### 1947 -- YEAR OF HOLIDAYS

Dear Mr. Carter:

For more than five years you (like millions of others) have had to postpone the day when it would once again be possible to include many areas of the world on your travel itinerary. In the strenuous days of war, when our thoughts and our energies were dedicated to the common struggle, considerations of the pleasures of travel had to be subordinated in our minds to the grim job in hand. But now, thanks to the magic of flight, there are no longer geographical limits to your enjoyment when you step aboard your Flying Clipper.

Surveys indicate that this year, 1947, well may be the greatest travel year in history! Travel facilities, both enroute and at destinations, are being augmented. Giant new Clippers, designed to speed you to your destination in a minimum of time with a maximum of comfort, are even now joining our transport fleet. You will find, all along your route, that many of the old attractions are there to greet you. New accommodations for the convenience of travelers are even now being installed, making accessible new travel areas and enhancing the attractiveness of familiar places.

Now, for the first time, "two weeks abroad" takes on a new meaning. No longer is it necessary to spend the major portion of your holiday getting to and from your destination. Now, by Clipper, "less time on the way means more time to play." As you join other Clipper passengers who will be flying this year to travel spots in many parts of the world you will know the true enjoyment that comes from a better understanding of our World Neighbors by seeing them at work and at play.

With your personal copy of "Air Ways to Happy Days" go our very best wishes for a Happy and Prosperous New Year for 1947.

V. E. Chenea  
Vice President &  
General Traffic Manager
