

November 9, 1950.

Lieut. Colonel Robert L. Schulz
Aide to General Eisenhower
537 West 116th Street
New York 27, N. Y.

Dear Colonel Schulz:

The writer ran into Mr. Perry Bass on the street today and he advised that you were anxious to have newspaper clippings on anything pertaining to General Eisenhower during his recent visit in Fort Worth. The clippings had already gone forward to your New York office.

Mr. Bass also mentioned that you had requested clippings concerning General Eisenhower's previous visit in Fort Worth, but that I had not sent them to you. This we cannot understand, as many pictures as well as clippings were sent immediately following his trip here. In fact, it has been Mr. Carter's instructions, which we have diligently tried to carry out, that any news item concerning General Eisenhower, or editorial comment which might appear in the Star-Telegram newspapers be sent, and this we have tried to do. Therefore, if you will advise what it is that you would like to have, we will make every effort to send the material to you.

Incidentally, we are enclosing one complete set of the pictures made during General Eisenhower's visit in Fort Worth November 8, 1950.

Yours very truly,

Secretary to A. G. Carter
