

GREENVILLE ARMY FLYING SCHOOL
GREENVILLE, MISSISSIPPI

3-2-44

Dear Falke,

I've got 15 minutes before I have to go to night blinker code, so this will have to be an extra quickie.

There is nothing new except that they are working us half to death, I just wanted to say how sorry I am that our line was so poor on the tel-phon this morning. I don't think that either of you heard very much of what I said. I didn't have anything to say anyhow, and besides I could hear both of you perfectly so I was satisfied, "stingey me!"

I just a word about this air plane
that they let me herd around here every
once in a while. It is a B.T. 13A.

They have B.T. 15₂ + B.T. 13B₂ ~~two~~ here too
but I haven't flown any of them yet.

They all have a 450 H.P. engine and
believe me that's lots of horses for a
little boy like me to drive around at
once. Any how it seems quite hard while
I am still in the elementary learning

phase. I have only been up 3 times
due to weather but it has been clear
for the last two days and from now
on those horses will start to pile
up. I'll call you when I solo this one.

This program that I inc enclosed, I thought
I sent it home about a month ago but I guess
didn't. Anyhow this is how I spent one
enjoyable, "believe it or not" evening in Cambridge
Gottago - Love,
Joe
