Mr. Amon G. Carter,
Owner and Publisher,
Ft. Worth Star Telegram,
Ft. Worth, Texas.

My dear Amon:

I do hope the article I have just read about your son being either missing or a prisoner will prove to be an error. You have my heartfelt sympathy. Amon, there is something terribly wrong with all peoples of the earth that could bring about such a world condition as now exists and there should be a remedy. However according to the Bible, if it is a truthful book, there is and has always been wars and rumors of wars and fathers turned against sons and vice versa and this will continue until the end of the world according to that book.

I am now 67 years of age, a physical giant and in perfect health. If my dream ever comes true I will again have an office in Ft. Worth and return to my rightful place in the oil business. In the meantime I am doing a great good in the world for those who suffer and have lost hope, a happy work when successful and heartbroken when I fail to help the poor devil who is down. I often read the Star Telegram and may decide to advertise in same if my copy will be accepted.

With every good wish for you and yours, I am your old friend, whom I hope you have not forgotten,

Very sincerely and sympathetically yours,

Ed F. Hannon

ED F. HANNON.

EFH:ech

—GOOD HEALTH IS THE MOST PRICELESS POSSESSION OF MAN—

Without health, therefore, life really is of little value to him or others. If we do not put anything good into life we cannot expect to get any thing good out of life. To do good and to receive good we must be clean and healthy, both in body and mind. A filthy body produces infections that affect both body and mind.
