

OFFICE MEMORANDUM

Mr. Carter/

Date _____

_____ Department

Will Rogers said in an article written from Hawaii:

"Hawaii is the only place I know where they lay flowers on you while you're alive. They hang them around your neck; that's better than laying them on your chest when your hands are crossed."

I was glad and thankful to notice in that photo - you with that wreath of flowers 'around your neck'.

H.Magendie.
