Mr. A. G. Carter,  
Star-Telegram,  
Fort Worth, Texas.

My dear A. G.:

Just a few lines to thank you for your cordial and considerate hearing when I was in your office on Saturday.

Am writing my New York office today, assuring them of your entire willingness to cooperate in the California litigation. I am explaining that you would prefer to make a deposition in the case, rather than give direct testimony. Also, I am explaining why you would prefer this.

Have suggested to Mr. Connolly the idea you had about a letter from Mr. Murphy or some other important publisher.

It is my conviction that the attorneys in the case will be very much disappointed if you cannot ultimately be persuaded to give direct testimony. I had a talk by long distance with Mr. H. S. McKay, while I was in California. You and he have met. He was delighted at the prospect of having you as a witness and asked me to leave no stone unturned to persuade you to come to the Coast.

My latest report from Joe is that he is convalescing on his farm in Connecticut.

Again thanking you for your courteous consideration and for acceptance of me as a member of your staff, I am,

Very sincerely yours,

  
I. F. Alofsin
