EXPOSED—The action photo at the right clearly shows Student President Jack Langton at the moment he was exposed recently in a diabolical plot. In a statement to the press, Langton said of his barefaced plot, "After exposure I've decided that it's not such a spanking good one."

STORY ON PAGE 2

THE MORNING AFTER—Dr. Rebecca Smith was unable to hold classes recently because of the condition she is pictured in at the left.

HAY-ROO! THEY'VE MADE UP!—Patrons of the University Cafeteria breathed a sigh of relief recently when "Pete" Wright and Clarabelle Cow shook hands and made up, thereby taking the cafeteria off the oleo standard and placing it back on the golden butter standard.

Young Rex McFall, above, was snapped by a Peril staff photographer during the moment of triumph in which he proudly eyes a dollar alarm clock he has just fished out of the newest nickel-grabbing machine in the corner drug store. In a statement to newspaper men, McFall said, "I was determined to win the clock, and I won it, even though I did have to hock my clothes to do it."

HERE'S HOW!—"To the Goode ole days!" says Otto Nielsen to Dean Sadie Beckham as they hoist one at the 8th Avenue Bar. "Jee-ar-vish I had another," she answers.

TYPICAL COX GREETING—Above is pictured the cordial greeting extended to every person who attends a dance in the Big Gym by Gene Cox, genial doorman. "Genial Gene" was snapped by the camera just as he growled invitingly to a couple at the door: "Well, here're your guest tickets?"

We Have a Policy

The Peril, emulating all other reputable rags, has a definite editorial policy, and in answer to many challenges would like to state same here.

The Peril is ready at all times to bleed for worthy students irrespective of color, race or religion. It has fought long and ardently for free beer in the cafeteria and free cigars in the bookstore.

We advocate the construction of at least 100 more bandstands on the campus, for everyone recognizes that one is insufficient to accommodate all the campus lovers. This could be accomplished easily at the present time, what with the Federal Housing Act in effect and all that.

Too, The Peril would alter the grading system at ole T. C. U. We advocate the abolition of the classic A's, B's, C's, D's and F's. Under the Peril system there would be but one grade—A. Too many students are going through school thinking that D is the only grade given at T. C. U.

"Life is real. Life is earnest." Shakespeare or Walt Whitman said that, but since it has absolutely nothing to do with the statement of the policy of this paper we'll just forget about it for the time being.

And then there's patriotism, communism, bolshevism, anarchism, militarism and socialism. We know we should take a stand on a few of those things, but it scares us to think about them, so let's talk about something a wee bit more pleasant.

The Peril is wholly out of accord with the present system of student body government. It's too democratic. Langdon is right. What we need at T. C. U. is dictatorship—it's much more stylish.

Student Relief

What we need is a good 24-hour a day night club across the street from the Hall of 'ell... a bar... a bartender... a pot to put it in... a duck and a duck dinner... chickens with something but necks, wings, etc... 10-minute classes... no profs... jazz band for chapel programs... \$5 dollars a week spending money... lovin' booths instead of discipline housing... a weekly burlesque buzzer... a bit of booze... a free for all... What don't we need? ... what we got! ... Ha almost forgot... we need some parking space for grandstand lovers... bottled pep... you've heard the one about the traveling salesman... haven't you?... tell us sometime... the above petition was proposed by Councilman Jack Hammond and ratified by the Student council poker players, who oughtta be at work on the new "Student Relief Bill."

Down With Pep

Down with the pep on T. C. U. Campus... everyone walks around with a smile... the pep meetings are always lousy with gloom... the students go to them to see who the yellowers will be and there aren't any... Sadies Beckham, Prexy Wait, awhile and Dean Haul me off are the only ones that ever show any vinegar... and their vinegar is not genuine pep, but hair raising about the loving being carried on under the shade and shadows of the trees, etc... what mugs need is a good slap in the puss and a drink of spirits of amonia... you know what we mean... By the way you can get it from Uncle Gus... If you don't like this do something about it... You can see me in the Business Office any time.—L. A. D.

THE POET SCORNER

Down Where the Bluebonnets Grow

The stars shine bright
And the moon's just right,
But ol' Skipper has a prying flashlight.
Down where the bluebonnets grow.

And there have been seen
By that flashlight's beam
Some sports that are rough and some that are clean,
Down where the bluebonnets grow.

For instance, B. M. Williams, they say,
Is a regular customer in his Chevrolet,
And Rab Grady's absent only during the day,
Down where the bluebonnets grow.

The fast-driving son of a local exporter
Has oft been seen with a doctor's daughter,
Wilbyrd Irvin wasn't doing just what he oughter,
Down where the bluebonnets grow.

And our good ol', hard-working friend, Joe B.,
Has been seen chatting with Genevieve P.,
Are you and you as surprised as were we,
Down where the bluebonnets grow?

