

December 26, 1950

Mr. Carter:

Mr. Travis of the Fort Worth CAA office called to give you the following information:

The House Interstate and Foreign Commerce Committee on December 19, reported out Senate Bill 1281 which amends the Federal Airport Act to make the federal share of costs for land acquisition the same as for other project costs.

The Bill had previously passed the Senate.

It may be possible for Mr. Rayburn to have the measure called up on the Consent Calendar and secure passage by the House before adjourning.
