Mr. Amon G. Carter,
Publisher Fort Worth Star-Telegram,
Fort Worth, Texas,

Dear Sir:

It was with a great deal of pleasure that we read in the morning papers here on April 30th inst., your reply to the Hon. Secretary of the Interior Mr. Ickes, wherein the latter had complained of an editorial which recently appeared in your paper.

We have had a somewhat similar experience with the honorable gentlemen here. Recently he came down from Washing to "set the boys right" in California. It seems that a large number of very prominent Democrats were evading the Itchy Ickes carpetbag in California so he came down to gather the boys into the fold. He reprimanded them in no uncertain terms, but it seems that instead of going into the Ickes carrol, they stampeded and most of them landed in the green pastures of the Garner range.

By actual 'nose count' there are some fifty thousand former Texans in Southern California, and more than one hundred thousand in state. They have a Texas organization. We hope to vote one hundred per cent for Garner. We are organizing the "Long Horn Club," and will soon issue the Texas Long Horn magazine. With those forces and the Honest Government League, which latter has already indorsed Mr. Garner, we expect to do some very effective work for him as the campaign goes forward, and will carry California by a sweeping majority. We are,

Very truly yours,

HONEST GOVERNMENT LEAGUE, INC.
