HARTE HANKS & COMPANY - SAN ANGELO

TEXAS

P. O. Box 311

January 29, 1953

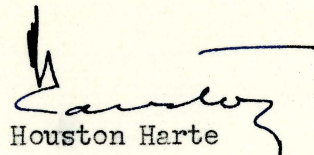

Dear Amon:

Fred Conn just sent me a copy of his letter to you about the Eisenhower project of buying additional land around the General's birthplace.

I do not know what the situation was 62 years ago, but as of today the General was born on the wrong side of the tracks. It is for this reason that we need so badly to buy a couple of blocks of ground in order to get the Eisenhower Birthplace away from some very ordinary and dilapidated dwellings.

I hope you can convince the right man to head this project.

Sincerely,

Houston Harte
