It affects only 50 of the 1,200 pilots on strike. Board Member Leverett Edwards said the pilots have been sent to both company and union officials, but declined to say how they are. Apparently they related to plans to put the whole matter of pilots working hours up to an arbitrator.

Officials of American Airlines broke off negotiations Wednesday afternoon.

Company negotiators left Washington but the mediation board said the peace conferences were still on.

Pilots Take Flight To Second Airline

CHICAGO, Aug. 18 (AP) - The Air Line Pilots Association carried its fight for an eight-hour continuous flight time limit to a second airline today. It requested United Airlines to hold off any resumption of flights from New York City to Los Angeles.

The Association will meet with ALPA representatives in Denver Thursday to discuss the proposal.

The Air Line Pilots Association has already won a similar flight time system with American Airlines.

The strike began July 15, when the company offered a three per cent wage raise and a four per cent increase in vacation pay.

The pilots rejected the offer and have continued with the strike.

If the strike continues, it will be the third major strike in the airline industry this year.

Airline Vice President Answers Letter Of Pilots Association Representative

This telegram has been received from Rex Smith, vice president of the association, in answer to a letter printed Thursday by the Ed Modes, director of publicity and public relations for the Air Line Pilots Association.

"Editor, Fort Worth Star-Telegram:

"The letter you printed Aug. 15 signed by Ed Modes, director of publicity and public relations for the Air Line Pilots Association, regarding the Airline American strike, contains several inaccuracies and misinterpretations. I am writing to correct them."

Mr. Modes' letter is set by the statement in the first paragraph: 'The true issue is not the striking pilots. That is a misrepresentation of facts. The striking pilots are members of the American Airlines pilots' association. They are opposed to the operation of the nonstop flights which were the subject of their strike ballot. They did not strike against nonstop coast-to-coast air transportation.'

It is our position that the strike is in violation of that contract.

Typhoon Losing Force in Japan

TOKYO, Thursday, Aug. 18 (AP) - A destructive typhoon, its force partially spent, headed northeast Monday on the striking American Airlines pilots. The typhoon was leaving in its wake 52 dead or missing, 14 injured, and a terrible property toll.

The year's most destructive typhoon in Far Eastern waters has been downgraded to a "tropical storm." Over land, typhoons and hurricanes rapidly lose strength and the Central Weather Bureau said hopefully the worst would soon be over.

The latest casualty toll includes 18 dead and 54 missing. At least 27 small ships and fishing boats have been sunk, 45 are missing or washed aground.
