Very Old
Fitzgerald

We believe this whiskey to be unique. It represents the highest achievement of our Kentucky family distillery which has for three generations occupied a niche of some distinction as distillers of genuine old style bourbon. Eight years ago this particular whiskey was produced according to our exclusive family recipe. Since that day it has remained undisturbed to age in deep-charred heavy oak . . . untouched by human hands . . . unhurried by time. Now, like an antique enhanced by age, nature has mellowed this bourbon to a memorable perfection. It has been reserved and bottled for a connoisseur. It is a collector's item.
