Send the following message, subject to the terms on back hereof, which are hereby agreed to

Fort Worth, Texas  
May 24, 1951

Honorable Lyndon Johnson  
United States Senator  
Washington, D.C.

We have been working diligently with the Chicago Pneumatic Tool Company to locate a new plant in Fort Worth. They have filed their application TA-8293 (April 17, 1951) with H. R. Hanson, Assistant Director of Oil and Refining, under Director Frank Watts and are now awaiting approval of the Petroleum Division for PAD to grant permit PERIOD The Chicago Pneumatic Tool Company has a big plant in Utica, New York, as well as a rock bit plant in Franklin, Pennsylvania, making drilling bits for the production of petroleum PERIOD The purpose of the plant in Fort Worth is to be closer to their customers and enable them to move their rock bit equipment out of Franklin, Pennsylvania, in order to provide more room there for making air compressors and diesel engines for the Government PARAGRAPH

If you can have someone assist in securing this plant we will appreciate it tremendously Mr. Jim Lewis, Vice-President of the Chicago Pneumatic Tool Company of New York, Telephone Vanderbilt 6-1700, will come to Washington if you should require his assistance in better presenting or explaining this problem PERIOD Understand this matter will be passed on within a week therefore any activity would be necessary immediately PERIOD I realize you are tremendously busy but I thought maybe you would know someone in this Department or you could have Mr. Jenkins of your organization carry through on it PERIOD He certainly did a good job in acquiring the Globe Aircraft plant for the Bell Aircraft to make pods for the B-36 at Fort Worth. This plant would employ five or six hundred people and be a permanent institution for Fort Worth after war activities are over
