Mr. Carter:

Mary Talbot called and she had a letter from Pinkie today dated March 2nd in which he told her "Amon Junior is missing and from the circumstances I am almost sure, however, he is just captured. I hope that is it and that he will turn up safely". Mary said he cautioned her not to say anything about it until you had been officially notified by the War Department so I asked her to tell him that you had received notice and to please give us any little thing he could obtain about the particulars and details of the matter.

K.D.
