

March 12, 1943

Mrs. Elliott Roosevelt called and asked if there was anything in the world she could do or any resources she had to help you. I told her that if there was any way in the world she could get any additional information, I was sure you would be very grateful - that you wouldn't want to ask anything that any other father under similar circumstances would ask. I gave her Amon's serial number and his address and she said if she could think or find any way to get more information she would do her level best.
