Mr Amon G Carter, President
Fort Worth Star-Telegram
Fort Worth, Texas

Dear Mr Carter,

With the beginning of preliminary construction of the bomber plant tomorrow our dreams are gradually becoming a reality. Another year should see a vast difference in our town, and somehow I feel that at least part of the plant will be permanent, at any rate I hope so. In any event there will be a certain percent of the new population that will like it here and will remain, just as a large number did after the last war. Almost without exception they have made excellent citizens.

I thank you again for the friendly co-operation and assistance you gave me in connection with the filing of my application with Consolidated Aircraft Corporation. And also I appreciate your approaching Mr Van Dusen in person as you mentioned in your letter.

Regards and best of health,

Sincerely yours,

Harry Standry
