Seoul Falls; S. Koreans Strive to Form New Government

Unanimous Senate Vote OKs Draft

Truman Given Power Also to Call Up Guard or Reserves

WASHINGTON, June 28 (AP).—A unanimous Senate vote Wednesday gave final congressional approval to a one-year extension of the draft act. The vote was 76 to 0.

The measure puts in President Truman's hands the power to call up thousands of draftees, National Guardsmen or reserves, if necessary to keep the strength of the Army, Navy and Air Force above the 2,000,000 mark.

A 315 to 4 margin for the bill was rolled up late Tuesday in the

NEWSPAPERMEN

2 Americans Hurt in Korea Bridge Blast

TOKYO, June 28 (AP). — Two American newspapermen were injured slightly Wednesday when an explosion wrecked the Han River bridge south of Seoul, as they were crossing.

The U. S. Army public information office here said the two, Burton Crane of the New York Times and Frank Gibney of Time Magazine, Inc., were flown back to Japan for treatment of their injuries.

A third correspondent in the Jeep, Keyes Beech of the Chicago Daily News, escaped unhurt.

The three were fleeing from Seoul ahead of advancing Communist forces from the north. The bridge was blown by southern forces to slow the Red advance.

U. S. Airmen Communist

BY RUSSELL

TOKYO, Thursday, June 28. — Scattered and chewed by big Northern invaders, struggled to a score of miles south of their

Seoul and its airfield at Kimpo since the start of the Red invasion.

Loss of Seoul and Kimpo, Seoul's port 20 miles west, was confirmed by the United States.

Washington. The Communists, betraying invasion preparations, quickly Seoul, introduced Lee Sun Yung Northern regime, as the new

In the broadcast, heard in Tokyo, Lee even ordered Seoul schools to reopen Wednesday.

Carrying out President Truman's orders for American air and naval support for the hard-pressed South Korean troops, the U. S. Far East Air Force announced

Suisun, Cal., at dawn last Thursday and six of them flew a 38-hour, 10,000-mile simulated combat mission over mid-Pacific coral atolls, landing Friday evening at Honolulu's international airport. Two others had flown directly to Hawaii, one landing there because of engine trouble.

Third ship to return here was that flown by Capt. H. S. Trewitt, who landed at 10:02 p. m. Tuesday after a simulated bombing attack en route on both San Francisco and Ogden, Utah.

Capt. John W. Hanley brought his plane in fourth at 4:05 a. m., after a similar bombing run over Denver.

Lt. Col. John D. Bartlett, 436th Squadron commander and original 8th Air Force project officer in the transition from B-29s to B-36s, had flown a special plane carrying four spare engines in nacelles slung under its wings. He returned to Carswell at 6:50 a. m., after a flight of 19 hours 30 minutes from Hawaii.

Lt. George Cameron flew a 33-hour homeward mission, going as far east as Tampa, on a simulated bombing run before returning to Carswell to land at 8 a. m. By comparison, Trewitt had been in the air 23 hours and Hanley 28 hours on their return flights.

Capt. George Benedict, whose plane turned back from the runway with engine trouble as the others took off Monday evening at Honolulu, finally got away from the Hawaiian capital at

Plans OK'd For Big, New Water Plant

Plans for a new water plant of at least 50,000,000-gallon daily capacity were authorized Wednesday by City Council.

The council authorized Water Director Stephens to begin immediate negotiations for an engineering study. The plant will supplement the Holly Water Plant, and will be located "on some other tract."

"If our growth continues in the future at a rate similar to that of the last five years, the city will have to have a greater water capacity," City Manager Jones told the council in recommending the move.

He said funds are available for the engineering study but that money for the new plant must come from "other sources" than the \$12,500,000 set aside for water expansion in the \$18,000,000 bond issue voted for water and sewer expansion more than a year ago.

Jones said the Holly plant now has a 60,000,000-gallon daily capacity and will be raised to 100,000,000-gallon capacity not later than 1954.

Daily usage at the Holly plant already has passed the 50,000,000-gallon mark but water supplies "will be in good shape this year," Jones said.

The council also authorized an immediate survey for extension of water mains from the East Side Pump Station to the growing residential areas east of Sycamore Creek.

The survey will include areas of Polytechnic and Glen Garden east to Handley.

Three Killed in Crash Of Plane in Minnesota

ROCHESTER, Minn., June 28 (INS).—Authorities Wednesday investigated the crash of a private airplane near Dover, Minn., Tuesday night that killed the mayor of that village and two young sisters.

The dead were Mayor E. A. Britzius, 58, wealthy retired farmer and owner and pilot of the small cabin plane. The girls were Joann, 9, and Mary Rose Herman, 10, also of Dover.

Authorities said the small plane nose-dived onto a rural highway.

