Dear Mr. Carter:

It was with a great deal of concern that I read in the paper a report that Amon, Jr. was reported as missing in North Africa. Words mean so little in comparison to your sorrow that it seems almost futile for me to try to express my heartfelt sympathy to you in writing, however, I do want you to know that I extend to you my deepest sympathy and prayers. We must not lose sight of the fact that he is resourceful in his own right and somehow I have faith that he will be reported as captured by the enemy, and that the time will come when he will be with us again.

Sincerely yours,

*W. R. Watt*
