PA/R

FELLOW MEMBERS.

The National Aeronautic Association views with great interest the establishment of the contract Air Mail routes authorized by the Post Office Department and now being rapidly inaugurated throughout the Nation. It feels that on the successful and profitable operation of these routes depends, to a very serious extent, the future of commercial aviation in the United States and the development of a necessary aviation reserve for use in national emergencies.

For this reason, we urge each and every member to use Air Mail whenever possible and I enclose you herewith stickers for use on Air Mail matter. If additional ones are required, they will gladly be supplied upon application to National Headquarters.

Use the Air to Speed your Mail! You will also be speeding Commercial Aviation and helping to achieve the aim of your Association to - "MAKE AMERICA FIRST IN THE AIR."

Faithfully yours,

Porter Adams,
Chairman, Executive Committee.