Troops Deliver Meat

LONDON, June 28 (AP).—The labor government called out troops Wednesday to handle deliveries of meat after 1,000 drivers quit work at Smithfield market, a central distributing market, because of a wage dispute.

BACK TO PRACTICE

License of Dr. Sander Is Restored

CONCORD, N. H., June 28 (AP). Dr. Herman N. Sander, country physician, was sent back to minister to his patients Wednesday by the state board of registration in medicine.

The board restored his license to practice, which it had suspended after he was acquitted March 9 of a murder charge in the death of a dying cancer patient, Mrs. Abbie Borroto, 59.

At his trial, which failed to become a test case for euthanasia (mercy death) as expected, the prosecution contended Dr. Sander administered a deadly quantity of air into Mrs. Borroto's veins. The defense satisfied a jury the woman already was dead before the injection.

Dr. Sander's right to resume practice is effective immediately.

Three Midwest States Are Ripped By Severe Winds

By Associated Press. Tearing winds raced across parts of three Midwest States early Wednesday—Kansas, Missouri and Oklahoma.

And in Bennington, Vt., hail stones as big as table tennis balls pounded down during an electrical storm which smacked at wide sections of New England Tuesday.

The highest velocity was recorded at Russell, Kan. The Kansas City, Mo., weather bureau said winds raced up to 90 miles an hour there.

Trees were uprooted in the Central Kansas town of 6,000. Several buildings were damaged, and communications were disrupted. A heavy downpour accompanied the air blasts. No one was reported injured.

Federal Weathermen said that a "line squall" roared from Northwest Kansas to the southeast, and the following other wind speeds were recorded:

At Hutchinson, Kan., 50 m. p. h.; Joplin, Mo., 45; and Tulsa, Okla., 45.

Dodge City, Kan., reported 40 mile an hour winds, and Chanote, Kan., 49.

THINK IT OVER

BY B. M. STANSIFER

There is a big difference between the Rule of Gold and the Golden Rule.

Air Field, Terminal Are Named

City Council Wednesday named the Administration Building and the air field at Greater Fort Worth International Airport in honor of Amon G. Carter.

The unanimous vote by the council members came upon presentation of a petition by Marvin Leonard, spokesman for a delegation requesting the action. Leonard was introduced to the city governing body by Web Maddox.

Leonard, who is also chairman of the board of the Fort Worth Terminal Corporation, told the council "we have here a petition bearing signatures of some 172 outstanding citizens of Fort Worth. We could have secured thousands but did not deem it necessary."

Petition Is Read.

The petition states that:

"Amon G. Carter brought the first aviation to Fort Worth and for forty years he has tirelessly and unselfishly devoted his boundless energy, and his own money, to the purpose of building here a great aviation center. His exceptional effort has brought to Fort Worth a cash flow of several billion dollars for payrolls, material and supplies and it has brought more than twenty thousand happy and prosperous neighbors to our midst.

"For eight long years Amon G. Carter has led the program to build our great international air terminal that within a few months will give Fort Worth one of the finest airport facilities in the world and will guarantee the public convenience and adequate airline service for North Texas.

"Amon G. Carter is father of the Greater Fort Worth International Airport and the undersigned citizens of the air-minded city respectfully petition the Honorable City Council of Fort Worth to give the air field and the Administration Building his name in honor of his unselfish service and to so designate and dedicate those facilities at the ground-breaking ceremonies which will herald the beginning of construction on the Administration Building late in June this year."

Unanimous Accord.

Councilman Baker immediately stated "I don't think anything could be added to what has been said and I would like the honor of moving for acceptance of the petition and for naming the Administration Building and air field as petitioned."

Councilman Martin immediately seconded the motion, and the "aye" votes from the entire council were completed when Mayor Deen read a telegram from Councilman McKnight in San Antonio which added McKnight's affirmative vote.

Members of the delegation were Maddox, Leonard, Sid W. Richardson, Mrs. O. R. Grogan, Dan Lydick, George Thompson Jr., Otto Monnig, Rev. James K. Thompson, W. K. Stripling, Lionel Bevan, R. E. Cox and Roscoe Carrnike.

The ground-breaking ceremonies will take place at 10 a. m. July 10.

(Turn to Page 2 for complete list of petition signers.)

CHECK PASSES

Carswell Security Is Tightened

Tightening of all security measures was invoked Wednesday by 8th Air Force headquarters on Carswell Air Base and other bases under its command.

Maj. Gen. Archie J. Old Jr., 8th commanding general, explained that the action was directed by higher headquarters.

Entrance to Carswell hereafter will be limited to those persons needed to carry on normal business, Old explained, and passes for all incoming and outgoing personnel will be checked.

For the time being, no personnel on leave will be recalled nor will present leave requests be canceled, he added.

