---

7 March 1953.

Mr. Fred Conn, Publisher,  
The Denison Herald,  
Denison, Texas,

Dear Fred,

Many thanks for map and plat of the property involved in the Eisenhower project. This is at least the proper beginning of this matter. However, I regret to advise you that Mr. Carter is in the hospital where he must be for some time and for a complete rest. But it is also true that the matter must be presented to him as nearly complete in detail and scope as possible.

I have given some thought to various steps which should be taken. All of this will require time; consequently Mr. Carter's unfortunate illness may not be a delay at this time.

Just as soon as possible--probably the week of March 22-- I will come up to Denison, look the property over and confer with you and your associates. I will advise you the date in advance. In the meantime, with all good wishes, please believe me,

Sincerely yours,

Web Maddox.
