Dear ~~Minnie~~ *I*

Ike and I thank you for your nice note of congratulation on his nomination. It was all very exciting and when they seated the Texas delegation, we felt that we had accomplished a great deal. The result of the entire Convention, of course, was very heartwarming. Only through the tremendous help and efforts of friends like you was it possible to put the nomination over!

We returned to Denver immediately and I am staying with Mother while Ike has been resting in the mountains fishing and painting. He returned last Sunday and is feeling full of pep.

It was such fun seeing you in Paris. I do hope that your Grieff dress turned out well. I am simply swamped with mail and this is only a little note to really say "hello" and "thank you."

Love to your mother, Amon and yourself.
