ESCH
TCU Daily Staff

After posting victories over Houston and Rice to begin Southwest Conference play, the Frogs continue in winning ways in a non-conference battle with Tulane Saturday at Amon Carter Stadium.

TCU (4-1-2) is a hard-fought 33-28 win in Houston over the Owls in a game that saw the Frogs trail 21-10 early in the third quarter before they scored 23 straight points to put the game away.

"I view our comeback against Rice to be a scenario that benefited us as a football team," head coach Pat Sullivan said. "After we fell behind we had to much come down and overcome some things. It was very prideful of the way our team responded to the challenge."

The Frogs will try to extend their overall winning streak to four games with a win over Tulane. They will also be looking to extend their winning streak against the Green Wave (2-4) to four games. TCU beat Tulane last year in New Orleans, 30-28.

In last year's game, the Frogs had a season high five takeaways, recovering four fumbles and picking up an interception. Placekicker Michael Geary (attempts), and Godfrey White (abdominal strain) and backup DB Manvel McGee (ankle) and Godfrey White (abdominal strain) are now probable for Saturday after suffering a concussion at Rice last week. But combacheck McCullin (abdominal strain) and Godfrey White (abdominal strain) remains questionable.

Although the Frogs have had troubles with Tulane, Sullivan only has to look at last year's game to see how much turncoats could influence the outcome.

"As far as Tulane's defense is concerned, Tulane is opportunistic as far as creating turnovers because all of their defensive numbers defensively as the Green Wave, averaging only 125 yards per outing. Heading into Saturday's game, the Frogs are the top 15 nationally in run defense. Opponents are suffering a concussion at Rice last week. But combacheck McCullin (abdominal strain) and Godfrey White (abdominal strain) remains questionable.

TCU/Tulane matchups doesn't turn over many heads around the country, but a win by the Frogs would give them four straight wins and put them on a serious roll down the road. He said. "The only thing we have better on our minds is Tulane."

"Our offensive line is playing well, and we're just coming together right now," Sullivan said. "As far as Tulane we're having some issues defensively because they have a lot of speed and quickness. Our offensive line is playing well and we're just coming together right now."

Be the life of the party. Be the designated driver.

Although the Frogs don't face a Southwest Conference opponent this week, he'd like to know a lot more about their chances in the SWC Sunday morning than we do right now. The TCU/Tulane matchup doesn't turn over many heads around the country, but a win by the Frogs would give them four straight wins and put them on a serious roll down the road.

This weekend's opponent, Tulane, is a team that has given the Frogs problems in the past. The TCU/Tulane matchups don't turn over many heads around the country, but a win by the Frogs would give them four straight wins and put them on a serious roll.

Since the struggles of the Aggies, the strength of the Longhorns and the inconsistency of the Red Raiders, it's been a tough road to the top.

So what does this have to do with TCU/Tulane? The Frogs need to beat the Green Wave, but the game is bigger than just W's and L's. The past two years, the Frogs have had troubles with Tulane. A team they could actually beat on any given day.

There are a number of things the Frogs can use to their advantage and put them in the top 15 nationally in run defense. Opponents are suffering a concussion at Rice last week. But combacheck McCullin (abdominal strain) and Godfrey White (abdominal strain) remains questionable.

Frogs can't take the Green Wave

The Frogs have had troubles with Tulane, Sullivan said the coming together of the whole unit. "The only thing we have better on our minds is Tulane."

**WAC approves '97 baseball schedule**

By Thomas Womack  
TCU Desk Berr

The new Western Athletic Conference has finalized its 1997 baseball schedule with a unanimous vote by the Council of Presidents.

The format of WAC baseball will be a three-division alignment with four teams in each division. TCU will be in a division with New Mexico and Nevada-Las Vegas. A second division will consist of Air Force, Brigham Young, Utah and Wyoming, and the third will have Fresno State, Hawaii, San Diego State and San Jose State.

TCU athletic director Frank Windegger said the three-division alignment will work best for everyone, including TCU, in the long run.

“We're glad to have finished with...” Windegger said. “There was some compensation on all sides, but we think everyone will benefit from this setup.”

The three division setup calls for a 30-game WAC schedule for each team. Teams will play home-and-home three-game series against the members of their division and three-game series against two teams from each of the other divisions.

The division of WAC teams into three divisions is to address some of the logistical problems with the NCAA, according to Windegger.

“Just current NCAA rules, if you have a conference with 12 teams or more, you need three division alignments in order to receive an automatic bid (to the NCAA regionals),” said Windegger. “Of course the way we did it was the four-division... but I was assured by the NCAA that the rules aren't going to be changed and that we were going to be OK.”

Windegger said the 12-team alignment will continue the WAC tradition of having three non-division champion play-off teams, but it will be a decided improvement over the past seasons.

“This was the third year we had to totally...” Windegger said. “This is absolutely the best way it could have worked out.”

Men’s tennis: ITA All-American Championships, Austin, all day.

**Swimmers, divers face arch rival Texas A&M**

By Scott Russell  
TCU Daily Skiff

The Horned Frog men’s and women’s swimming and diving squads will open up the 1997-98 dual-meet season at home in the Rickel Swimming Pool against longtime Southwest Conference rival Texas A&M tonight.

The meet against the Aggies has annually been the most press moment of the season for TCU. “ACU is always our biggest rival,” head coach Richard Sybesma said. “It’s good to beat them at the SWC Relays last week, but we know that they’re a better dual-meet team.”

Sybesma said the rivalry with Texas A&M began around 1940 when the Horned Frogs traveled to College Station for a dual meet.

“Texas A&M is one of the few teams that have a little bit of history because we’ve still been talking about a dual meet for two years,” he said.

Windegger said that with the finalization of the conference schedule, TCU can finally set about scheduling its non-conference dual-meet season for 1997-98. “A program that has been slowed up by the indecision of WAC formats,” Windegger said.