But for a different purpose some go there;
They feel a need for good, fresh air;
So went Rosie and Georgie and Tol the fair,
Down where the bluebonnets grow.

But the sight that the proverbial clock would stop,
A sight that furnished a laugh for a cop,
Was Ginsburg drinking a soda pop,
Down where the bluebonnets grow!

Probe Langdon in Insidious Plot

THE COX NOMINATED

nominate a smack in the for Gene Cox . . . the most undiplomatic, unctuous, brazen, and most discourteous man that ever played a T. C. U. Dance . . . If party will call at the darkener of the Stadium tonight 12 bells he will be compensated for his effort even the tip-off . . .

Is Among Famous Johns

speaking of the great Johns here the list would probably follow: John the Baptist, John Lord, John Barleycorn . . . Dr. John of our own dear campus life, an outstanding man and the fact is that the only Republican south Mason and Dixon or Dead-Dr. Lord is feared by all male sex, encouraged by the firmer males and the weaker ones. . . got a snap like the crack whip, a steel eye and a firm jaw. When he says NO he just that and no more. . . would take a good size volume list the cracks and humor government classes.

DR. J. SARSH WILL ABDICATE

Dr. J. Sarsh re-announced that he would resign as director of the Texas Christian University's men yodler's society in favor of J. Dusty Roads, his assistant director of the position for this year. . . Roads has not definitely accepted the position, as he wants to wait until all his applications have been considered. He announced that if he accepted the position he would buy a . . . Professor Sarsh was forced to resign as he recently was offered a position at the Eighth Avenue . . . According to reports he resigned this offer because of his association with Walker's Cedar pollubbock. . . Also been announced that Roads will wear purple shorts and white shirts. The change was from tuxedos in order that they be safe for the society to tour West Texas in the near future.

'Tea Toadlers Tavern' Will Open With Loud, Lusty Ping

"The Tea Toadlers Tavern," built from the funds donated to the T. C. U. student body by the administration and the board of trustees, will have its formal opening tonight at its luxuriously furnished new home here. "The Tavern" is located at the northwest portion of the campus opposite the stadium. Dean Sadie T. Beckham was completely overjoyed when this site was selected, for she feels sure that the soft clang of pop bottles and the rhythmic music from the 11-piece orchestra to be used each evening from 6:30 p. m. until the "wee wee" hours will add to the studious atmosphere which the girls in Jarvis now exemplify. . . Only those who have received the purple engraved invitation with the crested seal will be admitted tonight, said Joseph Findley, "Top Tea Toadler" and the Head Man. No expense has been spared in building this "steward center" and those who can present convincing credentials in the foyer of the Tavern may gain entrance at the nod of the Dr. Josiah Combs. These with the invitations may pass on through with examination, since the official invitation list was compiled from a customers lists owned by "Dr. Oscar Pepper" and that historic seaman, John "Paul Jones." . . The outstanding feature of the Tavern is the revolving floor in the center of the ballroom. The floor is raised three feet above the ground floor and must be reached by ascending pastel colored steps of marble from eight entrances. At each of the eight . . . (Continued on Page 4)

Lightfoot Proves He's Misinformed

Kid Lightfoot, pole vaulter par excellence and roommate of Slave Hickey, T. C. U.'s number one route, was recently voted the most misinformed man on the campus. . . In a debate held in one of Prof. Lew Fallis' public speaking classes recently Lightfoot dished out a string of misinformation that has never before been equaled in these parts. The pole vaulter would not divulge to curious Peril news hawks his source of information—er—misinformation. . . The blond sportsman, who hates publicity with a vengeance, spends his off hours trying to keep his name out of print.

Prexy Would Set Himself Up as T. C. U. Dictator

An insidious plot, whereby Jack Langdon, president of the Student body at T. C. U., would have set himself up as dictator of the student body, was uncovered by a group of enterprising sleuths this week.

Langdon, who is being held for questioning in Room 202, Goode Hall, would make no statement when approached by Peril reporters today.

Chief Sleuth Joe Staart, who is a dancing teacher in his spare time, made the arrest.

"I first grew suspicious of Langdon," Stewart said, last week when I found him reading some Not See literature. I watched him closely after that and yesterday, while peering through his keyhole, I saw him with his arm extended, palm outward, practicing the Not See salute. Well, you know the rest. I just seen my duty and I done it."

"Pipe Stem, who would have been out of a job if Langdon's plans had materialized, since there are no assistant dictators, was overjoyed when approached for an exclusive statement.

"Serves him right," the vice-president ventured, "He always did have the fault of angels."

