

February 15, 1955.

Mr. Lawrence Bell, President
Bell Aircraft Corporation
P. O. Box One
Buffalo 5, New York

Dear Mr. Bell:

Inasmuch as Mr. Carter is ill and unable to attend to business, he has asked the writer to acknowledge receipt of the scale model of the Bell X-1A rocket-powered research airplane, which was designed and built by the Bell Aircraft Corporation for the United States Air Force, and was flown by Major Charles E. Yeager at a speed of 1650 miles per hour.

Mr. Carter is very happy to be able to add this fine model to his collection of miniature model airplanes and appreciates your thoughtfulness in sending it to him.

Thanking you and with best wishes,

Sincerely,

Secretary to A. G. Carter
