Fort Worth, Texas

Dear Mr. Carter:

Under date of November 14 City Manager W. O. Jones advised the City had approved the sale of aviation gasoline to the CAA at cost, plus the handling charge. This action will materially assist us in the economic operation of our CAA aircraft. Another factor of considerable importance is that our flying personnel feel that the City of Fort Worth does have an interest in the welfare of the CAA and I am sure the net results will be a healthy cooperative spirit.

Please accept my sincere appreciation for your interest in this problem.

Sincerely yours,

L. C. Elliott
Regional Administrator