Rex May Get New Vehicle

Rumor has it that Rex Clark is negotiating with the owner of the beast of burden pictured here for a trade of his four-wheeled vehicle for this four-legged one. The only thing that is holding up the trade, according to Clark, is that the owners of the donkey is asking a little too much "to boot."

SAYSSITUATION IS NOW ACUTE

"The situation has become acute," Dean Sadie T. Beckham emphatically declared to the darlings of the campus at a most important call session in the parlor of Jarvis Hall. "Things have come to a dreadful state. I held you girls responsible and it is up to you to do something about this terrible situation. . . In the fifty-nine years that I have been watching over the girls nothing quite so dreadful as this has ever happened before. Girls, this whole matter grieves me deeply, as the reputation of my charges is simply being ruined. As a deep hush fell on the intent group Mrs. Beckham said, "The boys absolutely must stop coming to see my girls without their ties."

QUERY SCRIBES IN DEBAUCH

It happened on Friday night April 19 in New Orleans . . . after a feast of ham and eggs, fish, gumbo, chicken, etc., the party moved on to the parting of ways . . . Prof. Ridings, Prof. Whitman, Mrs. Ridings, Dot Luyster and Katherine Edwards decided to go see what the Vieux Carre was like but the male collegiate element in the party didn't like the idea so they went around the corner and got the desired spirits for only 45 cents per quart and headed for The Palm . . . you guess what it was, a big time was had by all at the Palm and when the set hour came around all headed back to the St. Charles Hotel . . . the conservative group had checked out when the radicals returned and Dr. Whitman was in waiting for them . . . to the car they went to find a flat tire . . . Dr. Whitman in spite of continual kicks and encouragement on the part of the whoopee group was finally able to fix the flat and the trip back to Baton Rouge and the Journalism Congress was started . . . due to the over exertion the radicals entangled in the back seat and dozed off . . . nothing happened of any import until the party arrived in Baton Rouge and proceeded to wake the occupants of adjoining beds up for a three o'clock summary of events. . . If you don't believe a good time was had by all just question Speedy Maxwell, Freddie Sargent, Headache Bacus or All night Ridings. . . Judith Witherspoon has a heart and knows how to u . . .

CHERRY THINKS MAYBE ENVIRONMENT IS CAUSE

Mrs. Hazel Tucker, psychology teacher in the old Texas Christian High School on the Hill, having tired of speaking of the summer that she spent in New York at one of the leading universities in the country, has returned once more to her favorite topics—her summer in Europe and that clever little dog Patsy O'Neil. . . The nights in Vienna are more than glorious, she is telling her classes—and what that has to do with the actions and reactions of human beings! . . . As for the little dog, Mrs. Tucker has just about decided that maybe Peggy doesn't make such a good example of psychological principles—especially after the remark made by George Cherry—hemes some time ago. . . Mrs. Tucker told her class that several famous psychologists had said that cleanliness was an instinct with man and beast, but that she didn't believe it because nothing seemed to delight Peggy more than to get her feet as dirty as possible and then climb into the middle of the best chair or bed in the house. . . George then asked in all seriousness, "Mrs. Tucker, do you suppose that could be the result of her environment?" . . . Class dismissed.

President Elect Favors The Palm

"I liked the Old Absinthe House and The Palm better than anything else in New Orleans," said Melvin Diggs, T. C. U.'s representative to the National Student Federation convention, held in Huey City last week. . . The above statement was taken from Diggs' official report, which was submitted to the Student Council. The student-body elect wanted to give the report in person, but for some unaccountable reason, had a splitting headache. . . "I read in the paper after I returned that the delegates met and discussed several topics, but I'm glad I didn't go to any of the sessions, because they were probably dull," the playboy's report read.

CONDITION FRIGHTFUL

Dr. Rebecca Smith reported to English 24b class last Saturday in a frightful condition . . . Smith refused to say what night club she had left to attend her class but we have an idea that it was the Ring Side . . . the hang-over was so terrific that she was unable to conduct the class and called Miss Madejar to tell the students who what was in the early 19th siglo . . . The Peril congratulates Miss Smith and proposes that some of the other profs follow suit. . . Nina Whittington may have the two little words ready with George Williams immediately after school adjourns . . . Mary Virginia Weiser is indeed a politician . . .

Miss Braggins Gives Exclusive Interview

Miss Siffie Braggins, assistant watchdog of feminine morals at Texas Christian College and authority on the manner in which the universities and colleges of the east are doing "it," granted an exclusive interview to Peril reporters this morning.

Talking in her own inimitable fashion and using her usual classroom technique, Miss Braggins let herself go completely and in the exclusive statement, replied, "Ah... ugh... er ah... ughugh... erah... ah... ah... ah... ah... umm... ah... er... ah... ugh."

The Peril reporter woke up just in time to hear the assistant dean conclude with this lucid statement; "Ugh... er... ah."
