My Dear Amon,

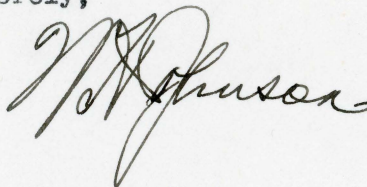

Thanks for the editorial pages relating to Mr Ickes.

It seems to me that he is "biting the hand" that has fed him. If memory serves me correctly, it was back in 1932 when one "Amon Carter" arranged matters between Texas and California that assured Mr Roosevelt's nomination.

Without Mr Roosevelt would "Castigating Harold" have been selected for political preferment?

Best wishes

Sincerely,

A handwritten signature in cursive script, appearing to read "W. Johnson".
