Mr. Carter:

Mr. Gaylord Chizum called this morning - said he had just returned from a two weeks trip on the Pacific Coast - that he saw the story about Amon in a California paper and made several efforts to send you a wire but simply couldnot find words to express himself, so he waited until he returned and called immediately, to tell you how sorry he was and that he was at your command if there was anything in "God's World" he could do for you.
