Dear Amon:

I feel how weak and fruitless must be any words of mine which should attempt to divert you from the grief of the news about Amon Jr., but my heart goes out to you in the crisis. I am hoping that the next news will be that he is well and safe.

I received your letter with the enclosures which I am very proud and happy to have and I do appreciate your thoughtfulness in sending them to me.

We have not had any recent news from John Jr., but will keep you advised.

With my love and esteem,

Sincerely,

John.
