

STEWARDESS DAILY FLIGHT REPORT

Date: April 25th, 1939

AM 4/23.....Flight 8

Stewardess...A. Stanfill

NC #16004

From..Memphis....To.....Newark

Mr. Amon Carter was very very interesting. He had a lot of pictures of his ranch, etc. He had just had his tonsils out and told me all about the operation.

He wore a brand new light colored felt hat and where it was hung under the clip on the plane left two dirty marks on it.

He said something about it twice. I offered to give him money to have it cleaned but did not insist as he was riding on NRM. I intended to ask the Agent at Newark, but he got away before I could ask what to do about it. However, if you think the company should have it cleaned, I'm sure the force at Ft. Worth would know his address to contact him or send a check.

I understand he has done a lot for aviation. He certainly is nice.
