

Friday. Aug. 18th 1944

Dear Mr. Carter: —

I sent the enclosed article to my aunt, Mrs Marvin Sanson, asking her to take it to your office for you to read. She returned it this morning, saying she called your office about it.

I am now sending it directly to your office

Of course I'm worried about them fighting with Polish army, also about Col. Barron having a wounded hip. His letter is the first I know of it.

I wonder if there is any way you could check up to find out for sure they were Oflag 64 prisoners that

² along with two letters I received last Monday from Col. Barron.

I am quite excited about the contents of the clipping, and feel the "news" are in the crowd that were freed, possibly they were being moved out of Poland and got as far as a Warsaw station.

were freed and where
they are now.

Be sure you will
return the letters as soon
as you can and thank
you kindly -

Best regards to
Mrs Deakin and yourself.

Mrs Gaines J. Barron

"My Dearest Dodie-

I was getting terribly blue for a letter - and then got one Sat. written Dec. 2- also Xmas Card of Dec. 3 - rather old- but they cheered me up no end. But even so, we are all at a loss for an explanation of why our later letters have stopped coming. Maybe I'll get a whole flock of them some day. The weather is more pleasant now - some days fairly warm. How it make me long to be home-with you- then I think of our fishing - the boat- all of those things-Flounder at the "Green Lantern"- you can't imagine how low one can get-and how little we really appreciated the things we have there- and then the worry and lonesomeness for you-God grant that all this ends soon- We will have so much to make up for-just you & I.

Your latest dated letters made me feel better about you, tho' keep on taking care of yourself-and for God's sake don't try false economy by trying that work yourself. It really mae me angry that you should try it. Use Effie all you need her - and tell her "Hello" for me. It is good to know that so many people have written and have called. Tell everybody I would like to write them but must save my allowance for you. Pat "Pal" for me. He is a wonderful friend. Remember that I love you with my life and someday we'll be together again -

(Signed) Barron
