Dear Amon:

Congratulations on your 188 page special edition of
the STAR-TELEGRAM!

It just reached me today.

Of course as a citizen I should be shocked to see
that you are not conserving paper as you should; but as a
friend I am delighted at the success of the issue.

However, I think that a man capable of such an
advertising triumph in these times should go farther afield
to achieve even greater glory, rather than confine such
ability to the Texas League.

Kindest personal regards.

Sincerely,
