Dear Amon:

It would be useless for me to try to express to you again our sincere appreciation for everything you did to make our trip to Fort Worth one of the most enjoyable visits we have ever experienced. I think we developed some mutually beneficial business plans while we were there, but they were offset by your wonderful hospitality and all of the social affairs built around my knighthood.

Francys and I will treasure these days forever. Thanks to you for your generosity in affording me the plaque and the lovely traveling cases, and they will be preserved as one of my closest possessions.

Sincerely,

"Sir Red"
