My Dear Amon;

I cannot help expressing my feelings for you and your family, in receiving word that your son, whom it seems was reported as lost in Action in North Africa, is alive and a Prisoner in hands of the Germans.

The first news I am sure was a terrific shock to you and the fact which is, that he is alive, I know gives you much joy and comfort and its to be hoped, that he will yet come out of the struggle in good shape and back to you and loved ones in good health and make of himself a good and useful citizen, as you have always been.

Mrs Patteson, and my Daughter, join me in this our best wishes in this great trial of both its grief as well as the joy, which you now must feel in receiving this news of the boy.

Very sincerely,
