General Hugh Drum      Commander of the Sixth Corps Area, Chicago.  
Came to Chicago from Hawaii Islands, last command  
Second Lt. of Infantry at age of 18 years

General W. W. Howes      First Asst. Postmaster General

*WASHE*  
Rear Admiral Waesche      In charge of the Coast Guard for the entire country.  
Might make some crack about his not liking the  
whiskey. Used to get better whiskey from the  
row boats during Prohibition days.

General Hap Arnold      One of the first army flyers. Believe he was  
taught to fly by one of the Wrights. A good  
fellow and can take a joke. Might say something  
about having been in the cavalry once. He just  
had a "stewed stirrup" for dinner, which accounts  
for his unhappy look.

Mark Mc Kee      Operator of lake boats. ~~Might make some crack~~  
*King make*  
*and*  
*support for*  
*for "Coul"*  
about him getting in by mistake. Thought it  
was a subsidy meeting on account of Bill Howes  
being here and wanted to make sure that the lake  
boats were taken care of.

Bob Upham      City Comptroller for Chicago - one of the budget  
balancing boys. A good fellow - former banker

C. R. Walgreen      Walgreen drugs. He is the man who is putting  
*Sugar*  
up the money for the aircraft show.

L. B. Manning      One of the pioneer stockholders in aviation.  
Has lost some money in every air company ever  
organized.

Vincent Bendix

~~You know about him~~  
A man who furnishes the
