

April 14, 1941.

Mr. Albert Low, Chief Engineer,
Austin Construction Company,
Neil P. Anderson Company,
Fort Worth, Texas.

Dear Mr. Low:

Enclosed, herewith, you will find a letter from Mr. Harold Hough, Treasurer, Circulation Manager as well as General Manager of the Star-Telegram's radio stations, in which he recommends Mr. C. E. Stanfield, 1126 Sixth Avenue, Telephone 2-4822, as a man of unusual experience in the matter of supervisor of officers in charge during construction work.

I have personally known Mr. Stanfield many years and am happy to endorse everything Mr. Hough has said about him in his letter. If you have not already made a selection for someone for this particular job, I take great pleasure in recommending Mr. Stanfield.

With the hope that you will give him a trial - or better still, have him call on you in person and make his own presentation - and thanking you for your favorable consideration, I am

Yours very truly,

AGC.KD
