Dear Amon:

Pardon the delay in giving you a report upon the distribution of your Christmas gifts.

First, let me say that Francys and I enjoyed the pecans and, as usual, we have covered the apartment with the shells of Shady Oak. We also took the Jerry bomb of champagne to the ranch and can assure you that all of the family and friends of Electra's and Johnny's had a big time sharing it with us.

The presents sent to the ranch were enthusiastically received and I, in turn, had the bag flown back to Fort Worth with instructions to have it delivered to you immediately. I hope this has been done.

As I have told you many times, Amon, no person could adequately thank you for your generosity, but you do know that Francys and I, who really feel a part of the family, want to thank you and Minnie sincerely and warmly for all the things you have done for us, not only at Christmas, but for all time. You are a great friend and a great inspiration, and we only hope that we can always merit the high regard that you hold for us and that we will always be closely knit to such a fine gentleman.

Sincerely,

"Red"