Mexican Miners Rescued

SALTILLO, Mexico, June 28 (AP).—Two miners, buried for 102 hours, were rescued Wednesday from the Las Palomas pit. Other miners had worked around the clock to dig through a caved-in tunnel to the two. Their first request was for a bottle of tequila. They got it.

Break in Extreme Heat Is Expected Tomorrow

Heat that killed a man in Houston and buckled concrete pavement near Wichita Falls Tuesday is expected to lessen in Fort Worth Thursday, U. S. Forecaster Knarr said Wednesday morning.

Jesse Hugh Bargainer, 46, a Houston house-to-house produce peddler, was stricken late Wed-

nesday and was dead on arrival at a hospital. He was that city's first heat fatality of the year.

Near Wichita Falls, several sections of Highway 287 buckled from the heat Tuesday when temperatures rose to 100 degrees there, the hottest this year. State Highway Department repair crews were sent to fix the much-traveled stretch.

Expected to bring cooler temperatures—lower 90s—and a possible shower Wednesday night is a mass of cool air moving in from the Dakotas, Knarr said.

Presidio, as usual, was the state's hottest spot Tuesday with 107 degrees. Cotulla had 102 and El Paso, Laredo, Childress and Wink recorded 100.

Petitioners Ask Name for Air Field

Signers of the petition presented City Council Wednesday, which asked that the air field and the administration building of the Greater Fort Worth International Airport be given the name of Amon G. Carter, in recognition of his services to aviation are:

- R. E. Harding, Fort Worth National Bank.
- Marvin Leonard, Leonard's Department Store.
- O. P. Leonard, Leonard's Department Store.
- W. K. Stripling, Stripling's.

Parley Is Called Today In Newspaper Strike

NEW YORK, June 28 (AP).—Federal mediators have scheduled a new meeting Wednesday between the New York World-Telegram and Sun and the American Newspaper Guild in another effort to end a 16-day-old strike. It was the first joint negotiation meeting since last week. The big evening paper has been closed down since the walkout on June 13, when the guild struck for more pay, a nine-out-of-10 guild shop, and a stronger job security clause.

Noah M. Smith, 88, of Lampasas, Is Buried

LAMPASAS, June 28 (Spl).—Funeral services were held Tuesday afternoon at First Methodist Church for Noah M. Smith, 88, who died Monday, the day after his wife was buried. Smith was a native of Kentucky and had resided here for the last 67 years. Surviving are a son, Ernest Smith of Downey, Cal., and a sister, Mrs. Minnie Reams of Buffalo, N. Y.

Decomposed Body May Be That of Negro

Envelop of Dallas Firm Found in Purse May Clear Up Identity

The mystery of a broken skeleton found five miles east of Beaton found five miles east of Beaton brook Dam spillway may have been solved Wednesday with information gathered by the Star-Telegram from a Dallas insurance firm's files.

Papers found on the remains indicated the dead man was Martin Scates of Wills Point. A social security card bore the name, and a billfold contained an envelope sent from National Bankers Life Insurance Company of Dallas.

The firm told the Star-Telegram Wednesday by telephone that it had on file an application for hospitalization insurance from Scates, a Negro, 65 years old when he applied for a policy Nov. 17, 1941.

The application also stated the man was a chronic sufferer from heart and kidney disease, leading investigators to believe he may have died of natural causes.

Decomposed state of the remains made it difficult for officers to determine exact cause of death. Pieces of the skeleton were scattered in a ravine where the body was found. Investigators said wild animals might have strewn the bones.

Chief Deputy Sheriff A. B. Carter and Deputies J. V. Green and Dick Lewis, investigating Wednesday, were considering the possibility that the dead man might have been a Negro reportedly in a fight with dam construction workers several weeks ago.

Papers found with the remains indicated Scates recently had been in Los Angeles and Wills Point.

The remains, taken to Miller Funeral Home, were discovered Tuesday by M. C. Rall Jr., rancher, and his foreman while they searched on horseback for a lost bull.

Deputies said they would continue the investigation to determine exact cause of death and whether or not foul play was involved.

Malone Woman's Rites Scheduled for Today

MALONE, June 28 (Spl).—Rev. A. C. Leifer was to conduct funeral rites Wednesday afternoon at Salem Lutheran Evangelical Church near here for Mrs. Otilie Broeder, 78, who died Sunday at the home of a son, Benjamin Broeder, at Beaumont.

Mrs. Broeder was born in Germany. She and her husband moved to Malone in 1906. Her husband died in 1938.

Another son, R. H. Broeder of Helena, Ark., and a daughter, Mrs. Margaret Zander of Riesel, survive.

Building, Loan Firm Dividend Due Saturday

A \$70,852.30 semi-annual dividend will be distributed Saturday by the Tarrant County Building & Loan Association, Lewis D. Fox, president, announced Wednesday. The current dividend rate is 2½ per cent per annum. Fox said the association's assets are \$6,088,986.
