Dear Ann —

In yesterday's Los Angeles Times, I saw where Ann's was missing. I wanted you to know he is on my heart & mind & will return with glory for his name. Of course you know Ann Ethel is in Australia, a nurse, has been there a year — I'm very a great deal but do what she wanted to do.

She has talked with so many of
your near correspondents -
I'll be glad to have any news - and
remember I'm praying always for
the return of our boys & girls -
always
