Dear Amon,

I have been thinking of you quite a bit lately since our armies have been making such fine progress in Germany and wondering if you have heard anything further from your son. I am hoping that he has been found among some of the many prisoners already^d liberated but, if not, we must just continue to pray that he soon will show up.

My youngest son, Bill, is a paratrooper over there and our last letter from him was dated March 11th. and, up to that time, he still was not in combat so I am still hoping that he will not get in it. My oldest son is still in China in the ATC.

I hear of some of the folks up in Bowie occasionally but most of the old timers are out of the picture now so that is a sure sign that we are growing older.

With best regards and prayers that your boy is OK and you will soon hear from him if you have not already, I am,

Your friend,

Frank B. Baker
