May 9, 1946

Dear Sir:

I am enclosing this reprint
as I believe you might be interested in this
advertisement.

Sincerely,

Rex Smith
Vice President - Public Relations

Enc.

AIR POWER *is:*

1. THE STRIKING FORCE
2. THE NATION'S PRODUCTIVE CAPACITY
3. THE NATION'S AIR TRANSPORT CAPACITY

- The first is not directly our business; the second and third we can do something about.
- Productive capacity can be sustained only by ORDERS.
- Air transportation can gain strength only by increases in the aircraft fleet.

American Airlines has, or has on order:

- 55 DOUGLAS SKYMASTERS *4 masters*
- 60 DOUGLAS DC-6's
- 100 CONSOLIDATED 240's
- 20 REPUBLIC RAINBOWS
- 7 LOCKHEED CONSTELLATIONS
- 8 BOEING STRATOCRUISERS

250
That is our present contribution to U. S. Air Power; it is also definite indication of our confidence in the future of U. S. air transportation.
