

Dear Folks,

This is just a letter to letter to let you know that I am a line and feeling well. My sinus has finally completely gone. Ruth now I know what it is like, so if you ever want your head rubbed while I am around, I'll rub it all night.

I am having an old time of a time with my Physics. I'll find out how much I know next Saturday when we take tests. I didn't do a bit of good on the first two but maybe better next time.

I got a letter from Mrs. Nellie Larson the other day. She told me all about the church and Mrs. Vinson. Of course you had already told me most of it. I got another letter from Rollen Hawpel. He is about to complete a course in aerial gunnery. When he does he will have a sergeant's rating. That is if he doesn't get a medical discharge. He was going to get a physical the next day. In his letter it seemed as if he were about to cry. He doesn't want to go home until the war is over. <sup>It is his shoulder that he broke.</sup> I got another letter from Charles Clark telling me that he was 4.F. He says that he is going to stay at home and buy a car. He might think that he is lucky but I wouldn't trade places with him for a million dollars.

Thanks for the candy.

Time to quit and start studying, love Joe
