Lt. Amon Carter Jr. Alive; Nazi Prisoner

90

A flood of telegrams from friends all over the U. S. arrived today for Amon Carter, rejoicing in the news that his son, Lt. Amon Carter Jr., is still alive as a prisoner of the Germans in Germany.

The information reached Mr. Carter from the War Department yesterday afternoon.

Lieutenant Carter was with an armored unit and had been in Africa since December. Word was received March 11 that he was missing in action. He is believed to have been taken prisoner during the original German offensive through Faid Pass.
