Dear Amon:

I was pleased to receive the tear sheets from the Forst Worth Star Telegram, telling of the Non-stop Global Flight of the B-50, which began and ended in your beautiful city. This is not only a memorial flight from the standpoint of distance and time, but also as to the significance it has added to your city's slogan "Where the West Begins".

I also appreciated receiving the Dinner brochure, commemorating the completion of this outstanding event.

Even though I am now on the retired list, Mrs. Donnell and I have been doing quite a bit of traveling. We are presently scheduled to leave Findlay next Tuesday on a month's eastern trip.

With kindest personal regards, I am

Sincerely yours,

Otto D. Donnell
