

WAR DEPARTMENT  
THE CHIEF OF STAFF  
WASHINGTON

22 November 1946

Dear Amon:

In line with our recent discussion, I had fondly hoped to get down to Texas, but as in so many things that I consider highly desirable from a personal angle, I find I must give way to other demands not nearly as attractive. The doctors insist I must give them a full four weeks' shot at me, and this will take up my full time away from Washington.

I enjoyed our talk when you were here and truly regret we won't get a further chance to get together next month.

Sincerely,

*The General*

Mr. Amon G. Carter
